- Lead and initiate community outreach activities including to prospective students, research institutes, industry, government, the media and the general public.
- Maintain and actively promote high academic standards in all education, research and administration endeavours undertaken by the School, the College and the University.
- Take responsibility for their own workplace health and safety and not wilfully place at risk the health and safety of another person in the workplace and a commitment to the application of EO policies in a university context.
- A demonstrated understanding of equal opportunity principles and policies and a commitment to their application in a university context.
- Other duties as required that are consistent with the classification of the position.
- Comply with all ANU policies and procedures, and in particular those relating to work health and safety and equal opportunity.
Skill Base

A Level C academic will make a significant contribution to the discipline at the national level. In research and/or scholarship and/or teaching they will make original contributions, which expand knowledge or practice in their discipline. A Level C academic will normally make a significant contribution to research and/or scholarship and/or teaching and administration activities of an organisational unit or an interdisciplinary area at undergraduate, honours and postgraduate level. The academic will normally play a major role or provide a significant degree of leadership in scholarly, research and/or professional activities relevant to the profession, discipline and/or community and may be required to perform the full academic responsibilities of and related administration for the coordination of a large award program or a number of smaller award programs of the institution.

A Level D academic will normally make an outstanding contribution to the research and/or scholarship and/or teaching and administration activities of an organisational unit, including a large organisational unit, or interdisciplinary area. A Level D academic will make an outstanding contribution to the governance and collegial life inside and outside of the institution and will have attained recognition at a national or international level in their discipline. The academic will make original and innovative contributions to the advancement of scholarship, research and teaching in their discipline.

SELECTION CRITERIA:

Academic Level C

- A PhD in Health Economics, Economics or a related discipline (or an equivalent combination of relevant experience and/or education and training) with a strong track record of achievement as evidenced by publications in peer-reviewed journals.
- Demonstrated experience in the conduct of economic evaluation of health care and/or health technologies including economic/decision analytic modelling.
- Experience in economic evaluation of infectious disease prevention and control is highly desirable.
- Evidence of an ability and willingness to teach at all levels.
- Ability to apply for competitive research grants or fellowships.
- Excellent oral and written communication skills and a demonstrated ability to communicate and interact effectively with a variety of stakeholders in a cross-disciplinary academic environment and to foster respectful and productive working relationships, in particular, from community to scientific audiences.
- Highly developed organisational skills, ability to lead and work as part of a team, and a demonstrated ability to meet deadlines.
- A demonstrated understanding of equal opportunity principles and policies and a commitment to their application in a university context.

Academic Level D

- A PhD in Health Economics, Economics or a related discipline (or an equivalent combination of relevant experience and/or education and training) with a strong track record of achievement as evidenced by publications in peer-reviewed journals; a record of developing and maintaining collaborations with world leading researchers and institutes; and by other measures such as prestigious awards, invitations to give keynote addresses at leading conferences, and elite membership of professional institutes.
- Demonstrated experience in the conduct of economic evaluation of health care and/or health technologies including economic/decision analytic modelling.
- Experience in economic evaluation of infectious disease prevention and control is highly desirable.
- Evidence of an ability and willingness to teach at all levels.
- A strong record of leading and winning bids for competitive external funding to support individual and collaborative research activities, and the ability to identify similar opportunities for others to pursue and to provide mentoring in the process.
- Excellent oral and written communication skills and a demonstrated ability to communicate and interact effectively with a variety of stakeholders in a cross-disciplinary academic environment and to foster respectful and productive working relationships, in particular, from community to scientific audiences.
- Highly developed organisational skills, ability to lead and work as part of a team, and a demonstrated ability to meet deadlines.
- A demonstrated understanding of equal opportunity principles and policies and a commitment to their application in a university context.
The ANU conducts background checks on potential employees, and employment in this position is conditional on satisfactory results in accordance with the Background Checking Procedure which sets out the types of checks required by each type of position.
