Position Summary

The Professor of Econometrics will play a leadership role within the Department. He or she will support the Department's objectives in research, teaching and engagement by pursuing research in the discipline, publishing in leading international journals, playing a leading role in teaching innovation and course and curriculum development, and contributing to external debate. He or she will make a significant contribution to the collegial and intellectual life, and the sustained success of the Department and provide excellent administrative leadership.

The successful applicant will have an outstanding track record in leadership, research, teaching and engagement activities. He/she will have been the recipient of major competitive research grants, have a substantial publication track record, demonstrated quality as a teacher, and have contributed to the discipline externally, and through engagement. Applications from candidates specialising in any area of econometrics will be considered.

1. Key Responsibilities

1.1 Research and Research Training

- Publish in top tiered refereed journals.
- Seek and develop opportunities for research collaboration within the department and beyond the University.
- Participate in and contribute to the organisation of academic conferences, seminars and workshops.
- Ensure ongoing success in research proposals and competitive external research grants.
- Contribute to the Department’s programs and the research training of its higher degree research students.
- Contribute to a vibrant research environment, by mentoring junior academic staff in their research endeavours, and contributing to research events within the Department and Research Units.

1.2 Teaching

- Coordinate and teach subjects as directed by the Head of Department.
- Participate in and lead initiatives to improve course and subject offerings.

1.3 Leadership and Management

- Provide academic and managerial leadership within the Department in research activities and in supporting and mentoring junior academic staff.
- Contribute to the recruitment activities of the Department, by actively engaging with recruitment prospects and when appropriate be a member of the recruitment panel.
- Provide academic leadership more widely in the Faculty of Business and Economics and the University where appropriate.
1.4 SERVICE TO UNIVERSITY AND PROFESSION

- Contribute to econometrics profession and community through activities such as conferences and advice to government and industry bodies.
- Promote the University and the discipline by participating in appropriate local, national and international organizations.

2. Selection Criteria

2.1 ESSENTIAL

- A Ph.D. in econometrics or a related disciplinary area.
- A distinguished international reputation and outstanding research record in Econometrics.
- The ability to provide high quality leadership in research, teaching, administration and engagement.
- Demonstrated capacity to provide high quality mentoring and supervision of staff and graduate students.
- Demonstrated capacity to secure funds from external competitive grants.
- A record of high quality, successful teaching innovation and leadership in course and curriculum development.
- An ability to work effectively and lead within a large department.

2.2 DESIRABLE

- Experience with fostering online and alternative modes of teaching.
- A demonstrated record of effective engagement with the wider community.
- Leadership in and/or membership of relevant professional bodies, advisory/editorial boards and other relevant organisations.

3. Equal Opportunity, Diversity and Inclusion

The University is an equal opportunity employer and is committed to providing a workplace free from all forms of unlawful discrimination, harassment, bullying, vilification and victimisation. The University makes decisions on employment, promotion and reward on the basis of merit.

The University is committed to all aspects of equal opportunity, diversity and inclusion in the workplace and to providing all staff, students, contractors, honorary appointees, volunteers and visitors with a safe, respectful and rewarding environment free from all forms of unlawful discrimination, harassment, vilification and victimisation. This commitment is set out in the University’s People Strategy 2015-2020 and policies that address diversity and inclusion, equal employment opportunity, discrimination, sexual harassment, bullying and appropriate workplace behaviour. All staff are required to comply with all University policies.

The University values diversity because we recognise that the differences in our people’s age, race, ethnicity, culture, gender, nationality, sexual orientation, physical ability and
background bring richness to our work environment. Consequently, the People Strategy sets out the strategic aim to drive diversity and inclusion across the University to create an environment where the compounding benefits of a diverse workforce are recognised as vital in our continuous desire to strive for excellence and reach the targets of Growing Esteem.

4. **Occupational Health and Safety (OHS)**

All staff are required to take reasonable care for their own health and safety and that of other personnel who may be affected by their conduct.

OHS responsibilities applicable to positions are published at:

http://safety.unimelb.edu.au/people/community/responsibilities-of-personnel

These include general staff responsibilities and those additional responsibilities that apply for Managers and Supervisors and other Personnel.

5. **Other Information**

5.1 **ORGANISATION UNIT**

The Department of Economics is a leading department in Australia with a strong postgraduate program and an outstanding group of economists and econometricians, all of whom have high research profiles. The Department is one of the largest departments in the Faculty of Business and Economics. The Department is research active and performs teaching and research in the areas of economics, econometrics and actuarial studies. The Department provides high quality teaching at undergraduate and postgraduate levels and undertakes high quality research. The Department actively contributes to the community and maintains strong ties to business and government sectors. Located within the Department are:

- Centre for Actuarial Studies
- Trade and Development Research Unit
- Economic Theory Research Unit
- Microeconometrics Research Unit
- Macroeconomics Research Unit
- Households Research Unit
- Centre for Market Design

More information on the department can be found at

http://www.economics.unimelb.edu.au/

5.2 **BUDGET DIVISION**

The Faculty of Business and Economics at the University of Melbourne has been preparing students for exciting and challenging careers in industry since 1924. We have
developed an outstanding reputation, locally and internationally, for the quality of our teaching and research. The Faculty has an active board of business leaders, government representatives and community leaders who contribute to the implementation of our vision.

