POSITION DESCRIPTION

Position Title: Assistant Research Technician
Organisation Unit: Rural Clinical School
Position Number: NEW
Type of Employment: Part-time, Fixed term
Classification: HEW Level 3

THE UNIVERSITY OF QUEENSLAND

The University of Queensland (UQ) contributes positively to society by engaging in the creation, preservation, transfer and application of knowledge. UQ helps shape the future by bringing together and developing leaders in their fields to inspire the next generation and to advance ideas that benefit the world. UQ strives for the personal and professional success of its students, staff and alumni. For more than a century, we have educated and worked with outstanding people to deliver knowledge leadership for a better world.

UQ ranks in the world's top universities, as measured by several key independent ranking, including the CWTS Leiden Ranking (32), the Performance Ranking of Scientific Papers for World Universities (40), the US News Best Global Universities Rankings (42), QS World University Rankings (47), Academic Ranking of World Universities (54), and the Times Higher Education World University Rankings (66). Excluding the award component, UQ is now ranked 45th in the world in the ARWU, and is one of the only two Australian universities to be included in the global top 50.

UQ has an outstanding reputation for the quality of its teachers, its educational programs and employment outcomes for its students. Our students remain at the heart of what we do. The UQ experience – the UQ Advantage – is distinguished by a research enriched curriculum, international collaborations, industry engagement and opportunities that nurture and develop future leaders. UQ has a strong focus on teaching excellence, winning more national teaching excellence awards than any other in the country and attracting the majority of Queensland's highest academic achievers, as well as top interstate and overseas students.

UQ is one of Australia’s Group of Eight, a charter member of edX and a founding member of Universitas 21, an international consortium of leading research-intensive universities.

Our 53,000-plus strong student community includes more than 16,400 postgraduate scholars and more than 17,000 international students from 135 countries, adding to its proud 260,000-plus alumni. The University has more than 6,600 academic and professional staff (full-time equivalent) and a $2.15 billion annual operating budget. Its major campuses are at St Lucia, Gatton and Herston, in addition to teaching and research sites around Queensland and Brisbane city. The University has six Faculties and four University-level Institutes. The Institutes, funded by government and industry grants, philanthropy and commercialisation activities, have built scale and focus in research areas in neuroscience, biomolecular and
biomedical sciences, sustainable minerals, bioengineering and nanotechnology, as well as social science research.

UQ has an outstanding track-record in commercialisation of our innovation with major technologies employed across the globe and integral to gross product sales of $11billion+.

UQ has a rapidly growing record of attracting philanthropic support for its activities and this will be a strategic focus going forward.

Organisational Environment

Faculty of Medicine

The University of Queensland's Faculty of Medicine is an internationally recognised provider of world-class education and research. The research-intensive Faculty has a gross budget of almost $300 million, employs approximately 1000 continuing and fixed-term staff (headcount), has a community of more than 4000 non-salaried academic appointees and around 3200 students (headcount).

The Faculty of Medicine offers Australia's largest medical degree program for graduates and school-leavers. Undergraduate and postgraduate programs are available in the disciplines of Medicine, Health Sciences, E-Health, Mental Health, Biomedical Sciences and Public Health.

The Faculty possesses enormous strengths spanning research, teaching, industry engagement and clinical practice in disciplines ranging from the basic sciences, biomedical research and development, to clinical trials and public health. Research projects within the Faculty have already led to discoveries with far-reaching social and economic impacts, including the revolutionary Gardasil (TM) vaccine for cervical cancer (Professor Ian Frazer) and a drug discovery EMA401 (Professor Maree Smith), a first-in-class oral treatment for chronic pain which through Spinifex Pharmaceuticals led to Australia’s largest biotechnology commercialisation deal. Faculty staff include three highly cited authors, one Fellow of the Royal Society (FRS), three Fellows of the Australian Academy of Science (FAA) and 12 Fellows of the Academy of Health and Medical Sciences (AAHMS). The Faculty is a core member of Brisbane Diamantina Health Partners, the Brisbane-wide academic health science system.

Educational offerings in biomedical sciences, medicine and public health are informed and supported by research activity across a range of fundamental and clinical areas of importance including recognised strengths in cancer, skin diseases, brain and mental health, maternal and child health and genomics. Cutting-edge facilities such as the Herston Imaging Research Facility (HIRF), the UQ Centre for Clinical Research (UQCCR), our laboratories in the Translational Research Institute (TRI) and the new Centre for Children’s Health Research (CCHR) enable outstanding research outcomes and sharpen our understanding of cancer, autoimmunity, mental disorders, infectious diseases and neurological disease. Further details are available at www.medicine.uq.edu.au.

