
About Us

Anglicare Victoria works with children, young people, individuals, and families. We prevent harm and empower people to overcome challenges and achieve their full potential.

We believe in families and know that with access to the right support every family can grow and achieve their goals.

We work with families towards positive change. Whether it be a helping hand in a time of crisis or providing longer-term support and care. We partner with local communities, the private and public sectors, and our donors to deliver better results.

Supporting tens of thousands of Victorians every year, our 2000+ staff and volunteers operate from more than 90 sites across the state, as well as delivering assistance online, at home and in the community. We are Victoria's largest provider of Out of Home Care and Family Services, and one of Australia's most innovative agencies in working with vulnerable children youth and families.

Alcohol & Other Drugs Services

Anglicare Victoria's Alcohol and Other Drugs (AOD) services operates via a number of programs which aim to reduce harm and prevent relapse. Our trauma-informed employees meet young people, adults and families where they are at in their journey and work to support safety, understanding and compassion for everyone involved in the recovery process. We provide counselling, consultancy and continuing care to individuals using substances; families and friends of individuals using substances; individuals currently involved in the criminal justice system and professionals needing assistance in working with and supporting individuals using substances. We also work with families to support the Reunification Program, which provides counselling, consultancy and continuing care to parents whose children are subject to Family Reunification Order, children who are impacted by the Family Reunification process, working in collaboration with Child Protection from a shared care approach and providing assessment and ongoing treatment for parents, their children and family members under a Family Therapy model.
