

Ready to challenge yourself?

At Hydro Tasmania, we're leaders in renewable energy, powering Australia with clean hydropower. We really care about making a difference for the better, but it's a big job, and we can't do it alone. Which is where you come in.

A career with us will support you to be the best you can be with open working relationships, genuine opportunity to try things your way, and unwavering commitment to excellence.

Together we'll make a difference.

Position Description: **Site Manager**

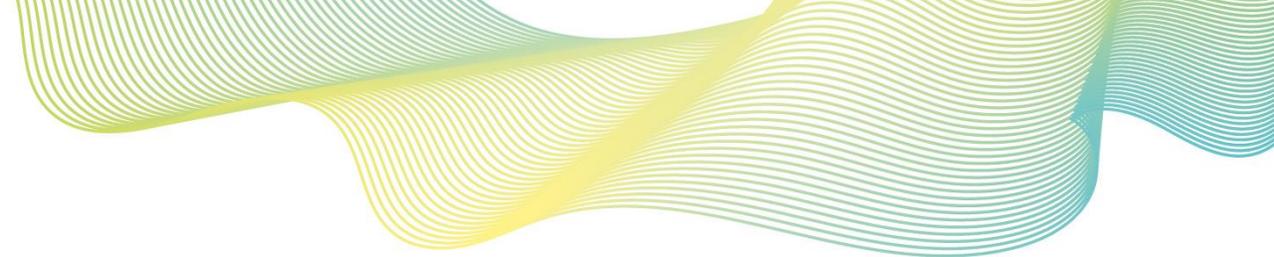

Role overview

- **Position classification:** HT4,
- **Number of direct reports:** NIL,
- **Delegation Level:** DL6 <20k
- **Team, business area:** Major Works, Assets and Infrastructure
- **Immediate manager:** Delivery Manager
- **Manager-one-removed (skip):** Head of Major Works

Role purpose

This position is a member of Hydro Tasmania's Major Works team and is required to contribute to the achievement of the strategic direction of Major Works, Technical and Operations and the Corporation.

Under the leadership of the Delivery Manager Major Outages, the specific role of the Site Manager is to provide overall site management for all aspects of major and/or complex generation outages. To ensure continuous improvement in relation to outage completion: on time, to budget, to scope and to the expected quality.

Position Description: Site Manager

Role accountabilities

Strategy Execution (customer, community and stakeholders)

- Identifies new areas and opportunities and works with internal stakeholders to translate this into delivered value.

Leadership and Organisation

- Managing Technical and Operations, Entura and contractor personnel as team members (seconded for an outage), assigning tasks, outcomes and/or deliverables and then monitoring and managing progress and performance;
- Providing coaching and mentoring of outage site team personnel;
- Promote a culture of professionalism, business acumen and performance;
- Monitoring progress against personal Performance Plan objectives;
- Undertaking appropriate professional development opportunities;
- Demonstrate alignment with Hydro Tasmania's values and policies by providing leadership through role modelling values-based decision-making; and
- Contribute to the consistency of outage processes and work practices across the state.

Technical

Receive Outage Plans (as part of the 10 year asset management plan), including:

- In conjunction with the Maintenance and Operations Team selecting resources and support needs in the 0-3 year time frame; and

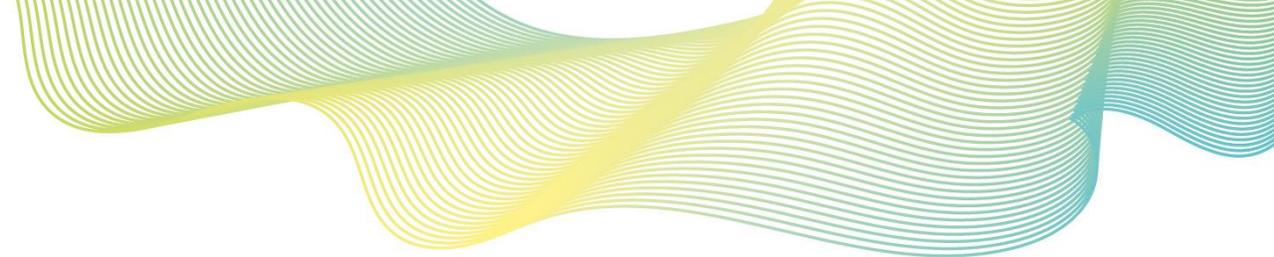

- Collaborating with the other Outage Managers and Production Managers to support the efficient use of resources and state-wide work plan priorities.

Prior to outage:

- Attend pre-outage planning meetings;
- Ensure that all outage documentation is to an acceptable standard;
- Participate in Hazard and Operability Studies (HazOpS) as required;
- Participate in Outage risk management assessments and ensure that the intended containment measures for each of the designated risks are adhered to;
- Confirm with Maintenance and Operations Team that final arrangements with all outage participants have been made for their timing and availability for the outage;
- Ensure that all outage preparations are complete onsite and otherwise; and
- Ensure that all required documentation is complete for the outage prior to starting.

During Outage:

- Provide site co-ordination/management for the entire outage, managing multi-functional teams;
- Chair all onsite meetings;
- Provide safe work processes and a safe place of work;
- Ensure that all environmental and safety incidents and non compliances are reported, investigated and recommendations fully implemented;
- Ensure that all work is carried out in accordance with environmental and safety policies and procedures;

Position Description: Site Manager

Technical (continued)

- Ensure that all JHA's for site work are approved by the site manager prior to work commencing;
- Participate in the auditing process by providing the necessary access to teams and resources;
- Ensure that the outage starts and finishes on schedule, work is completed to quality standards on time and within budget; and
- Ensure that ITP (Inspection and Test Plan) is completed by relevant parties.

