POSITION DESCRIPTION

Position Title	DEVOPS ENGINEER	Position No.	50059435
Team	Product & Content Technology	Classification	Technologist
Department	Application Solutions Architecture	Schedule Roster Cycle	Schedule A Non-Rostered
Location	Ultimo	Band / Level	Band 8
Reports to	TEAM LEAD, APPLICATION SOLUTIONS ARCHITECTURE [Reporting To (Position No.)]	HR Endorsement	3/08/2020

Purpose

Design, implement and maintain system integration and delivery services for the ABC's content creation services, that align with ABC strategy and objectives.

Key Accountabilities

- Under broad direction of the Team Lead, Application Solutions Architecture, provide high level support to Content Technology Solutions and Technology Portfolio Office teams by designing and implementing delivery workflows and systems for the ABC's content management platforms.

- Contribute significantly to the process of automating the ABC's content management and delivery platforms by undertaking particularly complex testing and code deployment.

- Continually improve system reliability and quality by integrating monitoring, reporting and fault handling into application platforms in line with strategic objectives.

- Proactively identify opportunities and issues to automate existing processes and improve efficiency.

- Maintain detailed technical knowledge of digital systems and services and share this information with the team and wider business.

- Contribute significantly to the development and maintenance of technical standards and support documentation.

- In collaboration with agile teams, participate in planning and review meetings to ensure project deliverables are completed within agreed timeframes.

- Actively promote the ABC values and apply all relevant workplace policies and guidelines.

- Cooperate with any reasonable instruction, procedure or policy relating to safety and take reasonable care for your own safety and that of other people who may be affected by your conduct while at work. Additional WHS responsibilities apply to Managers and Supervisors, Team Directors, and other Officers.

Key Capabilities/Qualifications/Experience

1. Tertiary qualifications in a relevant discipline or equivalent significant skills, knowledge and experience.
2. Outstanding knowledge and experience with the following technologies:

   - Amazon Web Services (AWS) products
   - AWS CloudFormation
   - AWS ECS
   - Elastic Search
   - Bamboo CI/CD
   - Splunk
   - Azure AD

3. Demonstrated proficiency in at least one scripting language such as Python, Ruby, Perl or BASH.

4. Experience working with Agile project management practices.

5. Demonstrated outstanding experience using common third-party DevOps tools such as Datadog, New Relic, PagerDuty, JIRA and Confluence.

6. Outstanding problem-solving skills with the ability to investigate, analyse and solve particularly complex technical problems.

7. Outstanding communication and interpersonal skills, with proven ability to work in a team environment and convey particularly complex technical information to a range of stakeholders.

8. **ABC Principles:** Demonstrated commitment to the ABC Principles of We are ABC, Straight Talking, People Focused, Accountable and Open & Transparent.

9. **ABC Policies:** Understanding of the relevance and scope of ABC policies and the ABC Principles and a commitment to adhere to these; particularly in relation to complying with health, safety and wellbeing requirements in the workplace and acting in accordance with the ABC Principles.

10. **Diversity and Inclusion:** Ability to communicate effectively and build relationships with people from a range of diverse backgrounds.
