

LECTURER (RADIATION THERAPIST)

DEPARTMENT/UNIT	Medical Imaging & Radiation Sciences
FACULTY/DIVISION	Faculty of Medicine, Nursing and Health Sciences
CLASSIFICATION	Level B
DESIGNATED CAMPUS OR LOCATION	Clayton campus

ORGANISATIONAL CONTEXT

Everyone needs a platform to launch a satisfying career. At Monash, we give you the space and support to take your career in all kinds of exciting new directions. You'll have access to quality research, infrastructure and learning facilities, opportunities to collaborate internationally, as well as the grants you'll need to publish your work. We're a university full of energetic and enthusiastic minds, driven to challenge what's expected, expand what we know, and learn from other inspiring, empowering thinkers. Discover more at www.monash.edu.

The **Faculty of Medicine, Nursing and Health Sciences**, is the largest faculty at Monash University, and offers the most comprehensive suite of professional health training in Victoria. We consistently rank in the top 40 universities worldwide for clinical, pre-clinical and health sciences.

We want to improve the human condition. That is our vision - it has no expiration date. Through academic health centres, other translational models and by educating the healthcare workforce of the future, our staff, students and alumni directly improve quality of life. Setting the global health care agenda, the Faculty aspires to lead in all areas of research activity and influence local, national and international policy to improve health and social outcomes and health inequalities.

We've made a major impact in the world of medical research and become globally recognised for our quality education of over 41,000 doctors, nurses, and allied health professionals. We are ambitious and aim to maintain our position as a leading international medical research university. We're recognised for the breadth and depth of our research, for our commitment to translational research, for the quality and scale of our research capability, and as a thriving biotechnology hub.

To learn more about the Faculty, please visit www.monash.edu/medicine.

The **School of Primary and Allied Health Care (SPAHC)** has an organisational hub at the Peninsula campus. The School aims to be Australia's leading centre of primary and allied health care education and research, building on existing strengths. The SPAHC is a leader in primary and allied care research, teaching and service. The School provides high quality programs at undergraduate and graduate entry levels, specialised professional graduate coursework programs and higher degrees by research. The School currently includes the Departments of Community Emergency Health and Paramedic Practice, Occupational Therapy, Physiotherapy, Social Work and Medical Imaging and Radiation Sciences.

The School's departments and centres are situated across the Caulfield, Clayton and Peninsula Campuses and at Notting Hill (near to the Clayton campus). Two new research centres have been developed within the school: a Centre for Addiction Research and Recovery and a Rehabilitation, Ageing and Independent Living (RAIL) Research Centre.

The **Department of Medical Imaging and Radiation Sciences** aims to prepare students for effective and ethical professional practice in medical radiation sciences and to pursue careers in radiography, medical ultrasound, radiation therapy and research. The Department actively encourages students to engage in a process of life-long learning and contribute to the development of radiography, radiation therapy, and sonography as research-based professions; and foster an interest in clinical and scientific research and to contribute to advances in radiography, radiation therapy and medical ultrasound. Further details may be found at: www.monash.edu/medicine/spahc/radiography.

POSITION PURPOSE

A Level B academic is expected to make contributions to the teaching of the University and to carry out activities to maintain and develop their scholarly, research and/or professional activities relevant to the profession or discipline.

The Lecturer (Radiation therapy) will be responsible for the delivery of radiation therapy teaching as well as to support the delivery of the suite of Bachelor of Radiation Sciences units as appropriate.

Reporting Line: The position reports to the Head of Department, Medical Imaging and Radiation Sciences

Supervisory Responsibilities: Not applicable

Financial Delegation: Not applicable

Budgetary Responsibilities: Not applicable

KEY RESPONSIBILITIES

Specific duties required of a Level B academic may include:

1. Implement innovative teaching approaches for face-to-face, online and blending learning courses incorporating industry best practice and the latest research findings
2. Design and develop engaging course curricula to promote student learning
3. The conduct of tutorials, practical classes, demonstrations, workshops, student field excursions, clinical sessions, studio sessions and online delivery of courses
4. Preparation and assessment of student assignments and examinations
5. Acting as subject and/or course coordinators
6. Supervision of the program of study of honours students or of postgraduate students engaged in course work
7. The conduct of research that will lead to publications in high-quality peer-reviewed refereed journals
8. Consultation with students
9. Responsible for broad administrative functions
10. Attendance at departmental, school and/or faculty meetings and a major role in planning or committee work
11. Contribution to the profession and/or discipline both nationally and internationally
12. Other duties as directed from time to time

KEY SELECTION CRITERIA

Education/Qualifications

1. The appointee will:
 - Have a doctoral or masters qualification in Radiation Therapy or equivalent. Practitioners with Bachelor degree in radiation therapy with clinical and teaching experience will be considered;
 - hold current registration or be eligible to hold current registration with the Medical Radiation Practice Board of Australia (MRPBA).

Knowledge and Skills

2. Possess a high level of interpersonal skills and demonstrated ability to work independently and as part of a team across both the education and service sectors
3. Ability to think creatively, work positively and cooperatively with students, internal and external stakeholders to develop and maintain strong professional links within relevant clinical settings both hospital-based and in the professional community
4. Ability to bring their clinical expertise to support the teaching and assessment activities of the Department
5. Demonstrated strong record of teaching experience in a tertiary environment
6. Demonstrated ability to motivate, actively engage and educate a given audience
7. Ability to bring expertise from their profession to inform curriculum teaching and subject material development
8. Proven ability, commitment and passion for engaging in scholarly and research activities
9. A demonstrated capacity to work in a collegiate manner with other staff in the workplace with a 'can-do' attitude

OTHER JOB RELATED INFORMATION

- Travel to other campuses of the University may be required
- There may be a requirement to work additional hours from time to time
- There may be peak periods of work during which taking of leave may be restricted
- A current satisfactory Working With Children Check is required

GOVERNANCE

Monash University expects staff to appropriately balance risk and reward in a manner that is sustainable to its long-term future, contribute to a culture of honesty and integrity, and provide an environment that is safe, secure and inclusive. Ensure you are aware of and adhere to University policies relevant to the duties undertaken and the values of the University. This is a standard which the University sees as the benchmark for all of its activities in Australia and internationally.