Organisational Structure

The Faculty is home to Melbourne Business School (MBS) and to six teaching and research departments:

- Accounting
- Business Administration
- Economics
- Finance
- Management and Marketing
- Melbourne Institute of Applied Economic and Social Research

The Faculty has the following student and academic support centres:

- Academic Support Office
- Student Employability and Enrichment
- Research Development Unit
- The Williams Centre for Learning Advancement

The Faculty is supported by the following Professional Services Units:

- Finance
- Human Resources (including OHS)
- Marketing and Communications
- Service Level and Facilities Management
- Quality Office

Our Programs

There are about 9,500 students enrolled in undergraduate and graduate degrees within the Faculty.

The Bachelor of Commerce is one of the most sought-after business courses in Australia. From 1 May 2013 all graduate programs in business and economics are offered through Melbourne Business School. Melbourne Business School offers a full suite of professional masters programs for those with little work experience right through to the MBA suite. It is also the home of leading research masters degrees and the PhD.

Our Graduates

Since the Faculty was established it has produced over 53,000 graduates. Many of our alumni now occupy senior positions in business, government and academia, in Australia and around the world.

Further information about the Faculty is available at www.fbe.unimelb.edu.au.
5.3 THE UNIVERSITY OF MELBOURNE

Established in 1853, the University of Melbourne is a leading international university with a tradition of excellence in teaching and research. The main campus in Parkville is recognised as the hub of Australia's premier knowledge precinct comprising eight hospitals, many leading research institutes and a wide-range of knowledge-based industries. With outstanding performance in international rankings, the University is at the forefront of higher education in the Asia-Pacific region and the world.

The University employs people of outstanding calibre and offers a unique environment where staff are valued and rewarded.

Further information about working at The University of Melbourne is available at http://about.unimelb.edu.au/careers.

5.4 GROWING ESTEEM, THE MELBOURNE CURRICULUM AND RESEARCH AT MELBOURNE: ENSURING EXCELLENCE AND IMPACT TO 2025

GrowingEsteem describes Melbourne's strategy to achieve its aspiration to be a public spirited and internationally-engaged institution, highly regarded for making distinctive contributions to society in research and research training, learning and teaching, and engagement. http://about.unimelb.edu.au/strategy-and-leadership

The University is at the forefront of Australia's changing higher education system and offers a distinctive model of education known collectively as the Melbourne Curriculum. The new educational model, designed for an outstanding experience for all students, is based on six broad undergraduate programs followed by a graduate professional degree, research higher degree or entry directly into employment. The emphasis on academic breadth as well as disciplinary depth in the new degrees ensures that graduates will have the capacity to succeed in a world where knowledge boundaries are shifting and reforming to create new frontiers and challenges. In moving to the new model, the University is also aligning itself with the best of emerging European and Asian practice and well-established North American traditions.

The University’s global aspirations seek to make significant contributions to major social, economic and environmental challenges. Accordingly, the University's research strategy Research at Melbourne: Ensuring Excellence and Impact to 2025 aspires to a significant advancement in the excellence and impact of its research outputs. http://research.unimelb.edu.au/our-research/research-at-melbourne

The strategy recognises that as a public-spirited, research-intensive institution of the future, the University must strive to make a tangible impact in Australia and the world, working across disciplinary and sectoral boundaries and building deeper and more substantive engagement with industry, collaborators and partners. While cultivating the fundamental enabling disciplines through investigator-driven research, the University has adopted three grand challenges aspiring to solve some of the most difficult problems facing our world in the next century. These Grand Challenges include:

- Understanding our place and purpose – The place and purpose grand challenge centres on understanding all aspects of our national identity, with a focus on Australia’s ‘place’ in the Asia-Pacific region and the world, and on our ‘purpose’ or mission to improve all dimensions of the human condition through our research.
- Fostering health and wellbeing – The health and wellbeing grand challenge focuses on building the scale and breadth of our capabilities in population and global health;
on harnessing our contribution to the 'convergence revolution' of biomedical and health research, bringing together the life sciences, engineering and the physical sciences; and on addressing the physical, mental and social aspects of wellbeing by looking beyond the traditional boundaries of biomedicine.

- Supporting sustainability and resilience – The sustainability and resilience grand challenge addresses the critical issues of climate change, water and food security, sustainable energy and designing resilient cities and regions. In addition to the technical aspects, this grand challenge considers the physical and social functioning of cities, connecting physical phenomena with lessons from our past, and the implications of the technical solutions for economies, living patterns and behaviours.

Essential to tackling these challenges, an outstanding faculty, high performing students, wide collaboration including internationally and deep partnerships with external parties form central components of Research at Melbourne: Ensuring Excellence and Impact to 2025.

5.5 GOVERNANCE

The Vice Chancellor is the Chief Executive Officer of the University and responsible to Council for the good management of the University.

Comprehensive information about the University of Melbourne and its governance structure is available at http://www.unimelb.edu.au/governance
