<b>WORK LOCATION</b>	Suzhou, China
<b>EMPLOYMENT TYPE</b>	Full time
<b>DURATION</b>	3 year fixed-term appointment
<b>CLASSIFICATION</b>	Level C

## ORGANISATIONAL CONTEXT

---

Founded in 1958, Monash University (**Monash**) has firmly secured its place as a leading global university. At Monash, we give you the space and support to take your career in all kinds of exciting new directions. You'll have access to quality research, infrastructure and learning facilities, opportunities to collaborate internationally, as well as the grants you'll need to publish your work. Monash is a university full of energetic and enthusiastic minds, driven to challenge what's expected, expand what we know, and learn from other inspiring, empowering thinkers. Discover more at [www.monash.edu](http://www.monash.edu).

Monash is honoured to be the first Australian university to receive a licence to operate in China, one of the world's largest and fastest-growing economies, via the partnership at Suzhou with the Southeast University (**SEU**), one of China's key national universities as well as establishment of Monash (Suzhou). The SEU-Monash partnership consists of the Joint Research Institute (**JRI**) and the Joint Graduate School (**JGS**), and will produce postgraduates and researchers with ideas to change people's lives in the region and the world for the better.

The collaboration is based at Suzhou Industrial Park (**SIP**), which is one of the largest innovation precincts in China and recognised as one of the world's most dynamic places for converting clever research into valuable industrial processes and products. It is a hub for more than 100 Fortune 500 companies, 480 R&D organisations, as well as 10 national and 28 international higher education institutions.

To facilitate the collaboration Monash established the Monash Suzhou Science and Technology Research Institute (Monash Suzhou Research Institute (**MSRI**) in short), a not for profit research institute in SIP. MSRI aims to provide a wide range of R&D support to Monash in China in five priority research areas including:

- Advanced computation in science and engineering;
- Advanced materials and manufacturing;
- Energy and environment;
- Future cities; and
- Life sciences

MSRI aims to attract outstanding researchers and high calibre research students. Research in the long term will not be limited only to the above themes; based on the research strengths of SEU and Monash, research in other areas will also be developed and promoted in time. It is the intention to build up a critical mass of researchers at the MSRI and the JRI and strengthen relationships in R&D with local and international industries and other institutions in China.

## POSITION PURPOSE

---

A Level C academic is expected to make significant contributions to the teaching effort of the JGS. An academic at this level is also expected to play a major role in scholarship, research and/or professional activities relevant to the particular research theme to which the incumbent is appointed.

Incumbents are expected to take a major role in planning, evaluating, and delivering courses and units in collaboration with the relevant Monash Department or School, and other academic staff within the MSRI, JRI and JGS. Incumbents are also expected to participate in one of the above research themes in collaboration with Monash academic staff and with other academic staff within the MSRI, JRI and JGS.

The Monash Business School undertakes education, research, consultancy and community engagements across all the main business and economics disciplines. It offers a comprehensive selection of awards including bachelor degrees, specialist master degrees by coursework, the Master of Business Administration (MBA), masters by research, and the PhD. Student numbers exceed 14,000, making it one of the largest business education providers in Australia.

The Monash Business School operates across all four Australian campuses (Berwick, Caulfield, Clayton and Peninsula) and, together with business schools in South Africa and Malaysia, makes up Monash University's Faculty of Business and Economics.

The Monash Business School is structured into seven discipline-based departments (Accounting, Banking and Finance, Business Law and Taxation, Econometrics and Business Statistics, Economics, Management, and Marketing) as well as a number of research centres, units and groups in specialist areas such as behavioural economics, development economics, employment and work, and retail studies.

To learn more about the Monash Business School, please visit our website: [www.buseco.monash.edu.au](http://www.buseco.monash.edu.au)

The Department of Management is a large grouping of management educators and researchers in the Asia-Pacific region with academic staff teaching on the Monash metropolitan Australian campuses and at our international locations in China, Malaysia and in Italy. The Department has an international reputation for its research and teaching in many fields of management, including: human resources, employment relations, operation management, international business, strategic management and organisational behaviour. Teaching is managed through three academic groups: Governance, Leadership and Organisation (GLO); Human Resources, Employment Relations and Research (HRERR); and, International Business, Operations and Strategy (IBOS). Our expertise embraces both the public and private sectors at home and overseas. [www.business.monash.edu/management](http://www.business.monash.edu/management)

**Reporting Line:** This position reports to the Head of the relevant Department or School at Monash for teaching activities performed in the JGS and the Centre Director of the relevant research theme within the MSRI for research related activities.

**Supervisory responsibilities:** Not Applicable

**Financial delegation and/or budget responsibilities:** Not Applicable
