

SENIOR LECTURER

DEPARTMENT/UNIT	School of Earth, Atmosphere and Environment
FACULTY/DIVISION	Faculty of Science
CLASSIFICATION	Level C
DESIGNATED CAMPUS OR LOCATION	Clayton campus

ORGANISATIONAL CONTEXT

At [Monash](#), work feels different. There's a sense of belonging that comes from contributing to something groundbreaking – it is a place where great things happen. You know you're part of something special and purposeful because, like Monash, your ambitions drive you to make change.

We have a clear purpose to deliver groundbreaking intensive research; a world-class education; a global ecosystem of enterprise – and we activate these to address some of the [challenges](#) of the age, Climate Change, Thriving Communities and Geopolitical Security.

We welcome and value difference and [diversity](#). When you come to work, you can be yourself, be a change-maker and develop your career in exciting ways with curious, energetic, inspiring and committed people and teams driven to make an impact – just like you.

At Monash we are [committed to academic freedom](#), and you will have access to quality research facilities, infrastructure, world class teaching spaces, and international collaboration opportunities.

We champion an [inclusive workplace culture](#) for our staff regardless of ethnicity or cultural background. We have also worked to improve [gender equality](#) for more than 30 years. Join the pursuit of our purpose to build a better future for ourselves and our communities – [#Changelt](#) with us.

The five Schools of the **Faculty of Science** offer a large and diverse range of disciplines in undergraduate and postgraduate courses. Ten Schools from other university faculties contribute to science teaching at all levels, allowing students to choose their studies from physical, biological, biomedical, behavioural, environmental, mathematical and computer sciences. The Faculty of Science has a strong research reputation. The Faculty's research spans the theoretical to the applied, contributes to new knowledge and technologies, and challenges how we interact with the world. To learn more about the Faculty of Science, please visit our [website](#).

Through leadership in research and education, the **School of Earth, Atmosphere and Environment** (www.monash.edu/science/schools/earth-atmosphere-environment) aims to find environmental solutions for society and our planet. The School is interdisciplinary and hosts very active groups in Atmospheric/Climate Sciences, Physical Geography/Environment, and Geology/Geosciences. We address the global challenges identified in the Monash [Impact 2030 Strategic Plan](#) (Climate Change, Geopolitical Security and Thriving Communities), and we answer further fundamental questions about the formation and workings of our planet and solar system. The School is located in the Faculty of Science and has close collaborations with Biology, Chemistry, Mathematics and Physics, and with other Faculties, such as Arts (involving co-delivery of the undergraduate Geography programme), Business and Economics, and Engineering.

The School supports the newly funded ARC Centre of Excellence 'Weather of the 21st Century' and Securing Antarctica's Environmental Future (SAEF), an ARC Special Research Initiative in Excellence in Antarctic Science, both of which are led out of Monash. Facilities include infrastructure to support fieldwork, world class geochemistry laboratories for elemental, stable isotope, radioisotope analysis of waters, soils and environmental materials, an environmental DNA facility, and a preparation laboratory for terrestrial cosmogenic nuclides. The School hosts the Monash Drone Discovery Platform, and groups within the School have established collaborations with the National Computational Infrastructure, and the Australian Synchrotron (located adjacent to Monash Clayton). The School has strong links with outside institutions such as Federal and State Government agencies, CSIRO, ANSTO, the Bureau of Meteorology, Australia's climate simulator (ACCESS NRI), the Australian Antarctic Division, AuScope, and Geoscience Australia, as well as a large number of research institutes and universities globally.

Monash and the Faculty of Science values staff diversity and champions inclusive practices. We are committed to equitable decision making and apply the principles of [achievement relative to opportunity](#) in our selection processes.

POSITION PURPOSE

The Senior Lecturer will develop excellence in teaching and research in the broad subject area of Physical Geography. We seek an outstanding colleague who brings new ideas to research and teaching to the School of Earth, Atmosphere and Environment and develops links with other Schools and Faculties.

The Senior Lecturer is expected to develop a new research group in the School, bringing fresh perspectives and novel research directions, building on our School's existing diversity of research in physical geography, atmospheric science and geoscience. In Physical Geography and the broader environmental earth sciences, we have existing strengths in climate impacts and adaptation, coastal science, cryospheric science, environmental geochemistry and water science, GIS and remote sensing, earth and planetary surface processes, and soil science, and the successful candidate will compliment and build upon these strengths.

A Level C academic is expected to make significant contributions to the teaching effort of the School and Faculty. The Senior Lecturer teaches into a range of undergraduate units in Physical Geography and Environmental Earth Sciences, and/or the Master of Environment and Sustainability, and/or the new Masters in Geographical Information Science and Technology. We currently have teaching gaps in water science, and past climates and environments, though the exact teaching contribution can be adjusted to fit the strengths of the incoming academic.

An academic at Level C is also expected to make significant contributions to scholarly and/or professional activities in their discipline.

Reporting Line: The position reports to the Head of School

Supervisory Responsibilities: Not applicable

Financial Delegation: Not applicable

Budgetary Responsibilities: Not applicable

KEY RESPONSIBILITIES

Specific duties required of a Level C academic may include:

1. The conduct of research including development and leadership of a research team
2. Sourcing significant external and/or government funding
3. Publishing high-impact papers in leading scientific journals, and/or text books
4. The conduct of lectures, tutorials, practical classes, demonstrations, workshops, and student field excursions
5. Initiation and development of course material
6. Course coordination
7. Supervision of PhD, honours and other postgraduate research projects
8. Supervision of coursework postgraduate students
9. Involvement in professional activities
10. Consultation with students
11. Broad administrative functions
12. Marking and assessment
13. Participation in School and/or faculty meetings and a major role in planning or committee work
14. Other duties as directed from time to time

KEY SELECTION CRITERIA

Education/Qualifications

1. The appointee will have:
 - A doctoral qualification in Physical Geography or a related discipline.

Knowledge and Skills

2. Possess a high level of interpersonal skills and demonstrated ability to work independently and as part of a team across both the education and research sectors
3. Demonstrated ability in undertaking outstanding research and leading research teams and projects
4. Demonstrated publication record in high-quality refereed journals and/or textbooks
5. Proven record of obtaining significant competitive external research grants
6. Demonstrated record of successfully supervising postgraduate research students
7. Demonstrated strong record of tertiary-level teaching including course coordination
8. Demonstrated ability to motivate, actively engage and educate diverse audiences
9. Ability to work positively and cooperatively with students, other staff, and external organisations

10. Demonstrated understanding of equity, diversity and inclusion principles and their application in promoting an inclusive workplace for colleagues and students

OTHER JOB RELATED INFORMATION

- Travel to other campuses of the University may be required
- There may be a requirement to work additional hours from time to time
- There may be peak periods of work during which taking of leave may be restricted
- A current satisfactory Working With Children Check is required

GOVERNANCE

Monash University expects staff to appropriately balance risk and reward in a manner that is sustainable to its long-term future, contribute to a culture of honesty and integrity, and provide an environment that is safe, secure and inclusive. Ensure you are aware of and adhere to University policies relevant to the duties undertaken and the values of the University. This is a standard which the University sees as the benchmark for all of its activities in Australia and internationally.
