Monash Sustainable Development Institute (MSDI) is committed to sustainable development research, translation and education. MSDI also engages across Monash to facilitate cross-faculty research partnerships that provide solutions to sustainable development challenges globally. Our expanding education focus includes postgraduate courses and PhD supervision alongside capacity development and student leadership activities. To learn more about MSDI please visit our website.

ClimateWorks Australia is an expert, independent adviser, acting as a bridge between research and action to accelerate the transition to net zero emissions for Australia and Asia Pacific. It was co-founded in 2009 by The Myer Foundation and Monash University and works within the Monash Sustainable Development Institute. ClimateWorks Australia also benefits from strong relationships with an international network of affiliated organisations that support effective policies, financing and action for greenhouse gas emissions reductions.

Since launch, ClimateWorks has made significant progress. Our collaborative, end-to-end approach to solutions that will deliver greatest impact is informed by a thorough understanding of the constraints of governments and the practical needs of business. This, combined with philanthropic funding and university ties, has earned the organisation an outstanding reputation as a genuine and impartial adviser. In the pursuit of its mission, ClimateWorks looks for innovative opportunities to reduce emissions, building an evidence-base for action through a combination of robust research and analysis, clear and targeted engagement, and effective capacity strengthening. We support decision makers with tailored information and the tools they need, and work with key stakeholders to remove obstacles and help facilitate conditions that encourage and support the transition to a prosperous, net zero emissions future.