Commissioning:

- Ensure that commissioning resources are available prior to commissioning commencing; and
- Ensure that documents which may be required from the Transmission Network Service Provider (TNSP) for new plant/equipment or alterations to existing equipment are completed.

Handover:

- Hand over the equipment to the System Controller after commissioning is complete.

After Outage:

- Ensure that a punch list is prepared to identify all outstanding works and defects on the plant are known; items not addressed before practical completion are to be planned (scheduled, resourced and costed) to be completed at the earliest convenience;
- Ensure that all outage documentation is complete and filed in the appropriate data location;

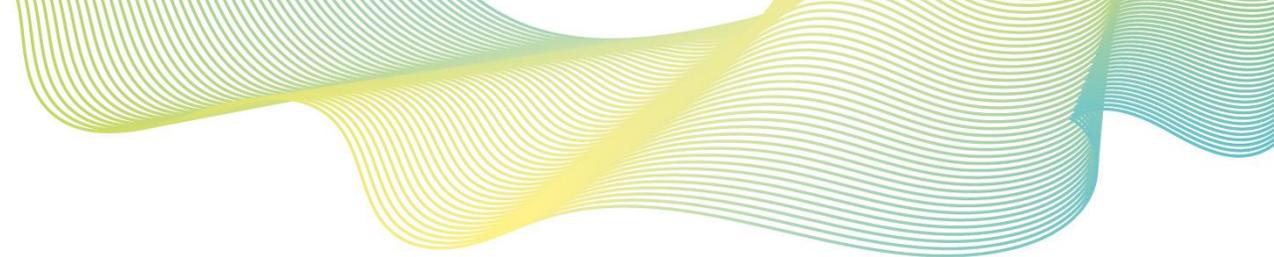

- Ensure that all FMMS job tickets are completed to an acceptable standard, eg. resources to complete job, checklist, remarks;
- Conduct a post outage review and provide a final outage report to all relevant parties including learning's and follow up actions; and
- Manage the follow up actions from the post outage review in a timely manner to ensure effective outage planning and management in the future.

Manage changes to an outage, including:

- Manage change of scope, risk, return to service time and cost implications as required, within delegation;
- Advise appropriate people of changes to the outage in terms of scope change, risk, return to service time and cost; and
- Signoff of agreed changes to the outage plan with the Programming, Delivery and Maintenance and Operations Teams.

Outage reporting, including:

- Regular cost tracking reports to ensure outage is running to budget;
- Tracking of progress of outage against schedule;
- Regular return to service expectation reports;
- Regular OH&S and environmental compliance reporting;
- Resource utilisation and people performance reporting;
- Outage overrun reporting (as required) explaining reasons why the outage took longer than planned including future preventive actions; and
- Reporting of rework and quality issues.

Position Description: **Site Manager**

Candidate attributes

Technical skills and qualifications

- Mechanical or Electrical Trade Qualifications and/or Engineering Certificate; and/or
- Certificate IV in Frontline Management and/or progress towards achieving Certificate V; and
- Current Drivers Licence.

Experience

- Site outage management experience in a heavy industrial environment or power utility;
- Experience in budgeting and “cost control” processes on large projects and/or outages;
- Experience in leading and managing teams;
- Experience in report writing and documentation preparation;
- Experience in outage planning in a heavy industrial environment or power utility; and
- Experience in planning and managing resources and priorities.

Capabilities

- High level of real time decision making capability;
- A high level understanding of inter-relationships between different groups and lines of business within

- Hydro Tasmania or ability to grasp these quickly;
- Commercial awareness/business acumen;
- Demonstrated skills in managing people, processes and practices;
- Demonstrated problem solving skills; and
- Developing and maintaining a safe and environmentally friendly work environment.

Change leader

- You identify and implement opportunities for continuous improvement/Lean initiatives within your team and across the business.
- You champion change where needed and inspire others to do the same.
- You apply change management methodology to your business area objectives, focusing on the future state and achieving positive and sustainable outcomes.
- You display resilience and persistence to achieve positive change outcomes.

Growth mindset

- You see challenges and failures as opportunities.
- You actively seek and learn from feedback.
- You have a mindset of development, determination and opportunity.

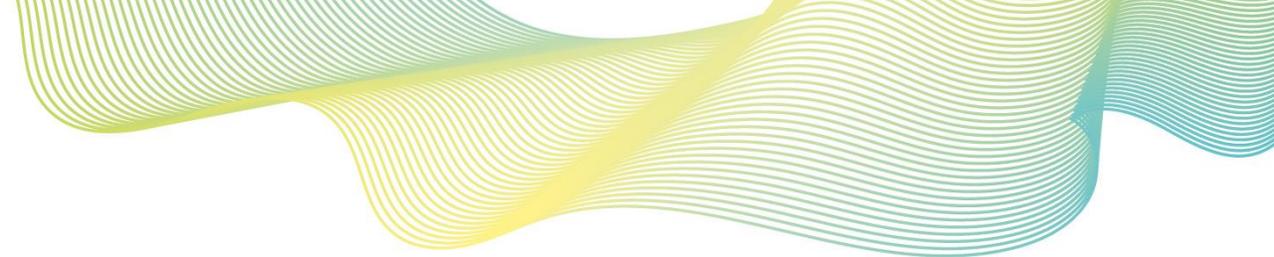

Behavioural competencies

- See the Behavioural Competency Framework on the following page.

Position Description: **Site Manager**
