

POSITION DESCRIPTION

Position Title	SENIOR iOS ENGINEER	Position No.	[Position No.]
Team	Product & Content Technology	Classification	Technologist
Department	Product Engineering	Schedule Roster Cycle	Schedule A Non-Rostered
Location	Brisbane, Sydney, Melbourne	Band / Level	Band 8
Reports to	ENGINEERING MANAGER 50053123	HR Endorsement	9/02/2021
Purpose			

Lead the development, maintenance and support of the ABC's iOS and tvOS applications in line with ABC strategy and Product & Content Technology's objectives.

Key Accountabilities

- Under broad direction of the Engineering Manager, provide superior technical development skills to the ABC's Audience Facing Digital Products team, and lead the development of components and features in an efficient manner across the ABC's mobile applications.
- Lead the technical team in the analysis, design and development of complex, reusable components and functionality for a broad range of users across various ABC digital properties.
- Lead the delivery of high quality product development within prescribed timeframes and budget constraints and ensure efficient and effective use of resources.
- Improve the quality of output by actively promoting and leading the development of best practices and development standards.
- Maintain a high level of awareness of best industry practices for mobile development and convey this information to other development teams.
- Expertly plan major product features and schedule and coordinate work in your area of responsibility.
- Take principal accountability for technical documentation, ensuring that all development work undertaken is properly documented and maintained.
- Actively promote the ABC values and apply all relevant workplace policies and guidelines.
- Cooperate with any reasonable instruction, procedure or policy relating to safety and take reasonable care for your own safety and that of other people who may be affected by your conduct while at work. Additional WHS responsibilities apply to Managers and Supervisors, Team Directors, and other Officers.

Key Capabilities/Qualifications/Experience

1. Relevant tertiary qualifications or equivalent significant skills, knowledge and experience.
2. Demonstrated significant experience developing particularly complex, secure and high-performance software for a range of mobile application platforms and devices.
3. Outstanding iOS development skills preferably demonstrated with one or more publicly available application written in Swift.
4. Demonstrated outstanding knowledge and experience in assessing, selecting and using modern frameworks and build tools, implementing automated/unit testing, and version control branching, emerging and versioning strategies.
5. Significant experience with setting up and maintaining continuous integration and delivery pipelines.
6. Outstanding interpersonal and communication (verbal and written) skills with the ability to foster an open and creative approach to development both within and across teams.

POSITION DESCRIPTION

7. Demonstrated experience providing technical leadership within a development team and establishing effective and strategic working relationships with other areas of the business.
8. Outstanding attention to detail and organisational skills with the proven ability to effectively plan and prioritise projects and tasks, while working under pressure to meet tight deadlines.
9. **ABC Principles:** Demonstrated commitment to the ABC Principles of We are ABC, Straight Talking, People Focused, Accountable and Open & Transparent.
10. **ABC Policies:** Understanding of the relevance and scope of ABC policies and the ABC Principles and a commitment to adhere to these; particularly in relation to complying with health, safety and wellbeing requirements in the workplace and acting in accordance with the ABC Principles.
11. **Diversity and Inclusion:** Ability to communicate effectively and build relationships with people from a range of diverse backgrounds.
