Everyone needs a platform to launch a satisfying career. At Monash, we give you the space and support to take your career in all kinds of exciting new directions. You’ll have access to quality research, infrastructure and learning facilities, opportunities to collaborate internationally, as well as the grants you’ll need to publish your work. We’re a university full of energetic and enthusiastic minds, driven to challenge what’s expected, expand what we know, and learn from other inspiring, empowering thinkers. Discover more at www.monash.edu.

The Faculty of Engineering is one of the largest in Australia, renowned worldwide for the quality and calibre of our teaching, research and graduates. We offer a comprehensive range of undergraduate, graduate, postgraduate and higher degree by research programs in a wide range of engineering disciplines. Our research activities provide a platform for establishing a thriving educational enterprise and our staff are committed to creating a dynamic learning environment. The research activities range from fundamental studies to research with a strong applications orientation. To learn more about the Faculty of Engineering, please visit our website.

The Department of Civil Engineering aims to provide high quality education, research and professional services globally for the mutual benefit of the students, the staff, the University, industry, the profession and the wider community. We offer several undergraduate and postgraduate coursework degrees. The Department actively pursues innovative and significant multi-disciplinary research to address the challenges for engineering in the 21st century. For more information about us and the work we do, please visit our website.

The department has three main research themes including 7 areas of research focus (see www.eng.monash.edu/civil/research) and its Water Group is one of the leading water research groups in Australia. It has strong collaboration across its three campuses including Clayton Australia, Sunway Malaysia and Suzhou China. According to the 2022 Academic Ranking of World Universities, Monash was ranked 80th in general, 43rd in Civil Engineering, 42nd in Water
Resources and 36th in Remote Sensing in the world. Details on our state-of-art facilities can be found at www.monash.edu/engineering/departments/civil/research/our-facilities. The Department is looking to build on existing research strengths particularly in the areas of environmental remote sensing and/or modelling with a focus on areas such as flooding, droughts and ecohydrology.

The University’s strategic plan for 2021-2030 (Impact 2030) is “focused on addressing the challenges of the age for the betterment of our communities, both locally and globally”, actively addressing those challenges in collaboration with government, industry and the community. The water group is well positioned to advance the core goals identified in IMPACT 2030, through excellent research and education, the international reach of its activities and its strong record of developing enduring alliances and partnerships with industry, government and other organisations. More specially, climate and environmental challenges are largely driven by water and directly affect the future of society. Nevertheless, the magnitude of such challenges implies that no single field of research or profession can tackle them alone.

**POSITION PURPOSE**

A Level B academic is expected to make contributions to the teaching effort of the university and to carry out activities to maintain and develop her/his scholarly, research and/or professional activities relevant to the profession or discipline.

The Lecturer will contribute to education within the Department of Civil Engineering and research in environmental remote sensing and/or modelling with a focus on areas including, but not limited to, flooding, droughts and ecohydrology, and will contribute to the Departments’ focus on engaging with, and partnering on, research project opportunities with Faculty colleagues, national and international partners and industry. The incumbent will need to be able to teach core water units within the undergraduate civil engineering degree.

**Reporting Line:** The position reports to the Head of Department, Civil Engineering

**Supervisory Responsibilities:** Not applicable

**Financial Delegation:** Not applicable

**Budgetary Responsibilities:** Not applicable

**KEY RESPONSIBILITIES**

Specific duties required of a Level B academic may include:

1. The conduct of tutorials, practical classes, demonstrations, workshops, student field excursions, clinical sessions and/or studio sessions
2. Initiation and development of subject material
3. Acting as subject coordinator;
4. The preparation and delivery of lectures and seminars
5. Supervision of the program of study of honours students or of postgraduate students engaged in course work
6. Supervision of major honours or postgraduate research projects
7. The conduct of research
8. Involvement in professional activity
9. Development of course material with appropriate advice from and support of more senior staff
10. Marking and assessment
11. Consultation with students
12. A range of administrative functions the majority of which are connected with the subjects in which the academic teaches

13. Attendance at departmental, school and/or faculty meetings and/or membership of a number of committees

14. Other duties as directed from time to time

KEY SELECTION CRITERIA

Education/Qualifications
1. The appointee will have:
   - A doctoral qualification in the relevant discipline area.

Knowledge and Skills
2. Possess a high level of interpersonal skills and demonstrated ability to work independently and as part of a team across both the education and service sectors
3. Demonstrated analysis and manuscript preparation skills; including developing a solid track record of refereed research publications
4. Demonstrated research background across areas related to environmental remote sensing and/or modelling with a focus on areas such as flooding, droughts and ecohydrology
5. Demonstrated strong record of teaching experience in a tertiary environment with positive student feedback

OTHER JOB RELATED INFORMATION

- Travel and block teaching at other campuses of the University may be required
- There may be a requirement to work additional hours from time to time
- There may be peak periods of work during which taking of leave may be restricted
- A current satisfactory Working With Children Check is required

GOVERNANCE

Monash University expects staff to appropriately balance risk and reward in a manner that is sustainable to its long-term future, contribute to a culture of honesty and integrity, and provide an environment that is safe, secure and inclusive. Ensure you are aware of and adhere to University policies relevant to the duties undertaken and the values of the University. This is a standard which the University sees as the benchmark for all of its activities in Australia and internationally.
