- Adapting and responding to change

Faculty of Science – Organisational Environment

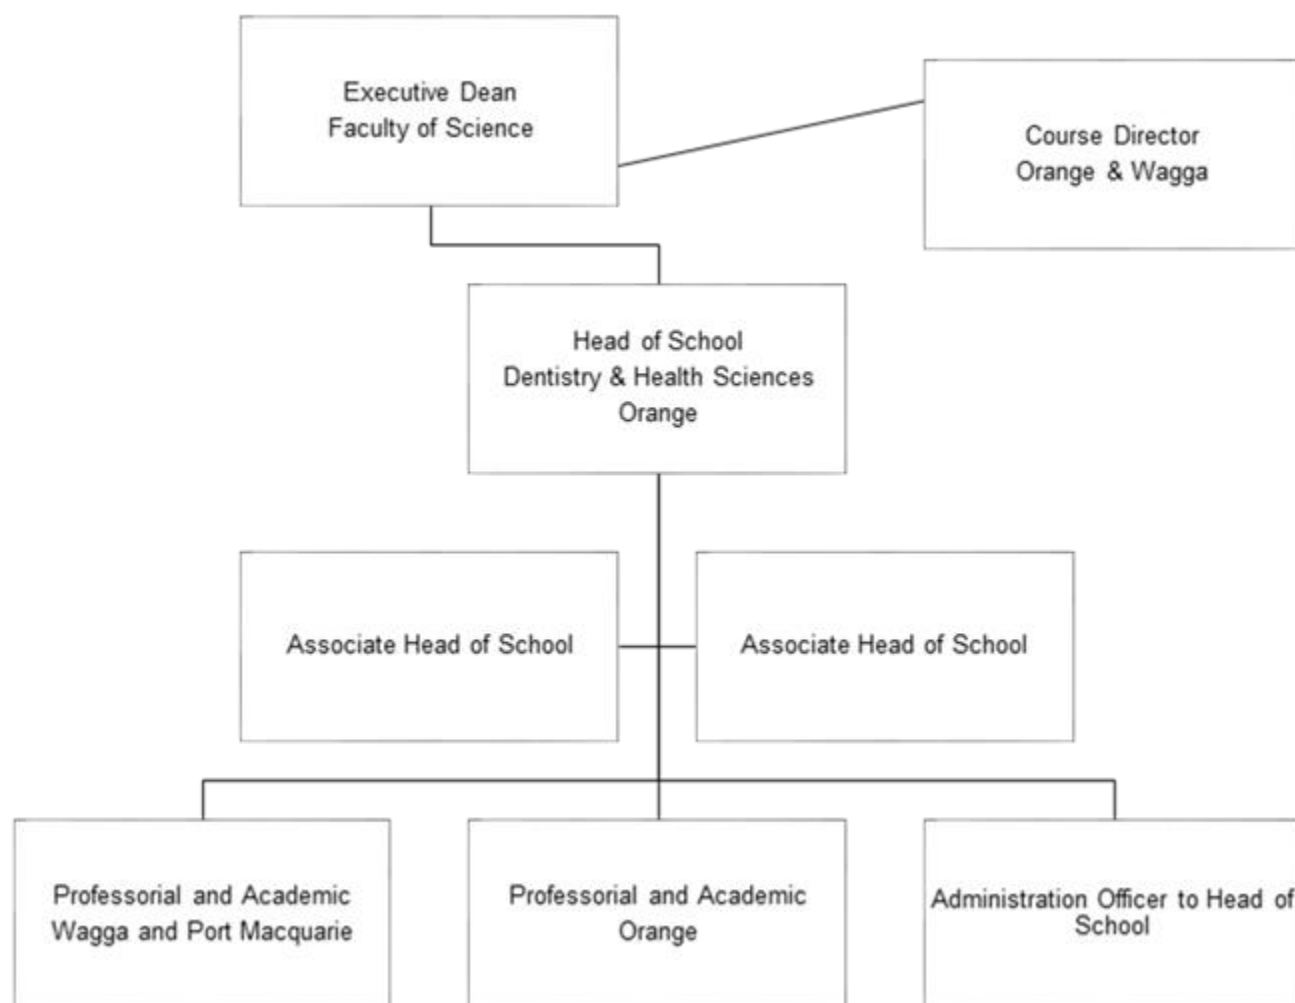

The [Faculty of Science](#) has more than 9000 students and over 500 staff dedicated to advancing scientific knowledge. It delivers flexible and innovative teaching programs designed to produce job-ready graduates for a diverse range of professions. As a leader in strategic and applied research the Faculty aims to enhance and extend scientific knowledge, train and educate future researchers as well as provide scientific solutions to current regional, national and global challenges. The staff and students of the Faculty achieve their educational and research goals through ethical practice, professional collaboration, industry involvement and a commitment to continual improvement.

