Position Summary

The REPAIR Research Group, led by Dr Kate Hayward and located within the Melbourne School of Health Sciences, are recruiting for a Postdoctoral Fellow role. The REPAIR Research Group examine the nexus of brain repair and motor recovery after stroke and have a particular interest in using innovative early phase and adaptive trial designs. Our multidisciplinary research group works closely with clinical partners at Austin and Melbourne Health, as well as The Florey Institute of Neuroscience and Mental Health. With the aim to improve our understanding of recovery after stroke, our research encompasses early phase clinical trials, cohort studies, and neuroimaging and neurophysiological marker investigations. Specific stroke recovery projects underway include trials of dose and timing of upper limb motor intervention, integrated upper limb and language training after stroke, and use of neuroimaging and neurophysiological markers to understand recovery.

This Postdoctoral Fellow opportunity will primarily work on the MRFF funded "integrated UPper limb and Language Impairment and Functional Training (UPLIFT) after stroke trial", as well as assist and support other related projects of the group. The Postdoctoral Fellow will drive and assist with the management and conduct of the UPLIFT trial. This entails research project development, management and conduct in collaboration with the study leaders and broader team, management of ethics, data collection, entry and analysis, and preparation of publications. This is a multicentre trial that spans four states of Australia. The intervention stratum include in-person training at a health centre and at-home training via telerehabilitation. The successful applicant will have the opportunity drive their own projects related to the MRFF project with supervision, and as such a high degree of responsibility, self-motivation and organisation is critical. The Postdoctoral Fellow will be expected to function as an effective and central team member of a larger, highly cohesive research team.

We foster a values-based culture of innovation and creativity to enhance the research performance of the University and to achieve excellence in teaching and research outcomes. We invest in developing the careers and wellbeing of our students and staff and expect all our leaders to live our values of:

- Collaboration and teamwork
- Compassion
- Respect
- Integrity
- Accountability
1. **Key Responsibilities**

1.1 **RESEARCH AND RESEARCH TRAINING**

- Direct the day-to-day operation of the research project(s) to ensure timely execution.
- Provide research trial leadership to
  - Manage and support the ongoing development and delivery of trial activities to ensure key performance indicators are delivered to a high quality and in a timely manner. This includes, but not limited to, site initiation, intervention and blinded assessor training, intervention delivery, site visits (locally and interstate) and fidelity monitoring.
  - Plan and carry out data collection on the nominated project(s) and assist with coordination of sub- and associated projects.
  - Collate and analyse data to investigate specific research questions.
  - Participate in the preparation of manuscripts, funding applications and ethics applications.
- Drive their own projects related to the MRFF project with supervision such as develop or build an understanding of the key areas of upper limb and language disability including the size of the problem, current management and approaches to retraining, and enhanced assessment methods.
- Support and assist the CI team to effectively engage and partner with the broader clinical research team, sponsors, trial ethics and governance staff, end-users including people with lived experience and other key stakeholders.
- Begin to develop an independent research profile, including Research Higher Degree co-supervision and research grant funding applications, to support and complement the local research team.
- Perform other tasks as required by the research group lead.

1.2 **FINANCIAL**

- Oversee the planning and budget requirements of the project(s) activities.
- Monitor expenditure and ensure timely financial and narrative reporting for research partners.

1.3 **ENGAGEMENT**

- Support the team to effectively engage and partner with the broader clinical research team, sponsor, trial governance, and other key stakeholders.
- Attend and contribute actively to research group meetings through participation in discussions or related research publications and the presentation of research data for discussion.
- Present research findings at local, national and international forums.
- Attend and actively participate in departmental seminars, meetings and/or committee memberships.

1.4 **SERVICE AND LEADERSHIP**

- Assist with administrative duties including maintenance of equipment, staff management (HR) and purchasing.
- Perform other tasks as requested by the research group lead.
- Undertake Occupational Health and Safety (OH&S) and Environmental Health and Safety (EH&S) responsibilities as outlined in Section 4.
2 Selection Criteria

2.1 ESSENTIAL

- Bachelor degree in Physiotherapy, Occupational Therapy or Speech Pathology with stroke recovery and rehabilitation clinical expertise. For Physiotherapy and Occupational Therapy, current registration with AHPRA.
- Postgraduate research expertise as demonstrated by completion of a PhD (or within 6 months of completing) or equivalent qualifications.
- Demonstrated high-level organisational skills (the ability to set priorities, meet deadlines, initiate and follow-up actions).
- Ability to establish and maintain trial sites across a broad range of clinical, research and industry professionals.
- An emerging record of publications, conference papers and/or reports, or professional or technical contributions which provide evidence of strong research potential.
- Sound analytical and communication skills with an ability to communicate complex information clearly both orally and in writing.
- Evidence of the ability and willingness to work independently while effectively collaborating as a member of a team in a supportive and collegial manner to ensure successful project outcomes.
- Demonstrated knowledge of Good Clinical Practice requirements and adherence to the ICH-GCP and WHO guidelines for the conduct of scientific research.
- Demonstrated attention to detail and experience in systematic review and synthesis of the literature, data entry, data auditing, quality assurance and control.
- High level of proficiency in the use of standard application software such as the Microsoft Office suite, statistical packages, REDCap etc.
- Demonstrated commitment to the Faculty values of Collaboration & Teamwork, Compassion, Respect, Integrity, and Accountability.

2.2 DESIRABLE

- Experience in the preparation of research proposal submissions to external funding bodies and evidence of success in securing funding.
- Demonstrated ability to establish trial sites and provide comprehensive project management for large multi-site clinical trials.
- Numeracy skills with experience in reporting income/expenditure for reconciliation/ budget tracking.
- Demonstrated ability to supervise, or co-supervise, Honours, Masters and/or PhD students.
- Data visualisation and statistical analyses skills, especially in SPSS, STATA or R.
- A current Australian driver’s license.

3. Equal Opportunity, Diversity and Inclusion

The University is an equal opportunity employer and is committed to providing a workplace free from all forms of unlawful discrimination, harassment, bullying, vilification and victimisation. The University makes decisions on employment, promotion and reward on the basis of merit.

The University is committed to all aspects of equal opportunity, diversity and inclusion in the workplace and to providing all staff, students, contractors, honorary appointees, volunteers and visitors with a safe, respectful and rewarding environment free from all forms of unlawful discrimination, harassment, vilification and victimisation. This commitment is set out in the University’s
People Strategy 2015-2020 and policies that address diversity and inclusion, equal employment opportunity, discrimination, sexual harassment, bullying and appropriate workplace behaviour. All staff are required to comply with all University policies.

The University values diversity because we recognise that the differences in our people’s age, race, ethnicity, culture, gender, nationality, sexual orientation, physical ability and background bring richness to our work environment. Consequently, the People Strategy sets out the strategic aim to drive diversity and inclusion across the University to create an environment where the compounding benefits of a diverse workforce are recognised as vital in our continuous desire to strive for excellence and reach the targets of Growing Esteem.

4. Occupational Health and Safety (OHS)
All staff are required to take reasonable care for their own health and safety and that of other personnel who may be affected by their conduct. OHS responsibilities applicable to positions are published at: http://safety.unimelb.edu.au/people/community/responsibilities-of-personnel These include general staff responsibilities and those additional responsibilities that apply for Managers and Supervisors and other Personnel.

5. Other Information
5.1 SCHOOL OF HEALTH SCIENCES
The Melbourne School of Health Sciences (MSHS) is a School within the Faculty of Medicine, Dentistry and Health Sciences. It is an inter-professional learning organisation at the forefront of leadership in health sciences education, clinical research, scholarship, professional practice, workforce training and engagement that contributes to local, national and global efforts to improve health and wellbeing. The MSHS values and ensures strong relationships with the health professions, workforce agencies, the community, governments, accreditation and regulating authorities, and industry partners. It values a strong discipline focus and professional identity while fostering interprofessional collaborations and synergies in teaching, clinical education and research.

