Position Summary

The role is responsible for developing and embedding contemporary application development methodologies, identifying and building system designs, structures and tools, and initiating and leading end-to-end delivery and maintenance of high-quality solutions.

The role reports to Technology Manager within the Sub Domain and has no direct reports.

Accountabilities

Specific accountabilities for this role include:

- Take responsibility for the end-to-end technical delivery and support of solutions.
- Lead the technical development, planning and implementation requirements for solutions on various platforms and engage with customers and key stakeholders to ensure successful delivery on requirements.
- Lead and facilitate technical discussion and decision making in the team, and provide coaching, advice and support on technical development.
- Lead the technical delivery and support of solutions using both Agile and Waterfall methodologies. Ensuring adherence to UNSW standards, change processes and relevant cost and time objectives.
- Recommend designs, structures and tools for systems which meet business needs and is user friendly, which take into account target environment, performance and security requirements and existing systems.
- Analyse, build and document technical solutions based on functional and non-functional requirements.
• Prepare unit, system, and acceptance test cases to validate delivered solutions.
• Test complex solutions implemented on the platform, and work with Testing and Analysis colleagues in agile delivery.
• Engage with the relevant technical people in UNSW IT to manage environments, deployments and tenancy administration activities.
• Proactively manage complex risks, issues and financials, and work with the team to ensure appropriate solutions are in place.
• Support leadership in optimising the way in which the team work, including practices, organisation, and resourcing to promote team dynamics and opportunities for continuous improvement.
• Ensure effective communication with key stakeholders, both internal and external and provide influential input with stakeholders to achieve business outcomes.
• Align with and actively demonstrate the UNSW Values in Action: Our Behaviours and the UNSW Code of Conduct
• Cooperate with all health and safety policies and procedures of the university and take all reasonable care to ensure that your actions or omissions do not impact on the health & safety of yourself or others

Skills and Experience
• Relevant tertiary qualification with subsequent relevant experience or equivalent competence gained through any combination of education, training and experience.
• Extensive experience with development and enhancement of enterprise grade applications.
• Extensive experience implementing solutions using various technology platforms including custom built and vendor provided solutions.
• Extensive experience working with Agile and other deliver methodologies.
• Extensive experience using a delivery management tool (e.g. JIRA or MS Team Foundation Server)
• Strong experience with leading and overseeing preparation and execution of test cases.
• Sound experience in leading, coaching and motivating team members, as well as effective dispute resolution skills.
• Sound consultation, influencing and negotiation skills and proven ability to engage effectively with diverse stakeholders to achieve successful outcomes.
• Comprehensive analytical and problem-solving skills and proven capacity to exercise initiative, flexibility and to be proactive in development of robust solutions to problems.
• Advanced written and verbal communication skills, with a high level of attention to detail for deliverables produced.
• Demonstrated success working effectively and collaboratively on initiatives with a range of people at different levels within an organisation.
• Excellent time management skills, with a demonstrated ability to respond to changing priorities, manage multiple tasks and meet competing deadlines by using judgement and initiative.
• Knowledge of health and safety responsibilities and commitment to attending relevant health and safety training.
About this document