The [School of Dentistry and Health Sciences](#) is a multi-campus, academic unit. The School offers a suite of undergraduate and postgraduate courses both onshore and offshore in a range of health disciplines including: Dentistry, Oral Health Therapy, and Medical Radiation Science. The School is committed to enhancing its reputation as a high performing multidisciplinary school and seeks academics focused on providing quality education and being actively involved in a variety of development of health professional education and health based research programs that complement these courses.

Staff are focused on innovative and high quality education, using vibrant new learning spaces to encourage collaboration and support new methods of teaching and learning.

Through patient care, research and community service, our students and staff will also play a major role in helping to improve the oral and systemic health of people in regional/remote New South Wales, and across the nation and the world.

Head of School
Course Director
Faculty and School Staff

Position Overview

The Associate Lecturer in Medical Imaging will actively engage in teaching, research and curriculum development related to Medical Radiation Sciences in the School of Dentistry and Health Sciences. The appointee will have extensive clinical experience within the field of medical imaging and can demonstrate education experience within the clinical and/or academic setting. The appointee will be responsible for teaching a range of subjects which will include specialisation specific content relating to professional practice, general radiography, imaging anatomy and imaging pathology, instrumentation, clinical simulation and/or medical radiation science. It will be expected that multiple teaching methods (face to face and online delivery) methods are utilised. The appointee will participate in the administration and ongoing curriculum development.

Principal Responsibilities

1. Apply CSU learning and teaching methodologies, processes, technologies and tools to deliver high quality student centred learning opportunities in the relevant discipline and as required to meet the teaching needs of the University. Achieve excellence in teaching in a range of delivery modes, which may include face to face and online teaching and assessment;
2. Build strong professional relationships with students and provide timely and appropriate consultation and feedback;
3. Actively contribute to collaborative processes to design, deliver and continually improve high quality courses and learning experiences for students including the giving and receiving of constructive feedback;
4. Actively contribute to high performing multi-disciplinary teams with an outcome focus and the development of a respectful, trusting and collaborative working environment;
5. Provide discipline expertise, as appropriate, in the convening, coordination and delivery of subjects and/or courses;
6. Develop and maintain a sound and current knowledge and understanding of the relevant discipline through industry engagement and/or scholarly activities or similar;
7. Actively contribute to the governance, marketing and promotion, and administrative activities to facilitate the work of the Faculty/School.
8. Other duties appropriate to the classification as required.

Physical Capabilities

1. Physically able to sit for extended periods of time to perform reading, writing and computing related activities including keyboard and mouse operations;
2. On occasion travel in/drive a university vehicle distances up to 500kms per day within the terms of the University's Driving Hours Guidelines and Policy available at:
<https://policy.csu.edu.au/view.current.php?id=00176> and
<https://policy.csu.edu.au/view.current.php?id=00184>.

Selection Criteria

Applicants are expected to address the selection criteria when applying for this position.

Essential Criteria

1. A bachelor qualification relevant to medical imaging;
2. Eligibility for **full registration** as a **Diagnostic Radiographer** with the Australian Health Practitioner Regulation Agency (AHPRA);
3. Capacity to undertake, under supervision, teaching and/or research or professional activity;
4. Capacity to delivery high quality student centred learning and teaching, including the ability to write and delivery subjects at an undergraduate level;
5. Sound knowledge and understanding of the discipline that is applicable to the teaching of diagnostic radiography to entry-level health professionals gained through industry experience and/or scholarly activities or similar;

Desirable

1. A current Class C Driver's Licence in Australia;
2. A record of research works relevant to medical radiation science or health science.
