

Position title	Senior Advisor Change & Product Risk
Division	Group Risk
Department	Group Operational Risk
Direct Reports	Nil

Our culture and values

We have a clear strategy and important work in place to become Australia's bank of choice.

Our values of **teamwork, integrity, performance, engagement, leadership** and **passion** are at the core of who we are and form the expectation of the behaviours we adopt every day.

We strive to have a culture that drives balanced outcomes; is open and informed for disciplined execution; that celebrates and recognises success; and where the sum is greater than its parts. To achieve this, we focus on four critical behaviours: **act commercially; move fast to help customers achieve their goals; recognise people for their impact; and actively challenge the status quo.**

Together, we're creating a culture we can continue to be proud of; one that will help us reach new heights.

ROLE PROFILE

Your division, your team

Group Risk is the second line of defence in the Bank's risk management approach and includes the independent oversight functions of: Group Operational Risk (GOR), Credit Risk Management, Risk Governance and Middle Office.

The Head of Group Operational Risk reports directly to the Chief Risk Officer (CRO) and to the Executive and Board through the Board Risk Committee.

GOR is an independent second line of defence risk function and centre of expertise that provides opinions, advice, oversight and challenge on operational risk / non-financial risk matters in an advanced accredited bank. GOR assists the Bank and its Board to make informed risk / reward decisions in line with the Bank's Risk Appetite and objectives through its monitoring of key material risks and:

- Providing opinions, insights, advice, oversight and challenge in relation to operational risk / non-financial risk while continuing to create efficiencies
- Continuously improving the frameworks, policies, processes, systems and tools for operational risk management
- Facilitating and /or supporting the Bank's operational risk monitoring, reporting and regulatory change requirements
- Facilitating and / or supporting operational risk processes where a Bank-wide risk view or risk approach is required.

The purpose of your role

The Senior Advisor Change & Product Risk Oversight is responsible for driving governance, oversight and continuous improvement of the risk management practices of the business and first line risk teams primarily across the relevant areas of responsibility for the team (including, but not necessarily limited to, Change Risk including Transformation, Conduct Risk, Product Lifecycle Management, Remediation Risk Management and Policy Risk Management). This includes consideration of broader holistic risk impacts e.g. credit, liquidity etc. The responsibilities include:

- Providing SME input into the design, development, implementation and ongoing oversight / continuous improvement of the Change & Transformation Risk Management Framework, including policies, standards, procedures and tools
- Providing SME input into the design, development, implementation and ongoing oversight / continuous improvement of the Product Lifecycle Framework, including policies, standards, procedures and tools

- Providing SME input into the design, development, implementation and ongoing oversight / continuous improvement of the Enterprise/Consumer Remediation Framework, including policies, standards, procedures and tools
- Providing SME input into the design, development, implementation and ongoing oversight / continuous improvement of the Conduct Risk Management Framework, including policies, standards, procedures and tools
- Providing SME input into the design, development, implementation and ongoing oversight / continuous improvement of the Policy Risk Management Framework, including policies, standards, procedures and tools
- Providing oversight, influence and challenge of risks, obligations, controls and processes (including, but not necessarily limited to, holistic risk considerations for decision making purposes, delivery and delivered risk considerations)
- Providing independent monitoring of the risks across the relevant areas of responsibility
- Providing advice as/where required across the relevant areas of responsibility and in relation to risk management generally
- Support regulator reviews and information requests, relevant to the areas of responsibility of the team
- As and where relevant, collaborating and working effectively with 1LOD teams, 2LOD teams and 3LOD teams
- Providing input into regular risk reporting as and where required and/or present to Management Committees as/where relevant.

Your core relationships

This role reports to the Head of Transformation & Product Risk Oversight. Key relationships include the Transformation & Business related stakeholders, Group Product Functions, People & Culture linkage from a Conduct Risk perspective and Group Assurance, specifically:
