SA Health Challenges:

The health system is facing the challenges of an ageing population, increased incidence of chronic disease, workforce shortages, and ageing infrastructure. The SA Health Care Plan has been developed to meet these challenges and ensure South Australian's have access to the best available health care in hospitals, health care centres and through GPs and other providers.

Central Adelaide Local Health Network:

CALHN is one of eleven Local Health Networks (LHNs) in South Australia established in July 2011. CALHN is responsible for the following health services:

CALHN also provides services to patients from other SA networks, rural and remote areas, the Northern Territory, NSW (Broken Hill) and western parts of Victoria. These services usually relate to complex services such as head and neck cancer, radiation therapy, cardiac surgery, spinal surgery or rehabilitation.

CALHN's purpose is to deliver quality and sustainable healthcare. While the delivery of high quality patient care is our number one priority, we face a significant challenge in achieving financial sustainability. A quality-assured financial recovery plan has been developed to meet these challenges. Through effective leadership and change management, the plan which is applicable to all Directorates and departments, will be implemented over the next three years.
