## ***Position Summary***

Successful applicants will be expected to contribute to the work of the Melbourne Law School in teaching and learning, research, engagement and leadership and service. They will teach in the Melbourne Juris Doctor (JD) programme and in the Melbourne Law Masters (MLM) programme, usually including in one or more of the core JD subjects.

They may also contribute to teaching law related subjects in other faculties, including breadth subjects. They will also be expected to:

- Supervise research at JD, LLM or PhD level, depending on their own research qualifications and experience.
- Undertake research of national and international significance, publish the outcomes of their research in leading journals and with leading publishers, and apply for grants in their area of research expertise.
- Contribute to engagement linked to their teaching and/or research activities through, for example, dissemination of their research or programs and partnerships at a local, national and/or global level.
- Contribute to leadership and service to the Law School or University, either by serving on a committee or by undertaking some other responsibility, as directed by the Deputy Dean.

We seek to appoint one or more academics at level B-E with expertise in Intellectual Property, especially Patent or Trademark Law.

We seek to appoint two academics at level B or C, one with expertise in Dispute Resolution and/or Legal Ethics and one with expertise in Public or Private International Law.

We also seek to appoint one or more Indigenous academics at level B-E irrespective of expertise.

The Law Library has an extensive collection of legal resources. It holds over 180,000 volumes of reports, legislation, legal journals and treatises, and subscribes to major Australian and international legal databases. The Law Library has Australia's first Law Faculty Research Service, which provides reference and research expertise for Melbourne Law School academic staff working on grant applications, publications, teaching materials and knowledge transfer projects. Law Library staff also provide legal research tutorials for students and teach legal research components in the Law School's coursework programs.

### **External Relations**

The Melbourne Law School has academic staff and student exchange arrangements with a large number of universities in Asia, Europe and North America. It has degree partnership arrangements with Cambridge, New York University (JD/JD and JD/LLM), Oxford University (JD/BCL), Chinese University of Hong Kong (JD/LLM) and University of British Columbia (JD/LLM). JD students have an opportunity to study in London at the Centre for Transnational Legal Studies and members of the Law School also teach into that program. The Law School also has close working relationships with international agencies providing opportunities for student internships.

Members of the academic staff of Melbourne Law School are frequently engaged as consultants or advisors to governments, parliamentary committees, professional bodies, companies, law firms and non-government organisations. The Law School encourages academic staff and students to participate in law reform programs.

## **5.2 THE UNIVERSITY OF MELBOURNE**

The University of Melbourne is a leading international university with a tradition of excellence in teaching and research. With outstanding performance in international rankings, Melbourne is at the forefront of higher education in the Asia-Pacific region and the world. The University of Melbourne is consistently ranked among the world's top universities.

Further information about our reputation and global ranking is available at <http://futurestudents.unimelb.edu.au/explore/why-choose-melbourne/reputation-rankings>.

Established in 1853, shortly after the founding of Melbourne, the University is located just a few minutes from the centre of this global city. The main Parkville campus is recognised as the hub of Australia's premier knowledge precinct comprising eight hospitals, many leading research institutes and a wide range of knowledge-based industries.

The University employs people of outstanding calibre and offers a unique environment where staff are valued and rewarded. Further information about working at The University of Melbourne is available at <http://about.unimelb.edu.au/careers>

### 5.3 GROWING ESTEEM, THE MELBOURNE CURRICULUM AND RESEARCH AT MELBOURNE: ENSURING EXCELLENCE AND IMPACT TO 2025

Growing Esteem describes Melbourne's strategy to achieve its aspiration to be a public-spirited and internationally-engaged institution, highly regarded for making distinctive contributions to society in research and research training, learning and teaching, and engagement. <http://about.unimelb.edu.au/strategy-and-leadership>

The University is at the forefront of Australia's changing higher education system and offers a distinctive model of education known collectively as the Melbourne Curriculum. The new educational model, designed for an outstanding experience for all students, is based on six broad undergraduate programs followed by a graduate professional degree, research higher degree or entry directly into employment. The emphasis on academic breadth as well as disciplinary depth in the new degrees ensures that graduates will have the capacity to succeed in a world where knowledge boundaries are shifting and reforming to create new frontiers and challenges. In moving to the new model, the University is also aligning itself with the best of emerging European and Asian practice and well-established North American traditions.

The University's global aspirations seek to make significant contributions to major social, economic and environmental challenges. Accordingly, the University's research strategy *Research at Melbourne: Ensuring Excellence and Impact to 2025* aspires to a significant advancement in the excellence and impact of its research outputs. <http://research.unimelb.edu.au/index.html#home>

The strategy recognises that as a public-spirited, research-intensive institution of the future, the University must strive to make a tangible impact in Australia and the world, working across disciplinary and sectoral boundaries and building deeper and more substantive engagement with industry, collaborators and partners. While cultivating the fundamental enabling disciplines through investigator-driven research, the University has adopted three grand challenges aspiring to solve some of the most difficult problems facing our world in the next century. These Grand Challenges include:

Understanding our place and purpose – The place and purpose grand challenge centres on understanding all aspects of our national identity, with a focus on Australia's 'place' in the Asia-Pacific region and the world, and on our 'purpose' or mission to improve all dimensions of the human condition through our research.

Fostering health and wellbeing – The health and wellbeing grand challenge focuses on building the scale and breadth of our capabilities in population and global health; on harnessing our contribution to the 'convergence revolution' of biomedical and health research, bringing together the life sciences, engineering and the physical sciences; and on addressing the physical, mental and social aspects of wellbeing by looking beyond the traditional boundaries of biomedicine.

Supporting sustainability and resilience – The sustainability and resilience grand challenge addresses the critical issues of climate change, water and food security, sustainable energy and designing resilient cities and regions. In addition to the technical aspects, this grand challenge considers the physical and social functioning of cities, connecting physical phenomena with lessons from our past, and the implications of the technical solutions for economies, living patterns and behaviours.

Essential to tackling these challenges, an outstanding faculty, high performing students, wide collaboration including internationally and deep partnerships with external parties form central components of Research at Melbourne: Ensuring Excellence and Impact to 2025.

#### 5.4 GOVERNANCE

The Vice Chancellor is the Chief Executive Officer of the University and responsible to Council for the good management of the University.
