### THE UNIVERSITY OF QUEENSLAND

The University of Queensland (UQ) contributes positively to society by engaging in the creation, preservation, transfer and application of knowledge. UQ helps shape the future by bringing together and developing leaders in their fields to inspire the next generation and to advance ideas that benefit the world. UQ strives for the personal and professional success of its students, staff and alumni. For more than a century, we have educated and worked with outstanding people to deliver **knowledge leadership for a better world**.

UQ ranks in the world’s top universities, as measured by several key independent ranking, including the Performance Ranking of Scientific Papers for World Universities (43), the US News Best Global Universities Rankings (45), QS World University Rankings (48), Academic Ranking of World Universities (55), and the Times Higher Education World University Rankings (69). UQ again topped the nation in the prestigious Nature Index, and our Academic Ranking of World Universities result in the field of Life and Agricultural Sciences is the highest in Australia at 20.

UQ has an outstanding reputation for the quality of its teachers, its educational programs and employment outcomes for its students. Our students remain at the heart of what we do. The UQ experience – the UQ Advantage – is distinguished by a research enriched curriculum, international collaborations, industry engagement and opportunities that nurture and develop future leaders. UQ has a strong focus on teaching excellence, winning more national teaching excellence awards than any other in the country and attracting the majority of Queensland's highest academic achievers, as well as top interstate and overseas students.

UQ is one of Australia’s Group of Eight, a charter member of edX and a founding member of Universitas 21, an international consortium of leading research-intensive universities.

Our 50,000-plus strong student community includes more than 13,000 postgraduate scholars and more than 12,000 international students from 144 countries, adding to its proud 240,000-plus alumni. The University has about 7,000 academic and professional staff and a $1.8 billion annual operating budget. Its major campuses are at St Lucia, Gatton and Herston, in addition to teaching and research sites around Queensland and Brisbane city. The University has six Faculties and four University-level Institutes. The Institutes, funded by government and industry grants, philanthropy and commercialisation activities, have built scale and focus in research areas in neuroscience, biomolecular and biomedical sciences.
sustainable minerals, bioengineering and nanotechnology, as well as social science research.

UQ has an outstanding track-record in commercialisation of our innovation with major technologies employed across the globe and integral to gross product sales of $11billion+ (see http://uniquest.com.au/our-track-record).

UQ has a rapidly growing record of attracting philanthropic support for its activities and this will be a strategic focus going forward.

Faculty of Medicine

The University of Queensland’s Faculty of Medicine is an internationally recognised provider of world-class education and research. The research-intensive Faculty has a gross budget of almost $300 million, employs approximately 1000 continuing and fixed-term staff (headcount), has a community of more than 4000 non-salaried academic appointees and around 3200 students (headcount).

The Faculty of Medicine offers Australia’s largest medical degree program for graduates and school-leavers. Undergraduate and postgraduate programs are available in the disciplines of Medicine, Health Sciences, E-Health, Mental Health, Biomedical Sciences and Public Health.

The Faculty possesses enormous strengths spanning research, teaching, industry engagement and clinical practice in disciplines ranging from the basic sciences, biomedical research and development, to clinical trials and public health. Research projects within the Faculty have already led to discoveries with far-reaching social and economic impacts, including the revolutionary Gardasil (TM) vaccine for cervical cancer (Professor Ian Frazer) and a drug discovery EMA401 (Professor Maree Smith), a first-in-class oral treatment for chronic pain which through Spinifex Pharmaceuticals led to Australia’s largest biotechnology commercialisation deal. Faculty staff include three highly cited authors, one Fellow of the Royal Society (FRS), three Fellows of the Australian Academy of Science (FAA) and 12 Fellows of the Academy of Health and Medical Sciences (AAHMS). The Faculty is a core member of Brisbane Diamantina Health Partners, the Brisbane-wide academic health science system.

Educational offerings in biomedical sciences, medicine and public health are informed and supported by research activity across a range of fundamental and clinical areas of importance including recognised strengths in cancer, skin diseases, brain and mental health, maternal and child health and genomics. Cutting-edge facilities such as the Herston Imaging Research Facility (HIRF), the UQ Centre for Clinical Research (UQCCR), our laboratories in the Translational Research Institute (TRI) and the new Centre for Children’s Health Research (CCHR) enable outstanding research outcomes and sharpen our understanding of cancer, autoimmunity, mental disorders, infectious diseases and neurological disease. Further details are available at www.medicine.uq.edu.au.

UQ Centre for Health Services Research

The UQ Centre for Health Services Research (CHSR) is one of five Research Centres in the Faculty of Medicine. The primary purpose of the Centre is to improve the delivery of health care through research which examines health systems performance and identifies mechanisms to improve access, effectiveness and efficiency. The Centre has research strengths in telehealth, geriatric medicine and aged care, renal medicine, clinical trial design and administration and biostatistics. The Centre engages 20 clinicians and research staff, 27 professional staff and has a large cohort of higher degree research
students. The Centre works closely with the other Research Centres in the Faculty of Medicine (UODI, UQCCR, UQCHRC), the Faculty of Health and Behavioural Sciences and also with Metro South Hospital and Health Services. The Centre is the Australian Coordinating Centre for interRAI and leads international development of its hospital assessment systems related to function and psychosocial problems. It has extensive related data holdings.

