Criteria for Enrolling in PACE201 S3 2019

You can apply to enrol in this PACE internship unit for Session 3 if:
1. Either you have an internship you have arranged yourself or you have an approved project with your current employer
2. You meet the eligibility requirements outlined below
3. Your internship or project meet the essential criteria listed below
4. The partner organisation agrees to the roles and responsibilities outlined in the Governance and Guidelines.

Eligibility Requirements
You must be able to enrol in PACE201 in Session 3, 2019. You will need:
- 24 credit points
- 3 credit points of elective space at 200 level
(It is your responsibility to check that you meet the enrolment criteria by checking with the academic advisors in your Faculty.)

Essential Criteria for an Internship / Project
- The internship / project will allow you to apply what you are learning in your degree
- The internship / project will allow you to meet the learning outcomes of PACE201 outlined in the Unit Guide
- The internship / project is supervised and your supervisor agrees to complete a placement evaluation at the end of your internship
- The internship / project is the equivalent of at least 4 weeks full-time or at least 140 hours and is, therefore, paid in alignment with the Fair Work Act 2009
- The internship / project begins on or before 16 December 2019 (Census date for S3; a late start date does not exempt you from seminar attendance that might occur prior to your internship / project start date)
- If the internship / project begins before 25 November, you will need to apply for Early Commencement

N.B. Project option: If you wish to work with your current employment as your PACE placement, you will need to identify a separate project with different tasks that offers a development opportunity and is approved by your employer (e.g., a secondment or other learning opportunity).
