

Position Description

College/Division:	ANU College of Science
Faculty/School/Centre:	Research School of Chemistry
Department/Unit:	-
Position Title:	Postdoctoral Fellow
Classification:	Level A
Position No:	
Responsible to:	Professor Mark Humphrey
Number of positions that report to this role:	0
Delegation(s) Assigned:	

PURPOSE STATEMENT:

The ANU College of Science (CoS) encompasses the disciplines of: Astronomy, Biology, Chemistry, Earth Sciences, Environment and Society, Mathematics, Physics, Science Communication and is also home to cross-disciplinary and specialist Institutes and Centres. Staff and students within the ANU College of Science conduct research and deliver a research-led education program that encompasses the entire breadth of the sciences, supported by extensive international networks and by world-class facilities.

The Research School of Chemistry is a leading centre of chemistry research in Australia. Researchers have a tradition of excellence in addressing the world's most pressing issues.

The Postdoctoral Fellow / Associate Lecturer is expected to undertake work in all three areas of academic activity – research, education, and service (including outreach). The allocation of time to each area will be discussed with the position supervisor annually and be reflective of the external funding conditions that support the appointment, the appointee's research agenda, School and interdisciplinary teaching requirements, and leadership opportunities within the School environment.

The Postdoctoral Fellow / Associate Lecturer may also be required to supervise or assist in the supervision of students, and contribute cooperatively to the overall intellectual life of the School, College and University.

KEY ACCOUNTABILITY AREAS:

Position Dimension and Relationships:

The Postdoctoral Fellow / Associate Lecturer will be a member of the Research School of Chemistry, accountable to Professor Humphrey and the Director of the School. The Postdoctoral Fellow will be expected to work collegially, leading by example to develop and maintain effective, productive, and beneficial workplace relationships with academic and professional School and College staff, students and honorary appointees, as well as with industry stakeholders. This position will also have a mentoring role for students and will engage in collegial and productive collaborations with local, national and where possible, international colleagues.

Role Statement:

In their role as an Academic Level A the Postdoctoral Fellow / Associate Lecturer is expected to:

- Undertake independent research in the area of cluster chemistry, supramolecular chemistry, and catalysis, with a view to publishing original and innovative results in refereed journals, present research at academic seminars and at national and international conferences, and collaborate with other researchers at a national level.
- Collaborate with senior staff to actively seek and secure external funding, and assist in preparing and submitting research proposals to external funding bodies as appropriate.
- Contribute to the teaching activities of the School at the undergraduate and graduate levels. This includes, but is not limited to, the preparation and delivery of lectures and tutorials, the preparation of online material, marking and assessment, and consultations with students or acting as subject coordinator.

- Supervise students working on individual or group projects at undergraduate, honours, and graduate-coursework levels. Assist with supervision of research students.
- Assist in supervising research support staff in your research area.
- Actively contribute to all aspects of the operation of the School.
- Assist in outreach activities including to prospective students, research institutes, industry, government, the media, and the general public.
- Maintain high academic standards in all education, research and administration endeavours.
- Take responsibility for their own workplace health and safety and not wilfully place at risk the health and safety of another person in the workplace.
- Demonstrate understanding of equal opportunity principles and policies and a commitment to their application in a university context.
- Undertake other duties as required that are consistent with the classification of the position.
- Comply with all ANU policies and procedures, and in particular those relating to work health and safety and equal opportunity

Skill Base:

A Level A academic will work with the support and guidance from more senior academic staff and is expected to develop their expertise in teaching and research with an increasing degree of autonomy. A Level A academic will normally have completed four years of tertiary study or equivalent qualifications and experience and may be required to hold a relevant higher degree.

A Level A academic will normally contribute to teaching at the institution, at a level appropriate to the skills and experience of the staff member, engage in scholarly, research and/or professional activities appropriate to their profession or discipline, and undertake administration primarily relating to their activities at the institution. The contribution to teaching of Level A academics will be primarily at undergraduate and graduate diploma level.

SELECTION CRITERIA:

- A PhD (or receipt of a PhD within six months of appointment commencement) in synthetic organometallic and/or supramolecular chemistry, or equivalent qualifications and experience in a related area, with a track record of independent research in the field of synthetic organometallic and/or supramolecular chemistry as evidenced by publications in peer-reviewed journals and conferences.
- Evidence of the ability to articulate and prosecute innovative research in the field of organometallic and/or supramolecular chemistry.
- An ability and commitment to contribute to bids for competitive external funding to support individual and collaborative research activities.
- Evidence of an ability and willingness to teach at all levels.
- The ability to assist in the supervision of students working on research projects.
- The ability to work as part of a team and to meet deadlines.
- Excellent oral and written English language skills and a demonstrated ability to communicate and interact effectively with a variety of staff and students in a cross-disciplinary academic environment and to foster respectful and productive working relationships with staff, students and colleagues at all levels.
- A demonstrated understanding of equal opportunity principles and policies and a commitment to their application in a university context.

The ANU conducts background checks on potential employees, and employment in this position is conditional on satisfactory results in accordance with the Background Checking Procedure which sets out the types of checks required by each type of position.

Supervisor/Delegate Name:

Mark G. Humphrey