The University of Queensland Rural Clinical School

The University of Queensland Rural Clinical School (UQRCS) envisages securing a self-sustaining medical workforce for regional Queensland through excellence in medical education, research and community service. With a footprint encompassing the greater part of central and western regional Queensland, the School comprises four clinical sites – Rockhampton, Bundaberg, Hervey Bay and Toowoomba. Significant investment in people and training infrastructure at each site provides the operational
focus for a network of smaller clinical training locations in host communities across the state. With a recurrent budget of up to $9 million per annum provided through the Australian Government’s Multidisciplinary Rural Health Training (MRHT) program and a capital works portfolio in excess of $20 million, UQRCS is a substantial enterprise.

The Clinical School is the rural base for the delivery of the UQ medical program. There is a long tradition of success working in partnership with healthcare systems and service providers to train senior (Phase 2) medical students. Each year, more than 500 medical students engage with the rural experience through a range of long term (1-2 years) placements or shorter term (4-16 weeks) learning opportunities.

The learner experience is characterised by real world, rich and authentic learning opportunities and extensive community involvement. In this regard, our work is informed by the Academic Discipline of Rural and Remote Medicine, which is embedded in our education structure. UQRCS pursues the latest innovations in medical education and training. There is a focus on scenario-based training in purpose-built Simulated Learning Environments (SLE) together with Technology Enabled Learning (TEL). Our learning framework supports a more generalist, integrated approach to deliver well-trained, safe and work-ready interns to local training hospitals.

In partnership with the health system, the health care profession (including the Colleges) and education providers, UQRCS engages with every stage of the rural health learning continuum. The journey starts with learners of rural origin health care, progresses through undergraduate and pre-vocational training and culminates with contributions to vocational training and continuing professional development.

A rapidly expanding research profile focusses on clinical research, epidemiology/population health and rural health workforce. There is a significant component of Indigenous health research, particularly programs designed to translate and improve health outcomes amongst the Indigenous population. Research productivity is evidenced through a successful track record in attracting competitive funding from agencies such as the NHMRC and, in 2015, at least 51 peer-reviewed manuscripts published in journals varying from ‘Rural and Remote Health’ to ‘Nature Genetics’.

Information for Prospective Staff

Information about life at UQ including staff benefits, relocation and UQ campuses is available online.
DUTY STATEMENT

Primary Purpose of Position

The provide direct research assistance to the Supervisor to undertake the research components of a Research Project, which aims to improve the health and wellbeing of Indigenous Australians. This will involve assisting with tasks associated with participant recruitment and data collection.

Duties

Duties and responsibilities include, but are not limited to:

- Assist in the recruitment and consenting of research participants by maintaining case files in accordance with study protocols, University policy and statutory requirements. Training will be provided.
- Assist in data collection, management and analysis in accordance with study protocols, University policy and statutory requirements.
- Maintain accurate and up-to-date files and/or records in accordance with study protocols, University policy and national legislation.
- Report feedback and consent information to the lead Chief Investigator.
- Work collaboratively as part of a multidisciplinary team.
- Any other duties as reasonably directed by the lead Chief Investigator.

Other

Ensure you are aware of and comply with legislation and University policy relevant to the duties undertaken, including but not exclusive to:

- the University’s Code of Conduct
- requirements of the Queensland occupational health and safety (OH&S) legislation and related OH&S responsibilities and procedures developed by the University or Institute/School
- the adoption of sustainable practices in all work activities and compliance with associated legislation and related University sustainability responsibilities and procedures
- requirements of the Education Services for Overseas Students Act 2000, the National Code 2007 and associated legislation, and related responsibilities and procedures developed by the University

Organisational Relationships

The position reports to the project lead investigator: Dr Bushra Nasir.
SELECT CRITERIA

**Essential**

- Understanding of and experience working with Indigenous Australians in a research environment, with the ability to establish and assist in research projects.
- Completion of Year 12 or a Certificate II, with relevant work experience in the areas of health sciences, epidemiology or an equivalent combination of relevant work experience and/or education and training.
- Experience with the application of research methods.
- Experience with data management and analysis methods.
- Organisational, administrative and time management skills.
- High level verbal and written communication skills.
- A strong orientation to the provision of a high level of service with a particular emphasis on the achievement of outcomes.

**Desirable**

- Current Queensland driver’s license.

**Vaccinations and Immunisation**

It is a condition of employment for this role that if you are required now or in the future, to work or interact in Queensland Health clinical facility; or in an equivalent clinical health facility; or health care role; or will be required to perform work tasks that put you at risk of exposure to vaccine-preventable disease you are required to be immunised against, and remain immunised against, certain vaccine preventable diseases (VPDs) in accordance with the University’s Vaccinations and Immunisation Guidelines (PPL 2.60.08). The employee is required to provide evidence of immunisation against VPDs.

The University of Queensland values diversity and inclusion and actively encourages applications from those who bring diversity to the University. Please refer to the University's Diversity and Inclusion webpage (http://www.uq.edu.au/equity) for further information and points of contact if you require additional support.

Accessibility requirements and/or adjustments can be directed to the recruitment team at recruitment@uq.edu.au
