

18 August 2017

To: Professor Michelle Campbell
Executive Dean of Health Sciences

Professor Christine Imms
National Head of School of Allied Health

I write in relation to the position of **Research Assistant**, within the School of Allied Health, Faculty of Health Sciences on the Melbourne campus (WAP: 11033) that has recently been submitted for review under the Position Classification process of Updated Documentation.

Human Resources has reviewed the updated position documentation and found that the functions of the role are consistent with those in the previous Position Classification Request.

The **Research Assistant** position therefore remains classified at **HEW Level 6**.

Yours sincerely

Arnette Capala
Senior HR Officer
Human Resources
