POSITION DESCRIPTION

Position Title: Centre For Research Excellence Manager
Organisation Unit: UQ Centre for Clinical Research
Position Number: NEW
Type of Employment: Full Time, Fixed term
Classification: HEW Level 8

THE UNIVERSITY OF QUEENSLAND

The University of Queensland (UQ) contributes positively to society by engaging in the creation, preservation, transfer and application of knowledge. UQ helps shape the future by bringing together and developing leaders in their fields to inspire the next generation and to advance ideas that benefit the world. UQ strives for the personal and professional success of its students, staff and alumni. For more than a century, we have educated and worked with outstanding people to deliver knowledge leadership for a better world.

UQ ranks in the world’s top universities, as measured by several key independent ranking, including the CWTS Leiden Ranking (32), the Performance Ranking of Scientific Papers for World Universities (40), the US News Best Global Universities Rankings (42), QS World University Rankings (47), Academic Ranking of World Universities (54), and the Times Higher Education World University Rankings (66). Excluding the award component, UQ is now ranked 45th in the world in the ARWU, and is one of the only two Australian universities to be included in the global top 50.

UQ has an outstanding reputation for the quality of its teachers, its educational programs and employment outcomes for its students. Our students remain at the heart of what we do. The UQ experience – the UQ Advantage – is distinguished by a research enriched curriculum, international collaborations, industry engagement and opportunities that nurture and develop future leaders. UQ has a strong focus on teaching excellence, winning more national teaching excellence awards than any other in the country and attracting the majority of Queensland’s highest academic achievers, as well as top interstate and overseas students.

UQ is one of Australia’s Group of Eight, a charter member of edX and a founding member of Universitas 21, an international consortium of leading research-intensive universities.

Our 53,000-plus strong student community includes more than 16,400 postgraduate scholars and more than 17,000 international students from 135 countries, adding to its proud 260,000-plus alumni. The University has more than 6,600 academic and professional staff (full-time equivalent) and a $2.15 billion annual operating budget. Its major campuses are at St Lucia, Gatton and Herston, in addition to teaching and research sites around Queensland and Brisbane city. The University has six Faculties and four University-level Institutes. The Institutes, funded by government and industry grants, philanthropy and commercialisation activities, have built scale and focus in research areas in neuroscience, biomolecular and
biomedical sciences, sustainable minerals, bioengineering and nanotechnology, as well as social science research.

UQ has an outstanding track-record in commercialisation of our innovation with major technologies employed across the globe and integral to gross product sales of $11billion+.

UQ has a rapidly growing record of attracting philanthropic support for its activities and this will be a strategic focus going forward.

**Faculty of Medicine**

The University of Queensland’s Faculty of Medicine is an internationally recognised provider of world-class education and research. The research-intensive Faculty has a gross budget of $330 million of the total $2.0B UQ budget. The Faculty employs over 1000 of the 6,600 UQ staff total, with a community of more than 4,200 non-salaried academic appointees and around 3,200 students.

The Faculty of Medicine offers Australia’s largest medical degree program for graduates and school-leavers. Undergraduate and postgraduate programs are available in the disciplines of Medicine, Health Sciences, E-Health, Mental Health, Biomedical Sciences and Public Health.

The Faculty possesses enormous strengths spanning research, teaching, industry engagement and clinical practice in disciplines ranging from the basic sciences, biomedical research and development, to clinical trials and public health. Research projects within the Faculty have already led to discoveries with far-reaching social and economic impacts, including the revolutionary Gardasil (TM) vaccine for cervical cancer (Professor Ian Frazer) and a drug discovery EMA401 (Professor Maree Smith), a first-in-class oral treatment for chronic pain which through Spinifex Pharmaceuticals led to Australia’s largest biotechnology commercialisation deal. Faculty staff include three highly cited authors, one Fellow of the Royal Society (FRS), three Fellows of the Australian Academy of Science (FAA) and 12 Fellows of the Academy of Health and Medical Sciences (AAHMS). The Faculty is a core member of Brisbane Diamantina Health Partners, the Brisbane-wide academic health science system.

Educational offerings in biomedical sciences, medicine and public health are informed and supported by research activity across a range of fundamental and clinical areas of importance including recognised strengths in cancer, skin diseases, brain and mental health, maternal and child health genomics and health services. Cutting-edge facilities such as the Herston Imaging Research Facility (HIRF), the UQ Centre for Clinical Research (UQCCR), our laboratories in the Translational Research Institute (TRI) and the Children’s Health Research Centre (CHRC) enable outstanding research outcomes and sharpen our understanding of cancer, autoimmunity, mental disorders, infectious diseases and neurological disease. Further details are available at [www.medicine.uq.edu.au](http://www.medicine.uq.edu.au).

