POSITION DESCRIPTION

Position Title: Associate Lecturer / Lecturer in Production Animal Medicine
Organisation Unit: School of Veterinary Science
Type of Employment: Full Time – continuing appointment
Classification: Clinical Academic Level A/B
Location: Gatton

THE UNIVERSITY OF QUEENSLAND

The University of Queensland (UQ) contributes positively to society by engaging in the creation, preservation, transfer and application of knowledge. UQ helps shape the future by bringing together and developing leaders in their fields to inspire the next generation and to advance ideas that benefit the world. UQ strives for the personal and professional success of its students, staff and alumni. For more than a century, we have educated and worked with outstanding people to deliver knowledge leadership for a better world.

UQ ranks in the world’s top universities, as measured by several key independent ranking, including the Performance Ranking of Scientific Papers for World Universities (43), the US News Best Global Universities Rankings (45), QS World University Rankings (48), Academic Ranking of World Universities (55), and the Times Higher Education World University Rankings (69). UQ again topped the nation in the prestigious Nature Index, and our Academic Ranking of World Universities result in the field of Life and Agricultural Sciences is the highest in Australia at 20.

UQ has an outstanding reputation for the quality of its teachers, its educational programs and employment outcomes for its students. Our students remain at the heart of what we do. The UQ experience – the UQ Advantage – is distinguished by a research enriched curriculum, international collaborations, industry engagement and opportunities that nurture and develop future leaders. UQ has a strong focus on teaching excellence, winning more national teaching excellence awards than any other in the country and attracting the majority of Queensland’s highest academic achievers, as well as top interstate and overseas students.

UQ is one of Australia’s Group of Eight, a charter member of edX and a founding member of Universitas 21, an international consortium of leading research-intensive universities.

Our 50,000-plus strong student community includes more than 13,000 postgraduate scholars and more than 12,000 international students from 144 countries, adding to its proud 240,000-plus alumni. The University has about 7,000 academic and professional staff and a $1.8 billion annual operating budget. Its major campuses are at St Lucia, Gatton and Herston, in addition to teaching and research sites around Queensland and Brisbane city. The University has six Faculties and four University-level Institutes. The Institutes, funded by
government and industry grants, philanthropy and commercialisation activities, have built scale and focus in research areas in neuroscience, biomolecular and biomedical sciences, sustainable minerals, bioengineering and nanotechnology, as well as social science research.

UQ has an outstanding track-record in commercialisation of our innovation with major technologies employed across the globe and integral to gross product sales of $11billion+ (see http://uniquest.com.au/our-track-record).

UQ has a rapidly growing record of attracting philanthropic support for its activities and this will be a strategic focus going forward.

The School of Veterinary Science has a rich history, having been founded in 1936, and with a reputation for graduating highly capable veterinarians. The Veterinary Science program at UQ has full accreditation with the Australasian Veterinary Boards Council, the Royal College of Veterinary Surgeons and the American Veterinary Medical Association. The School also contributes to programs in veterinary technology and animal & veterinary bioscience. The respected QS World Rankings recently ranked UQ as 22nd in the world in the field of Veterinary Science.

Organisational Environment

The Faculty of Science is recognised as a powerhouse for some of the world’s leading scientists, teachers, science programs and commercial outcomes. The Faculty is one of the largest Science groupings in Australia, with approximately 1100 (equivalent full-time) staff, and about 7500 (equivalent full-time) students.

Throughout its Schools and Centres, the Faculty unites the disciplines of agriculture and animals, biomedical and biological sciences, chemistry, earth sciences, food sciences, geography, marine science, maths and physics, the environment and veterinary science.

With strong links between the enabling and applied sciences, UQ researchers and graduates are working on a wide range of ground breaking projects from the molecular characterisation of drug resistant bacteria that affect piglets through to finding better treatments for illness and rehabilitation of the environment.

Information about the Faculty may be accessed on the Faculty’s web site: http://www.science.uq.edu.au/

The School of Veterinary Science has high quality facilities at the UQ Gatton Campus, providing the teaching, research and clinical infrastructure and resources to further develop its strong reputation as a leading provider of veterinary training, research and clinical care.

The Veterinary Teaching Hospital is an organisational unit within the School that includes all of the School’s outstanding clinical facilities. UQ VETS Equine Hospital is largely referral based hospital with advanced facilities and offers a 24 hour emergency medical and surgical service. UQ VETS Small Animal Hospital boasts the latest in veterinary medical and surgical diagnostic and treatment options for small animals, birds, exotic pets and wildlife, as well as a 24 hour Emergency and Critical Care service. UQ VETS Dayboro is a mixed practice 45 minutes north of Brisbane servicing both commercial and hobby farmers offering a balanced mix of small and large animals. The UQ VETS Clinical Studies Centre facilitates and provides support to pre-clinical and clinical training in companion animals as well as a renowned research hub for clinical and behavioural research. The Centre includes a 16 – table surgical teaching facility, and is also used for veterinary continuing education events. The Clinical Studies Centre is also home to the School’s Pets-for-Life Adoption Program. UQ
staff also supervise clinical placements at the RSPCA’s Brisbane Animal Care Campus, Wacol.

