Position Summary

Orygen is the world’s leading research and knowledge translation organisation focusing on mental ill-health in young people.

At Orygen, our leadership and staff work to deliver cutting-edge research, policy development, innovative clinical services, and evidence-based training and education to ensure that there is continuous improvement in the treatments and care provided to young people experiencing mental ill-health.

The Company has three Members: the Colonial Foundation, The University of Melbourne and Melbourne Health.

The University of Melbourne has an agreement with Orygen for designated employees to be made available to undertake activities for Orygen, and this arrangement will apply to you. University employees working at Orygen are required at all times to continue to adhere to University policies, procedures, regulations and statutes, as well as to Orygen policies and procedures (including Orygen’s delegations of authority framework which can be found at http://staff.orygen.org.au/), but the University’s policies and procedures shall prevail in the event of any inconsistency. For the period of participating in activities at Orygen, you will be subject to the reasonable control and direction of Orygen. You consent to the University disclosing to Orygen your personal employment information solely for the purposes of facilitating your secondment to Orygen, and that such disclosure will not be a breach of any of your privacy rights.

Borderline personality disorder (BPD) is Australia’s third most costly mental disorder. It starts in adolescence and emerging adulthood, but treatment typically occurs late when problems in interpersonal relationships, education and employment are entrenched. Despite frequently seeking help, people with BPD are as likely to die from suicide as those with schizophrenia. The Helping Young People Early (HYPE) program has pioneered the field of prevention and early intervention for BPD in young people. Our research program aims to address two key questions: (i) How can we accurately define personality disorder characteristics in young people? (ii) How can we understand the cause and development of BPD to help prevention and early intervention?

We seek a Research Assistant to work on a randomised controlled trial (‘VERBATIM’) investigating whether a second-generation antipsychotic (aripiprazole) can reduce the severity of auditory verbal hallucinations in young people with BPD. Participants will be young people (aged 15 to 25 years) attending specialist clinical services at Orygen.

The Research Assistant will be required to display self-initiative and work productively within the research and clinical teams using established protocols. The Research Assistant will also be required to keep meticulous records and maintain data, assisting with data entry and verification.

The Research Assistant will report to, and work under the direction of the Research Project Manager and Principal Investigator, who reports to the Head, Centre for Youth Mental Health.

1. Key Responsibilities

1.1 Research and Research Support

- Participate in research independently and as a member of a research team;
- Liaise with Orygen clinical staff, and with young people with BPD and their families to recruit participants;
Conduct clinical interviews with participants within clinical (e.g. Orygen), community settings (e.g. client’s homes, schools, etc) and digital settings (e.g. Zoom) using multiple standardised clinical assessment instruments according to the research protocol;

Organise, conduct and facilitate participant MRI imaging sessions at the Austin Hospital;

Facilitate participants’ attendance at pathology collection centres for blood tests and conduct bio-specimen (hair sample) data collection;

Liaise with clients, families and Orygen clinical staff to transfer the trial investigational product (aripiprazole/placebo) to participants and to support the adherence to the treatment protocol;

Maintain accurate and detailed records of study data and participant information and consent procedures as well as maintaining confidential files and reports;

Assist with data entry, data verification and conduct basic data analysis;

Complete regular inter-rater reliability checks for compliance purposes;

Participate in the preparation of manuscripts for publication in peer-reviewed journals;

Regularly communicate and report to the research project manager (primary) and chief investigator (secondary) on study progress.

Participate in other research projects at Orygen as required.

1.2 LEADERSHIP AND SERVICE

Build competence and confidence in presenting the projects, study methods, analysis and results to academic and community audiences.

Work collegially as part of the project team involving multidisciplinary clinical, research and translational staff and manage research and clinical relationships.

Prepare and present reports for team meetings and study investigators.

Attend and participate in research meetings and associated research events.

Undertake other duties as requested by the supervisor and the Chair of CYMH.

Occupational Health and Safety (OHS) and Environmental Health and Safety (EH&S) responsibilities as outlined in section 5.

2. Selection Criteria

2.1 ESSENTIAL

Honours or Masters degree in behavioural or social sciences and/or related discipline.

High-level understanding of mental disorders (particularly BPD), including adolescent development issues.

Demonstrated ability to conduct interviews and interact with young people with mental health problems.

Demonstrated ability to understand and adhere to a research study protocol and familiarity with research and experimental design issues.

Demonstrated administrative, organisation and problem-solving skills in a research setting, including meticulous record keeping, data management skills (e.g. data entry, data verification) and ability to prioritise work to manage during peak periods.
Demonstrated excellent verbal and written communication skills for effective research collaboration and engagement.

2.2 DESIRABLE

- Experience working in a mental-health setting.
- Experience conducting randomised controlled trials, particularly with pharmaceutical interventions.
- Experience in handling and processing bio-specimens (e.g. hair).
- Knowledge and experience of neuroimaging, data processing and analyses, proficient use of image analysis software (e.g. FSL, ANALYZE, SPM, MEDx).
- Experience in writing research publications independently or as part of a research team.

2.3 OTHER JOB RELATED INFORMATION

- Unrestricted right to work in Australia.
- An Australian driver licence
- Any offer of employment is conditional upon receipt and maintenance of a valid Working With Children Card and a satisfactory Police Check.
- Some out of hours work may be required.
- This position is based at the Parkville site in Melbourne but capacity to work effectively from home will be required during the COVID-19 pandemic.
- All workplaces and the surrounding site are non-smoking environments.

3. Equal Opportunity, Diversity and Inclusion

The University is an equal opportunity employer and is committed to providing a workplace free from all forms of unlawful discrimination, harassment, bullying, vilification and victimisation. The University makes decisions on employment, promotion and reward on the basis of merit.

