Key Responsibility

To be an integral part of a team committed to providing the best possible diagnostic, interpretative and clinical and laboratory haematology services to our clients and patients. Provides and promotes high quality and patient centred care to all patients under the supervision of Clinical Supervisors within a multi-disciplinary team. Works within ability and according to the Hospital's mission & core values. Provides training, supervision and education for Resident Medical Officers (RMOs) and Interns. In collaboration with the multidisciplinary team works to achieve national, State and area specific health service performance standards and targets.

About our health service

The Child and Adolescent Health Service (CAHS) is a comprehensive service that supports and treats children from around Western Australia, and is committed to programs that promote lifelong health in children and adolescents.

CAHS is made up of four service streams:

- **Neonatology:** Neonatology provides state-wide tertiary neonatal services to the sickest newborn babies and infants in Western Australia.
- **Community Health:** a comprehensive range of community based early identification and intervention services, as well as health promotion, to children and families in the Perth metropolitan area. Services are provided in a variety of settings including at home, local community health centres, child and parent centres and schools.
- **Child and Adolescent Mental Health Services (CAMHS):** provide mental health services to infants, children, young people and their families across the Perth metropolitan area. Services include community based programs, inpatient care at Perth Children's Hospital and specialised services for children with complex mental health conditions across the State.
- **Perth Children's Hospital (PCH):** is the specialist State-wide paediatric hospital and trauma centre for Western Australia, caring for children up to the age of 16. PCH is also a centre of excellence for teaching and research, partnering in major paediatric research and education initiatives led by the Telethon Kids Institute (TKI) and the State's universities.

Our vision

Healthy kids, healthy communities

Our vision of 'healthy kids, healthy communities' sees that children and young people get the best start in life through health promotion, early identification and intervention and patient centred, family-focused care.

Our objectives

Our values drive us

CAHS promotes a values based workplace culture and all employees are expected to translate our values into action by providing high quality care through:

Summary of accountabilities