The MSHS educates graduate entry and post-graduate students in the disciplines of Nursing, Social Work, Physiotherapy, Audiology and Speech Pathology through accredited programs tailored to workforce needs both nationally and internationally. It provides local and overseas students with training to enable them to be competent and effective health professionals who are work ready and eligible for registration. The School also delivers professional education courses and training for health sciences professionals and builds strong relationships with the alumni in each discipline.

The School currently comprises approximately more than 120 academic and professional staff as well 200 honorary staff. There are more than 1,100 equivalent full-time students, including more than 100 higher degree research students. The School has an impressive research profile including a strong record of national competitive grants and significant involvement with the health care industry through Co-Operative Research Centres and research contracts. Further information about the Melbourne School of Health Sciences is available at: http://www.healthsciences.unimelb.edu.au/
5.2 PHYSIOTHERAPY
The department of physiotherapy was established in 1991 and makes distinctive contributions nationally and internationally to the physiotherapy profession and society in research, learning & teaching, and knowledge exchange. In 2009 it became a department within the Melbourne School of Health Science. Further information about Physiotherapy is available at: http://www.physioth.unimelb.edu.au/

5.3 FACULTY OF MEDICINE, DENTISTRY AND HEALTH SCIENCES
The Faculty of Medicine, Dentistry & Health Sciences has an enviable research record and is the University of Melbourne's largest faculty in terms of management of financial resources, employment of academic and professional staff, teaching of undergraduate and postgraduate (including research higher degree) students and the conduct of basic and applied research. The Faculty's annual revenue is $628m with approximately 55% of this income related to research activities.

The Faculty has a student teaching load in excess of 8,500 equivalent full-time students including more than 1,300 research higher degree students. The Faculty has approximately 2,195 staff comprising 642 professional staff and 1,553 research and teaching staff.

The Faculty has appointed Australia’s first Associate Dean (Indigenous Development) to lead the development and implementation of the Faculty's Reconciliation Action Plan (RAP), which will be aligned with the broader University – wide plan. To enable the Faculty to improve its Indigenous expertise knowledge base, the Faculty’s RAP will address Indigenous employment, Indigenous student recruitment and retention, Indigenous cultural recognition and building partnerships with the Indigenous community as key areas of development.

5.4 THE UNIVERSITY OF MELBOURNE
Established in 1853, the University of Melbourne is a leading international university with tradition of excellence in teaching and research. The main campus in Parkville is recognise as the hub of Australia’s premier knowledge precinct comprising eight hospitals, many leading research institutes and a wide-range of knowledge-based industries. With outstanding performance in international rankings, the University is at the forefront of higher education in the Asia-Pacific region and the world.

The University employs people of outstanding calibre and offers a unique environment where staff are valued and rewarded. Further information about working at The University of Melbourne is available at http://about.unimelb.edu.au/careers.

5.5 ADVANCING MELBOURNE
The University’s strategic direction is grounded in its purpose. While its expression may change, our purpose is enduring: to benefit society through the transformative impact of education and research. Together, the vision and purpose inform the focus and scale of our aspirations for the coming decade.

Advancing Melbourne reflects the University’s commitment to its people, its place, and its partners. Our aspiration for 2030 is to be known as a world-leading and globally connected Australian
university, with our students at the heart of everything we do. We will offer students a distinctive and outstanding education and experience, preparing them for success as leaders, change agents and global citizens. We will be recognised locally and globally for our leadership on matters of national and global importance, through outstanding research and scholarship and a commitment to collaboration.

We will be empowered by our sense of place and connections with communities. We will take opportunities to advance both the University and the City of Melbourne in close collaboration and synergy.

We will deliver this through building a brilliant, diverse and vibrant University community, with strong connections to those we serve.

The means for achieving these goals include the development of the University of Melbourne’s academic and professional staff and the capabilities needed to support a modern, world-class university. Those means require a commitment to ongoing financial sustainability and an ambitious infrastructure program which will reshape the campus and our contribution to the communities we engage with. This strategy, and the priorities proposed, is centred around five intersecting themes; place, community, education, discovery and global.

5.6 GOVERNANCE

The Vice Chancellor is the Chief Executive Officer of the University and responsible to Council for the good management of the University. Comprehensive information about the University of Melbourne and its governance structure is available at http://www.unimelb.edu.au/governance.
