Position Context/Purpose

A Level B academic with a teaching focussed appointment will work without the need for close supervision and is expected to develop curriculum, coordinate subjects, teach and support students as they learn. In addition, a teaching focussed academic will support the administrative functions of the discipline as well as undertake scholarly work relevant to the development of learning and teaching in their discipline or professional field.

A teaching focussed academic is expected to demonstrate teaching excellence in keeping with the La Trobe Teaching Excellence Principles and maintain a track record of excellence as evidenced by Student Feedback on Teaching (SFT) surveys, peer-feedback on teaching and through other evidence-based measures. Further, a level B teaching focussed academic will co-ordinate and/or lead the activities of other staff, as appropriate to learning and teaching in the discipline.

A teaching focussed academic is expected to participate regularly in gathering and monitoring of student feedback through Student Feedback on Teaching surveys and will normally receive high teaching results relative to their peers. At least once a year they will also undertake to have their teaching peer reviewed as part of a commitment to scholarly teaching practice.

The School of Nursing and Midwifery has immersed the curricula and research within a range of clinical contexts. The School offers undergraduate, postgraduate and higher degree research programs. An essential element is the establishment of Clinical Schools based at Alfred Health, Austin Health, Northern Health and Melbourne Health networks. The Clinical Schools enable students' direct access to expert clinicians and clinical services and provide a rich environment for clinically relevant research and practice change and facilitate opportunities for staff to undertake clinical practice. The Bachelor of Nursing students are based at a clinical school for the third year of the program, with all relevant third year theory and clinical practicums provided within the clinical school networks. Bachelor of Nursing/Bachelor of Midwifery students are also placed at the Women's and Mercy Hospitals. The School has a long established national and international reputation in nursing and midwifery research and education and the Clinical Schools provide opportunities for educational innovations, including simulation and clinician facilitated student supervision.

The School is seeking a teaching focussed Level B academic with expertise in contemporary nursing practice, and in facilitating undergraduate and postgraduate education.

The incumbent could work across all sites associated with the Melbourne (Bundoora) campus but will have a primary location at the Royal Melbourne Hospital/La Trobe Clinical School on the Royal Melbourne Hospital site.

Duties at this level will include:

- Demonstrate effectiveness by taking an evidence-based approach to evaluate learning and teaching initiatives.
- Demonstrate a scholarly approach to learning and teaching by contributing to La Trobe's SOLT including sharing of good practice.
- Coordinate and teach subjects providing a high-quality learning experience that engages students through the conduct of lectures, tutorials, practical classes, demonstrations, workshops, student field excursions, clinical sessions and/or other sessions in online, blended or face-to-face modes.
- Provide constructive, fair and timely feedback on learning to students.
- Initiate, and participate in innovative subject and course level curriculum design (including the embedding of employability capabilities), development and review in areas such as, but

not restricted to, online and blended delivery, taking an evidence-based approach to evaluate how these initiatives improve the student experience.

- Contribute to building relationships at local and national level.
- Attend to effective and efficient performance of allocated leadership and administrative functions connected with the position.
- Serve on committees at the school or course level and contribute to committees at the School or University level as required.
- Continue to develop professional practice skills, knowledge, and expertise.
- Undertake other duties and administrative functions commensurate with the classification and scope of the position as required by the Associate Dean (Academic) or Dean of School.
