

Lecturer – Logistics and Supply Chain Management

College/Division	College of Sciences and Engineering
School/Section	Australian Maritime College
Location	Launceston
Classification	Level B
Reporting line	Reports to Director – Centre for Maritime and Logistics Management

Position Summary

The University of Tasmania is building a vision of a place-based University with a mission to enhance the intellectual, economic, social and culture future of Tasmania, and from Tasmania, contribute to the world in areas of distinctive advantage. The University recognises that achieving this vision is dependent on the people we employ as well as creating a people-centred University that is values-based, relational, diverse, and development-focused.

We are seeking to appoint a Lecturer in Logistics and Supply Chain Management in the [Australian Maritime College](#) which is part of the [College of Sciences and Engineering](#).

The Australian Maritime College (AMC) is one of the most comprehensive maritime education, training and research organisations in the world. The AMC offers within one organisation an academic research, higher education and vocational education training institute in the maritime sector that covers: seafarer training, maritime engineering, and maritime and logistics management. The AMC's Centre for Maritime and Logistics Management (CMLM) delivers degrees in Maritime, Logistics and Supply Chain Management.

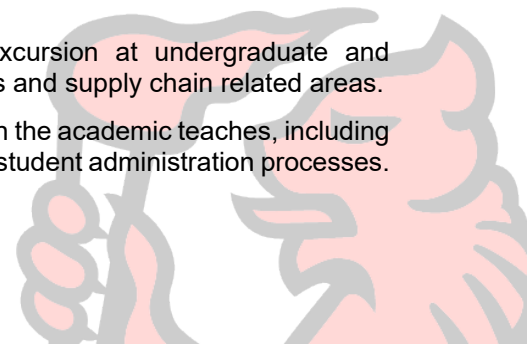

The Lecturer in Logistics and Supply Chain Management is a teaching intensive position. The position will involve teaching and scholarship, consultancy, and administrative duties as a Lecturer at the Australian Maritime College as part of the College of Sciences and Engineering. Teaching duties include conducting lectures, tutorials, workshops, seminars, associated assessments, and research supervision for undergraduate and postgraduate programmes. The appointee will be required to participate in the coordination, design, development, implementation, and review of modern and innovative programmes, flexible delivery and assessment.

The appointee will undertake administrative duties within the CMLM, if appropriate, the wider University. The appointee will also be expected to actively engage in scholarly, research and professional activities appropriate to their discipline and depending on their level, conduct supervision of Honours and Research Higher Degree students.

We are an inclusive workplace committed to 'working from the strength that diversity brings' reflected in our Statement of Values. We are dedicated to attracting, retaining and developing our people and are committed to inclusive principles. We celebrate the range of diverse assets that gender identity, ethnicity, sexual orientation, disability, age and life course bring. Applications are encouraged from all sectors of the community. Tell us how we can make this job work for you.

What You'll Do

- Make an effective and sustained contribution to the University in achieving its strategic objectives and fulfilling its operational responsibilities.
- Coordinate and/or conduct lectures, tutorials, workshops and excursion at undergraduate and postgraduate levels, both on-campus and distance/online, in logistics and supply chain related areas.
- Undertake marking and assessment associated with the units in which the academic teaches, including providing feedback and consultation with students and completion of student administration processes.

- Develop new units related to technology applications in logistics and supply chain management.
- Initiate, develop, and monitor innovative and flexible delivery and assessment programmes using modern educational strategies; and collaborate with internal and external partners and clients in delivering these programmes within AMC, locally, interstate, and international.
- Collaboration with outside professional bodies, industry, and the community, with emphasis on meeting stakeholder requirements, maintaining industry and professional links, and providing commercial work, applied research and consultancy within the maritime and logistics related industries, both in Australia and overseas.
- Undertake administrative and management functions to CMLM, and participate in activities such as workshops, seminars, meetings, student recruitment, marketing and promotion activities, and student counselling.
- Undertake other duties as assigned by the Director of CMLM.

What We're Looking For (success criteria)

- Completion of a PhD in a relevant discipline.
- Able to teach in units related to logistics and supply chain field, such as warehousing and distribution management, e-Commerce logistics management, project management
- Evidence of knowledge and/ or experience in the application of emerging technologies (e.g., Industry 4.0) in maritime, logistics and supply chain management
- Evidence of an ability to engage in scholarly research (as indicated by publication record), supervision of Honours and Research Higher Degree students, and participation in application for grants.
- Demonstrated ability to plan and teach effectively at all levels using modern, innovative, and relevant pedagogic tools and strategies.
- Demonstrated ability in well-developed written and oral communication skills and an ability to communicate with a broad cross section of maritime and logistics industry personnel.
- Demonstrated ability to work as part of a team with limited supervision to demanding timelines, an ability to answer and respond to industry and stakeholder inquiries, ability to produce good quality reports, and be flexible with the work.

Other desirable requirements

- Industry experience in logistics and supply chain management
- Experience in University-level learning and teaching

University of Tasmania

The University of Tasmania is an institution with an enduring commitment to our state and community, and a strong global outlook. We are committed to enhancing the intellectual, economic, social and cultural future of Tasmania. Our [Strategic Direction](#) strongly reflects the University community's voice that our University must be place based but globally connected as well as regionally networked and designed to deliver quality access to higher education for the whole State.

We believe that from our unique position here in Tasmania we can impact the world through the contributions of our staff, students and graduates. We recognise that achieving this vision is dependent on the people we employ, as well as creating a university that is values-based, relational, diverse, and development-focused.