The vision of the UQCHSR is to improve health outcomes for patients, with a particular focus on those with chronic disease or frailty, for remote communities and those with other forms of disadvantage or vulnerability. This will be achieved through strong engagement of researchers and practitioners across the translational spectrum, from basic, through clinical and health trials, to implementation, this will enable outcomes such as improved health care services, new clinical products, policies or educational improvements. UQCHSR will be recognized for its strong engagement with the Princess Alexandra Hospital and industry, and outcomes arising from addressing clinically important research questions. It will also have a reputation for the provision of outstanding clinical research training, pre-clinical and clinical research services (e.g. clinical trials design and data analysis), and clinical trial linked service provision.

The UQCHSR is located at the PA Hospital campus in Woolloongabba, South Brisbane, with activities based in the Hospital, the Clinical Research Facility and associated with research activities both nationally and internationally.

Information for Prospective Staff

Information about life at UQ including staff benefits, relocation and UQ campuses is available at - http://www.uq.edu.au/current-staff/working-at-uq

DUTY STATEMENT

Primary Purpose of Position

This position is responsible for providing support to CHSR to capitalize on opportunities for competitive research grants. This position will be responsible for identifying research funding opportunities, working closely with researchers in the preparation of high quality written applications for grants and fellowships, and providing strategic advice and training in grantsmanship. To do this, the position will work closely with the org unit Executive while also linking with the Faculty of Medicine research team as part of a community of practice to increase collaboration and competitive bidding across the faculty.

Duties

Duties and responsibilities include, but are not limited to:

- Identify research funding opportunities to maximise research income, with emphasis on large scale, complex, programmatic grants, special initiatives, fellowships and industry funding.
- Develop knowledge of the existing partnerships, strategic aims, research capabilities and activities within the organisation unit to identify opportunities to exploit its potential for new collaborations.
- Hold meetings and forums at which researchers can come together to explore possible partnerships and funding opportunities.
- Participate in regular meetings with the Faculty of Medicine research team as part of a community of practice to identify and facilitate collaborative research opportunities and competitive bidding across the Faculty.

- Provide high-level support in the preparation of competitive funding applications, including strategic advice and editorial review of the structure, content, clarity, style and appropriateness of the proposal for the specific funding scheme.

- Where relevant, collaborate with the Faculty and UniQuest to successfully negotiate business development initiatives.

- Participate in the development and delivery of grantsmanship training workshops for the organisational unit and Faculty.

- Other related duties as directed by the School/Centre’s Leadership team.

Other

Ensure you are aware of and comply with legislation and University policy relevant to the duties undertaken, including:

- the University’s Code of Conduct

- requirements of the Queensland occupational health and safety (OH&S) legislation and related OH&S responsibilities and procedures developed by the University or Organisation Unit.

- the adoption of sustainable practices in all work activities and compliance with associated legislation and related University sustainability responsibilities and procedures

- requirements of the Education Services for Overseas Students Act 2000, the National Code 2007 and associated legislation, and related responsibilities and procedures developed by the University

Organisational Relationships

The position reports to the Centre Manager.

The work program for the role will be developed by the incumbent for sign off by the organisational unit head.

Travel between campuses and other locations may be required.

SELECTION CRITERIA

- PhD qualification in a relevant scientific discipline or an equivalent combination of relevant experience and/or education/training.

- Extensive knowledge of relevant industry, philanthropic and Australian competitive granting schemes, with specific experience in writing and editing successful funding applications for at least two of the ARC, NHMRC or MRFF.
• Exceptional writing and editing skills, with demonstrated ability to understand and present complex scientific content in a clear and concise manner.

• High level time-management skills, with the ability to work under time pressure on multiple initiatives concurrently.

• Demonstrated research facilitation skills, with the ability to identify relevant research linkages and facilitate communication among diverse groups of research stakeholders including industry partners.

• Demonstrated communication skills (written and oral), with a proven ability to communicate effectively with a variety of audiences.

• Self-motivated with demonstrated ability to work independently and as part of a team.

The University of Queensland values diversity and inclusion and actively encourages applications from those who bring diversity to the University. Please refer to the University’s Diversity and Inclusion webpage (http://www.uq.edu.au/equity) for further information and points of contact if you require additional support.

This role is a part-time position; flexible working arrangements may be negotiated.

You must have valid Australian work rights to apply for this role. Visa sponsorship is not available for this position.

Accessibility requirements and/or adjustments can be directed to the contact person listed in the job advertisement.