The UQ Veterinary Laboratory Services provides an efficient pathology service to the hospitals and other clients through our core disciplines of clinical pathology, anatomical pathology, microbiology and parasitology. It also provides laboratory support for veterinary teaching and research.

The school opened the Student Clinical Skills Hub in May 2016. This facility houses a range of low and high fidelity models to reduce use of live animals and cadavers in teaching, and to enhance veterinary clinical skills training. At the HUB, individual students can practice their clinical skills until they are confident and competent. The facility also has a simulated client communications laboratory with both static, online, and interactive simulations, and access to a range of training models to facilitate development of fine motor skills (e.g. suturing), procedural techniques, and cognitive/diagnostic competences.

Information about the Faculty and the School may be accessed on the Faculty’s web site at http://www.uq.edu.au/vetschool/.

Diversity and Inclusion

The School recognizes and values equity and diversity, and encourages applications from any individual who meets the requirements of this position irrespective of gender, sexuality, race, ethnicity, religion, disability, age or other protected attributes. The School strives to provide an inclusive working environment, and along with the University is committed to supporting staff with family and caring responsibilities by providing policies, programs and initiatives to help balance work and family responsibilities.

Information for Prospective Staff

Information about life at UQ including staff benefits, relocation and UQ campuses is available at - http://www.uq.edu.au/current-staff/working-at-uq

DUTY STATEMENT

Primary Purpose of Position

The successful applicant will undertake teaching and research and service in production animals. They will contribute to teaching into the production animal field to undergraduate and postgraduate students and will contribute to ongoing development of the curriculum in the field. The successful applicant will provide veterinary clinical services as a member of UQ VETS Gatton Production Animal Service to the UQ Gatton campus, community and for referring veterinarians. Participation in veterinary clinical service will be expected to include involvement in the after-hours on-call roster. The appointee will be expected to contribute to the national and international research profile of the School, through contributions to clinical research and supervision of higher degree by research students, interns and residents.

Duties

Duties and responsibilities include, but are not limited to:
**Teaching**

- Teach undergraduate courses (lectures, practicals, tutorials, assessment) in the field of production animals in veterinary science or veterinary technology programs, or other programs as required.
- Provide contributions to development and delivery of courses, innovative teaching tools and approaches in the production animal medicine curriculum.
- Supervise and mentor postgraduate students in the field of production animal medicine.
- For Level B
  - Co-ordinate undergraduate and postgraduate courses in the field of production animals in the veterinary science or veterinary technology program or other programs as required.

**Research**

- Develop clinical research relevant to production animal medicine.
- For level B:
  - Undertake individual and/or collaborative clinical research and publish and present the results of their research.
- Contribute to School strategic priorities in research and to partnerships with other researchers within the School and external to the School (within UQ and elsewhere).

**Service and Engagement**

- Actively promote and foster the School’s relations with the veterinary profession, industry, government departments, professional bodies and the wider community.
- Contribute to the delivery of veterinary clinical services provided by UQ VETS Gatton Production Animal Service in a teaching environment through provision of excellence in veterinary surgical services to client-owned animals and to referring veterinarians.
- Build caseload through enhancement of professional profile and collaboration with local veterinary community.
- Mentor and support students and staff in clinical service and associated clinical teaching.
- Practice good business management by ensuring sound supervision of staff, interns and residents, and management of client relations including invoicing for services.
- Participate in School decision-making and serve on School, Faculty and University committees.

**Other**

Ensure you are aware of and comply with legislation and University policy relevant to the duties undertaken, including:

**Organisational Relationships**

The position reports to the Large Animal Group Leader within the School of Veterinary Science.
SELECTION CRITERIA

• A degree in Veterinary Science or Veterinary Medicine (or equivalent), registrable in Queensland.

• For level B appointment, successful completion of a residency training program, or an advanced professional/specialty qualification, or higher degree by research is desirable.

• Demonstrated ability to teach the production animal discipline to students at the undergraduate level.

• Demonstrated clinical knowledge and experience in the delivery of production animal veterinary services.

• Evidence of clinical research experience and outputs, including publishing research results and engagement with industry and professional bodies to communicate research and best clinical practice.

• Demonstrated effective interpersonal, teamwork, negotiation and consultation skills and formal written and oral communication skills.

Vaccinations and Immunisation

It is a condition of employment for this role that if you are required now or in the future, to work or interact in Queensland Health clinical facility; or in an equivalent clinical health facility; or health care role; or will be required to perform work tasks that put you at risk of exposure to vaccine-preventable disease you are required to be immunised against, and remain immunised against, certain vaccine preventable diseases (VPDs) in accordance with the University’s Vaccinations and Immunisation Guidelines (PPL 2.60.08). The employee is required to provide evidence of immunisation against VPDs.

The University of Queensland values diversity and inclusion and actively encourages applications from those who bring diversity to the University. Please refer to the University’s Diversity and Inclusion webpage (http://www.uq.edu.au/equity) for further information and points of contact if you require additional support.

Accessibility requirements and/or adjustments can be directed to the contact person listed in the advertisement.
