

Role Description

Role Title:	Physiotherapy Allied Health Assistant – Rehabilitation
Role Level:	OO3
Level of Accountability:	Team Member
Mater Ministry:	Mater Health
Service Stream/Department:	Allied Health
Manager Role Title:	Team Leader – Occupational Therapy/Physiotherapy}
Date Created/Reviewed:	August 2024

Role Context

Allied Health provide a broad range of public and private acute and rehabilitative health services to adults, adolescents and children.

As an active member of the multidisciplinary team, Allied Health Assistants (AHAs) support the delivery of direct and non-direct clinical activities across Mater South Brisbane. In accordance with strategic priorities, AHAs also participate in allied health activities and the development of innovative models of care to benefit patients and their carers/families.

Role Purpose

As a member of the Physiotherapy, and the broader allied health team, you will undertake a defined range of clinical and support tasks under the delegation of the clinical team, to contribute to patient care.

Behavioural Standards

This role requires the incumbent to adhere to the Mater behavioural standards including the Mater Mission, Values, Code of Conduct, Mater Credo as well as any other relevant professional and behavioural standards, translating these into everyday behaviour and actions, and holding self and others to account for these standards.

Accountabilities

In this role	
Role requirements	Is clear on the behaviour, tasks and accountabilities that are associated with the role, fulfils mandatory and professional competency requirements, contributes to own performance development planning, proactively seeks feedback, carries out individual development plan and actively contributes to own team/s
As a Mater person	
Safety	Every decision and every action taken has safety as its guiding principle.
Experience	Consistently seeks to meet or exceed each and every person's service expectations, each and every time through the provision of differentiated customer service.

Quality	Consistently seeks to continuously improve the quality of our service, through contributing to delivering evidence based low variability healthcare
Efficiency	Seeks opportunities to deliver services for more people within existing resources, which means being innovative and focussed, and demonstrating strong stewardship of our finite resources.
Future viability	Consistently seeks to improve, innovate and evolve, through looking for new trends and opportunities which will ensure Mater can meet the challenges of the future by making sensible decisions today.