**UQ Centre for Clinical Research**

The University of Queensland Centre for Clinical Research (UQCCR) is a $70 million purpose-built facility sponsored by Atlantic Philanthropies, the Queensland Government (Smart State funding) and UQ. The building, completed in early 2008, is located at the Royal Brisbane and Women’s Hospital site at Herston, Brisbane. The RBWH is the largest teaching hospital in Australia and the site also houses a basic medical research institute (QIMR), and a significant Faculty of Medicine presence, including the Schools of Public Health. The UQCCR has capacity for 320 staff with affiliation guided by research strengths, assessed by defined research quality indicators.
UQCCR’s mission is to improve health outcomes for individuals and populations based on rigorous, high quality clinical research. This is achieved by facilitating research and training, influencing patient care, and providing the translational linkages between basic and applied scientific research, the patient, and health outcomes. The current research themes are: The current research themes are: Clinical Neuroscience, Antibiotic Resistance and Women’s Cancer and Fertility.

UQCCR is a University-level research Centre reporting to the Research Dean of the Faculty of Medicine. The centre's postgraduate students are enrolled through partnering Schools.

Information for Prospective Staff

Information about life at UQ including staff benefits, relocation and UQ campuses is available online.

DUTY STATEMENT

Primary Purpose of Position

The Centre for Research Excellence is an NHMRC-funded Centre for Research Excellence REDUCE which is based at the University of Queensland Centre for Clinical Research.

The primary purpose of this position is to manage all aspects of research within the Centre for Research Excellence REDUCE (Centre) in an efficient and effective manner with a specific focus on continuous improvement and delivering outcomes within budget and timeframes and management of grant funded projects and student projects.

The position will be responsible for facilitating partner engagement, support for attracting external funding and coordinating access to expertise and services such as scientific and clinical facilities, biostatistics, commercialization, advancement and marketing.

In addition, the position provides high-level support for the management and coordination of the administrative, financial and contractual responsibilities relating to research activities within the Centre.

Duties

Duties and responsibilities include, but are not limited to:

- Provide high-level support to the Centre management group to assist them in monitoring and evaluating the ongoing progression of the research within the Centre, relative to budgets and milestones.
- Develop and maintain a wide network of stakeholder relationships, using a variety of communication channels to determine and manage client’s expectations.
- Maintain and administer the Centre website
- Organise international meetings, workshops and symposia
- In collaboration with the Centre’s senior management group, prepare, implement and oversee the allocation of resources within the Centre, providing reports on cash flow and expenditure together with variance reports for all projects.
- Coordinate relevant promotions and publicity to various groups on behalf of the Centre.
- Ensure the Centre activities comply with the University policies and ethical standards as well as legislative requirements, relevant legal and risk management standards.
- Any other duties as reasonably directed by your supervisor.
Other

- Ensure you are aware of and comply with legislation and University policy relevant to the duties undertaken, including but not exclusive to:
  - the University’s Code of Conduct
  - requirements of the Queensland occupational health and safety (OH&S) legislation and related OH&S responsibilities and procedures developed by the University or Institute/School
  - the adoption of sustainable practices in all work activities and compliance with associated legislation and related University sustainability responsibilities and procedures
  - requirements of the Education Services for Overseas Students Act 2000, the National Code 2007 and associated legislation, and related responsibilities and procedures developed by the University

Organisational Relationships

The position reports to the Director of the Centre for Research Excellence REDUCE.

SELECTION CRITERIA

Essential

- Education and training equivalent to postgraduate qualifications science, biomedical science, health, allied health or related field; or relevant experience working in a research management or research and development environment;
- Experience in the management of a large and complex program of clinical studies focused on improved health outcomes;
- Ability to work collaboratively with colleagues, excellent interpersonal and communication skills and ability to demonstrate success in liaising with internal and external stakeholders.
- Excellent organisational skills and ability to prioritise and manage multiple projects, meeting project milestones with meticulous attention to detail
- Experience in identifying a range of sources of research funding and applications for such funding;
- Experience in project management, including initiation, planning, control and closure, risk and issue management, governance frameworks,
- Experience in engaging with industry relevant to medical or biomedical research.

Vaccinations and Immunisation

It is a condition of employment for this role that if you are required now or in the future, to work or interact in Queensland Health clinical facility; or in an equivalent clinical health facility; or health care role; or will be required to perform work tasks that put you at risk of exposure to vaccine-preventable disease you are required to be immunised against, and remain immunised against, certain vaccine preventable diseases (VPDs) in accordance with the University’s Vaccinations and Immunisation Guidelines (PPL 2.60.08). The employee is required to provide evidence of immunisation against VPDs.
The University of Queensland values diversity and inclusion and actively encourages applications from those who bring diversity to the University. Please refer to the University’s Diversity and Inclusion webpage for further information and points of contact if you require additional support.

This role is a full-time position; however flexible working arrangements may be negotiated.

Accessibility requirements and/or adjustments can be directed to recruitment@uq.edu.au.
