

## Senior Lecturer in Climate Accounting

---

<b>College/Division</b>	College of Business and Economics
<b>School/Section</b>	School of Accounting, Economics and Finance
<b>Location</b>	Hobart
<b>Classification</b>	Level C
<b>Reporting line</b>	Reports to Head of School Accounting, Discipline Leader of Accounting

### Position Summary

The University of Tasmania is building a vision of a place-based University with a mission to enhance the intellectual, economic, social and cultural future of Tasmania, and from Tasmania, contribute to the world in areas of distinctive advantage. The University recognises that achieving this vision is dependent on the people we employ as well as creating a people-centred University that is values-based, relational, diverse, and development-focused.

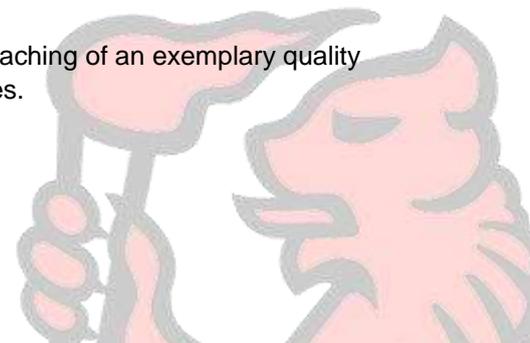

This position is located in the [College of Business and Economics](#)

We are seeking to appoint a Senior Lecturer in Climate Accounting in the School of Accounting, Economics and Finance. The position is required to meet the Association to Advance Collegiate Schools of Business (AACSB) requirements of a Scholarly Academic, providing leadership through high-quality research of national and international standing in climate accounting, and exemplary teaching practices in positioning the suite of accounting offerings as distinctive and place based. The successful appointee must have a strong record in fostering strong and effective interdisciplinary linkages in the field of climate accounting research at the local and national level, within the discipline, profession, industry and wider community. Applicants with prior experience in school/discipline strategic governance are especially encouraged to apply.

**We are an inclusive workplace committed to ‘working from the strength that diversity brings’ reflected in our Statement of Values. We are dedicated to attracting, retaining and developing our people and are committed to inclusive principles. We celebrate the range of diverse assets that gender identity, ethnicity, sexual orientation, disability, age and life course bring. Applications are encouraged from all sectors of the community. Tell us how we can make this job work for you.**

### What You'll Do

- Make a strong and sustained contribution to the University in achieving its strategic objectives and fulfilling its operational responsibilities.
- Contribute to the development and maintenance of productive and effective links in the field of climate accounting inside the University and locally and nationally within the discipline, relevant interdisciplinary domains, profession, industry and/or wider community.
- Undertake high-quality research in the field of climate accounting of national and increasingly of international standing, secure external competitive and other funding, publish research findings and successfully supervise research higher degree students to completion, in order to meet and regularly exceed the University's research performance expectations for Level C.
- Provide academic leadership and facilitate team building through leading high-quality research and quality learning and teaching practices.
- Undertake scholarly undergraduate and postgraduate coursework teaching of an exemplary quality in accounting using contemporary and innovative teaching techniques.

- Undertake other duties as assigned by the supervisor.

### What We're Looking For (success criteria)

- A PhD in the field of climate accounting or a similar relevant field.
- A strong record of contributing effectively to building and maintaining effective and productive interdisciplinary links in the field of climate accounting research, at a local and national level within the discipline, profession, industry and wider community.
- A strong record in, and continuing commitment to, research in the field of climate accounting that has achieved national and international recognition, demonstrated by a strong record of high-quality publications, presentations at conferences and success in securing external competitive and other funding.
- A record of good contributions to successful research higher degree supervision and completions.
- Proven ability as a future academic leader, with experience in supervising, team building and fostering strong and effective interdisciplinary working relationships.
- Experience and demonstrated achievement in University-level teaching and learning in the field of accounting including evidence of the application of contemporary and innovative teaching practices.
- Membership of an Accounting Professional body such as CAANZ or CPA Australia.

### Other position requirements

- Prior experience in school/discipline strategic governance (desirable).
- Regular travel between campuses may be required.

### University of Tasmania

The University of Tasmania is an institution with an enduring commitment to our state and community, and a strong global outlook. We are committed to enhancing the intellectual, economic, social and cultural future of Tasmania. Our [Strategic Direction](#) strongly reflects the University community's voice that our University must be place based but globally connected as well as regionally networked and designed to deliver quality access to higher education for the whole State.

We believe that from our unique position here in Tasmania we can impact the world through the contributions of our staff, students and graduates. We recognise that achieving this vision is dependent on the people we employ, as well as creating a university that is values-based, relational, diverse, and development-focused.
