Position no:	50049354
Team:	Product & Content Technology
Department:	Product Engineering
Location:	Ultimo
Reports to:	Engineering Manager 50054680
Classification:	Technologist
Schedule:	Schedule A
Roster cycle	2 Week Rostered
Band/level:	Band 7
HR Endorsement:	6/10/2017

Purpose

The position is for an experienced web developer to develop, maintain and support new and existing audience facing digital web-based products.

Key Accountabilities

- Provide advanced technical development skills within ABC Digital Product Technology team, to develop high performance, secure and accessible digital products in an efficient manner across desktop, mobile and potentially other device groups.
- As part of a team, contribute to the analysis, design and development of complex, re-usable components and functionality for a broad range of uses across various ABC digital properties.
- Maintain a professional approach to documentation, including project documentation for ongoing reference once a project is completed.
- Deliver high quality product development within agreed time and budget constraints.
- Maintain a high level of awareness of best practice in the industry for web development – particularly in areas such as performance, security, SEO and accessibility.
- Improve the quality of output by contributing to the development of best practices and development standards.
- Actively promote the ABC values and apply all relevant workplace policies and guidelines.

- Cooperate with any reasonable instruction, procedure or policy relating to safety and take reasonable care for your own safety and that of other people who may be affected by your conduct while at work. Additional WHS responsibilities apply to Managers and Supervisors, Team Directors, and other Officers.

Key Capabilities/Qualifications/Experience

1. Superior front-end (HTML, CSS and JavaScript) skills, with demonstrated experience developing complex, accessible, secure and high-performance user interfaces for a range of platforms and devices at scale.
2. Extensive experience in using modern web frameworks (e.g. React, Angular, or Vue), and build tools (e.g. Webpack, Babel) as well as experience with Node.js or other backend platforms and languages
3. Qualifications in a computing related field or significant industry experience in web development is essential.
4. Highly advanced knowledge of WCAG2, and a commitment to developing for accessibility.
5. Experience implementing automated tests, and unit testing.
6. Demonstrated excellent verbal and written communication skills with a strong ability to foster an open and creative approach to development that shares ideas, skills and knowledge across teams.
7. Excellent skills in planning and prioritising projects and tasks; delivering with a high attention to detail while working under pressure to tight deadlines.
8. **ABC Principles:** Demonstrated commitment to the ABC Principles of We are ABC, Straight Talking, People Focused, Accountable and Open & Transparent.
9. **ABC Policies:** Understanding of the relevance and scope of ABC policies and the ABC Principles and a commitment to adhere to these; particularly in relation to complying with health, safety and wellbeing requirements in the workplace and acting in accordance with the ABC Principles.
10. **Diversity and Inclusion:** Ability to communicate effectively and build relationships with people from a range of diverse backgrounds.
