

1. How many hours per weeks is expected from someone in this role?

- a. On average, the number of working hours averages to ~27 hours per week. This can vary week-to-week, with some weeks having a higher number of hours and some having less hours, depending on the number of teaching sessions scheduled, university hours, and other factors.
- b. To ensure effective commitment, as this is a salaried nearly full-time position associated with a high calibre medical teaching program, we expect that this will be the primary position held by all incumbents, with some part-time work elsewhere accommodated if required to support clinical or professional careers.

2. What times of the day are you typically working?

- a. The usual working hours range from 8am to 8pm (in compliance with Monash University hours of operation), with the majority of teaching conducted between 8am and 6pm.
- b. During teaching periods, it is expected that minimal leave will be taken by incumbents to ensure smooth teaching delivery and continuity for students.
- c. Leave, unless for illness or extenuating circumstances, will likely not to be approved for assigned teaching days.

3. What activities do those in this role do?

- a. This varies from year to year, and will be discussed during the interview should applicants reach that stage.
- b. The broad scope of work and activities are outlined in the [position description](#) and on the [CHAE website](#).

4. Given my experience and skills, should I apply?

- a. The essential criteria for appointment, including required skills, experience and knowledge are outlined in the [position description](#) and on the [website](#). If you do not possess these, you are advised not to apply.
- b. Experience with dissection and whole-body human anatomy is considered essential
- c. Clinical anatomy knowledge is also highly regarded

5. Will these roles be continuing appointments?

- a. No. These are designed to help healthcare professionals develop teaching skills, particularly those interested in clinical bedside education and speciality training programs.
- b. These positions are for one year and positions advertised annually.

6. Would you consider international candidates?

- a. This can change, and is dependent on border restrictions as well as visa policies and guidelines.
- b. Monash University seeks applicants for this opportunity who are able to demonstrate and present valid and current Australian work rights. This extends to those eligible to apply for a [working holiday visa](#).

7. What is whole body human anatomy?

- a. Knowledge of musculoskeletal, visceral, thoracic, abdominal, and neuro anatomy are expected prerequisites of these positions.
- b. Clinical knowledge about these anatomical structures, regions and body systems is also expected.

8. Can you review my application and/or credentials to see if I am eligible for the role?

- a. We are unable to provide individual feedback to applications
- b. All applications are reviewed by a panel and vetted through a considered process, and thus individuals within the CHAE (including the Centre Director) are not able to identify who may/may not be suitable for these positions.
- c. We encourage each interested applicant to consider whether their own unique experience, along with the items outlined in this FAQ, aligns with the position description prior to applying.
