0 - 2%	2-33%	34-66%	67-100%
Up to 10 minutes	>10 min - 2.5 hours	>2.5 – 5 hours	More than 5 hours

## Immunisation Demands

Risk Category	Risk Category Description	Immunisation Requirements
A	Direct contact with blood or body substances	Diphtheria-Tetanus-Pertussis Hepatitis B *Hepatitis A Influenza Measles-Mumps-Rubella Varicella

*Applicants are responsible for completing minimum immunisation requirements with their preferred immunisation provider prior to commencing employment*

*\*The Australian Immunisation Handbook recommends Hepatitis A vaccine for HCWs who work in rural and remote Indigenous communities; with Indigenous children; or care for persons with developmental disabilities.*

- All Healthcare workers who provide patient care must complete the Tuberculosis Screening questionnaire. The need for mantoux testing and or interferon gamma release assay (blood test) is determined by your individual risk or by health service risk. Refer to Policy Directive [Control of Tuberculosis in South Australian Health Services](#) for further information.*
