

Research Fellow – Public Transport Research Group

Department/Unit	Public Transport Research Group, Monash Institute of Transport Studies
Faculty/Division	Civil Engineering
Classification	Level B
Work location	Clayton campus
Date document created or updated	2018

Organisational context

Everyone needs a platform to launch a satisfying career. At Monash, we give you the space and support to take your career in all kinds of exciting new directions. You'll have access to quality research, infrastructure and learning facilities, opportunities to collaborate internationally, as well as the grants you'll need to publish your work. We're a university full of energetic and enthusiastic minds, driven to challenge what's expected, expand what we know, and learn from other inspiring, empowering thinkers. Discover more at www.monash.edu

The **Faculty of Engineering** is one of the largest in Australia, renowned worldwide for the quality and calibre of our teaching, research and graduates. We offer a comprehensive range of undergraduate, graduate, postgraduate and higher degree by research programs in a wide range of engineering disciplines. Our research activities provide a platform for establishing a thriving educational enterprise and our staff are committed to creating a dynamic learning environment. The research activities range from fundamental studies to research with a strong applications orientation.

The Department aims to provide high quality **Civil Engineering** education, research and professional services globally for the mutual benefit of the students, the staff, the University, industry, the profession and the wider community. We offer several undergraduate degrees as well as postgraduate coursework degrees via Off-Campus Learning. The Department actively pursues innovative and significant multi-disciplinary research to address the challenges for engineering in the 21st century. For more information about us and the work we do, [please visit our website](#).

The Research Fellow Public Transport Research Group position is to be located within the Public Transport Research Group (PTRG) in the Institute of Transport Studies at the Clayton Campus of Monash University Melbourne. In 2015 an independent European review named PTRG and the 3rd top research group in the field in the world. The position reports to Professor Graham Currie, the Chair of Public Transport and head of PTRG. The role is to support the research and training undertaken by PTRG which is an industry collaboration between Monash University and Public Transport Victoria. The research will be multi-disciplinary in nature ranging from market research, travel demand analysis, operations research, transport modelling and urban planning. More details available [here](#).

Position purpose

A Level B research-only academic is expected to carry out independent and/or team research within the field in which they are appointed and to carry out activities to develop their research expertise relevant to the particular field of research.

The role of the position is to support the Chair of Public Transport in research activities in the field of public transport planning and development research. The chair is the first professorship in Australia in the public transport field and is supported by government and transport stakeholders to develop learning and research in the public transport industry. The Institute of Transport Studies is a designated Australian Key Centre in Transport Education and Research and has over 40 years history of excellence in these fields. Current research and education activities at ITS are summarised at:

www.eng.monash.edu.au/civil/research/centres/its

Reporting Line: The position reports to Professor of Public Transport Monash University

Supervisory responsibilities: This position provides direct supervision Research Fellow and Research Assistant staff within the Public Transport Research Group; (numbers vary over time according to demand)

Financial delegation and/or budget responsibilities: Management of funds associated with research projects and educational activities of the Public Transport Research Group

Key responsibilities

Specific duties required of a Level B research-only academic may include:

1. The conduct of research either as a member of a team or independently and the production of conference and seminar papers and publications from that research
2. Supervision of research-support staff involved in the staff member's research
3. Guidance in the research effort of junior members of research-only Academic staff in their research area
4. Contribution to the preparation or, where appropriate, individual preparation of research proposal submissions to external funding bodies
5. Involvement in professional activities including, subject to availability of funds, attendance at conferences and seminars in the field of expertise
6. Administrative functions primarily connected with their area of research
7. Occasional contributions to the teaching program within the field of the staff member's research
8. Co-supervision or, where appropriate, supervision of major honours or postgraduate research projects within the field of the staff member's area of research
9. Attendance at meetings associated with research or the work of the organisational unit to which the research is connected and/or at departmental, school and/or faculty meetings and/or membership of a limited number of committees
- 10.

Key selection criteria

Education/Qualifications

1. The appointee will have:
 - A doctoral qualification in Transport Engineering or a related discipline from a recognised university and subsequent qualifications and research experience in the area
 - an equivalent combination of relevant experience and/or education/training

Knowledge and Skills

2. Demonstrated statistical analysis and manuscript and research proposal preparation skills; including a solid track record of refereed research publications
3. Experience in successfully supervising, mentoring and coaching to support the development of research staff and/or a demonstrated trajectory of leadership capability
4. Experience in supervising and working with major honours or postgraduate students within the discipline
5. The ability to work both independently in a research environment and as part of an inter-disciplinary research team
6. High level organisational skills, with demonstrated capacity to establish and achieve goals
7. Excellent written and oral communication skills
8. A demonstrated capacity to work in a collegiate manner with other staff in the workplace
9. Advanced computer skills with experience using Microsoft Word, Excel and PowerPoint
10. Industry experience working with the public transport industry would be valued

Other job related information