The University is committed to all aspects of equal opportunity, diversity and inclusion in the workplace and to providing all staff, students, contractors, honorary appointees, volunteers and visitors with a safe, respectful and rewarding environment free from all forms of unlawful discrimination, harassment, vilification and victimisation. This commitment is set out in the University’s People Strategy 2015-2020 and policies that address diversity and inclusion, equal employment opportunity, discrimination, sexual harassment, bullying and appropriate workplace behaviour. All staff are required to comply with all University policies.

The University values diversity because we recognise that the differences in our people’s age, race, ethnicity, culture, gender, nationality, sexual orientation, physical ability and background bring richness to our work environment. Consequently, the People Strategy sets out the strategic aim to drive diversity and inclusion across the University to create an environment where the compounding benefits of a diverse workforce are recognised as vital in our continuous desire to strive for excellence and reach the targets of Growing Esteem.
4. **Occupational Health and Safety (OHS)**

All staff are required to take reasonable care for their own health and safety and that of other personnel who may be affected by their conduct.

OHS responsibilities applicable to positions are published at:

http://safety.unimelb.edu.au/people/community/responsibilities-of-personnel

These include general staff responsibilities and those additional responsibilities that apply for Managers and Supervisors and other Personnel.

5. **Other Information**

5.1 **CENTRE FOR YOUTH MENTAL HEALTH**

www.cymh.unimelb.edu.au

In January 2009 the University of Melbourne established a new Centre for Youth Mental Health (CYMH) within the Faculty of Medicine Dentistry and Health Sciences, where the academic and professional staff who are provided to Orygen are now based. All NHMRC and ARC Grants to be used for Orygen activities are managed within CYMH.

The creation of this academic and administrative structure reflects the multidisciplinary nature of this field of inquiry and knowledge, and its growing scientific and practical breadth and significance. This is only the fourth such supra-departmental structure to be created in the Faculty and there is no parallel to date anywhere else in Australia.

The Chair of the Centre for Youth Mental Health is Professor Patrick McGorry and the Chief Operating Officer is Mr John Moran. Reporting arrangements are through the University of Melbourne structure with a direct report to Professor Shitij Kapur, Dean of the Faculty.

5.2 **ORYGEN**

www.orygen.org.au

Orygen is the world’s leading research and knowledge translation organisation focusing on mental ill-health in young people.

Further information available at https://www.orygen.org.au/About/About-Us

5.3 **FACULTY OF MEDICINE, DENTISTRY AND HEALTH SCIENCES**

www.mdhs.unimelb.edu.au

The Faculty of Medicine, Dentistry & Health Sciences has an enviable research record and is the University of Melbourne’s largest faculty in terms of management of financial resources, employment of academic and professional staff, teaching of undergraduate and postgraduate (including research higher degree) students and the conduct of basic and applied research. The Faculty’s annual revenue is $628m with approximately 55% of this income related to research activities.

The Faculty has a student teaching load in excess of 8,500 equivalent full-time students including more than 1,300 research higher degree students. The Faculty has approximately 2,195 staff comprising 642 professional staff and 1,553 research and teaching staff.

The Faculty has appointed Australia’s first Associate Dean (Indigenous Development) to lead the development and implementation of the Faculty’s Reconciliation Action Plan.
(RAP), which will be aligned with the broader University – wide plan. To enable the Faculty to improve its Indigenous expertise knowledge base, the Faculty’s RAP will address Indigenous employment, Indigenous student recruitment and retention, Indigenous cultural recognition and building partnerships with the Indigenous community as key areas of development.

5.4 THE UNIVERSITY OF MELBOURNE

Established in 1853, the University of Melbourne is a leading international university with a tradition of excellence in teaching and research. The main campus in Parkville is recognised as the hub of Australia’s premier knowledge precinct comprising eight hospitals, many leading research institutes and a wide-range of knowledge-based industries. With outstanding performance in international rankings, the University is at the forefront of higher education in the Asia-Pacific region and the world.

The University employs people of outstanding calibre and offers a unique environment where staff are valued and rewarded.

Further information about working at The University of Melbourne is available at http://about.unimelb.edu.au/careers.

5.5 ADVANCING MELBOURNE

The University’s strategic direction is grounded in its purpose. While its expression may change, our purpose is enduring: to benefit society through the transformative impact of education and research. Together, the vision and purpose inform the focus and scale of our aspirations for the coming decade.

Advancing Melbourne reflects the University’s commitment to its people, its place, and its partners. Our aspiration for 2030 is to be known as a world-leading and globally connected Australian university, with our students at the heart of everything we do.

We will offer students a distinctive and outstanding education and experience, preparing them for success as leaders, change agents and global citizens.

We will be recognised locally and globally for our leadership on matters of national and global importance, through outstanding research and scholarship and a commitment to collaboration.

We will be empowered by our sense of place and connections with communities. We will take opportunities to advance both the University and the City of Melbourne in close collaboration and synergy.

We will deliver this through building a brilliant, diverse and vibrant University community, with strong connections to those we serve.

The means for achieving these goals include the development of the University of Melbourne’s academic and professional staff and the capabilities needed to support a modern, world-class university. Those means require a commitment to ongoing financial sustainability and an ambitious infrastructure program which will reshape the campus and our contribution to the communities we engage with. This strategy, and the priorities proposed, is centred around five intersecting themes; place, community, education, discovery and global.

5.6 GOVERNANCE
The Vice Chancellor is the Chief Executive Officer of the University and responsible to Council for the good management of the University.

Comprehensive information about the University of Melbourne and its governance structure is available at https://about.unimelb.edu.au/strategy/governance
