You’ll be given the opportunity to challenge yourself, build on your skills, and make a significant contribution to a workplace that’s filled with energetic and inspiring people. Talent thrives here - and so do truly satisfying careers. Discover more at www.monash.edu.

eSolutions leads and directs the provision of IT solutions to the University. eSolutions is currently leading substantial technological, service and organisational reform towards creating a single IT function for the University that operates according to the following vision: We partner with our customers to provide complete solutions enabling the Monash academic mission and delivery of the strategic agenda. We aim to be a customer focused organisation delivering flexible, responsive, coherent ICT services. For more information on the work that we do, please visit our website: monash.edu/esolutions/.

Our team provides excellent design, development, testing, support and management of customer facing applications in a hosted environment. We provide management of a number of applications that have been selected, configured, customised or developed to meet the various requirements of our customers across Monash University.

The Senior Application Administrator (SAA) is responsible for the ongoing support and maintenance of specified in-house managed applications. The SAA will ensure applications are secure, maintained and available according to the support and availability class of the application.

Reporting Line: The position reports to the appropriate Team Leader, who will provide broad direction
