Organisational Context

Organisational Overview:

Our mission at SA Health is to lead and deliver a comprehensive and sustainable health system that aims to ensure healthier, longer and better lives for all South Australians. We will achieve our objectives by strengthening primary health care, enhancing hospital care, reforming mental health care and improving the health of Aboriginal people.

SA Health is committed to a health system that produces positive health outcomes by focusing on health promotion, illness prevention and early intervention. We will work with other government agencies and the community to address the environmental, socioeconomic, biological and behavioural determinants of health, and to achieve equitable health outcomes for all South Australians

Our Legal Entities:

SA Health is the brand name for the health portfolio of services and agencies responsible to the Minister for Health and Wellbeing.

The legal entities include but are not limited to Department for Health and Wellbeing, Central Adelaide Local Health Network, Northern Adelaide Local Health Network, Southern Adelaide Local Health Network, Women's and Children's Health Network, Country Health SA Local Health Network and SA Ambulance Service.

SA Health Challenges:

The health system is facing the challenges of an ageing population, increased incidence of chronic disease, workforce shortages, and ageing infrastructure. The SA Health Care Plan has been developed to meet these challenges and ensure South Australian's have access to the best available health care in hospitals, health care centres and through GPs and other providers.

Health Network/ Division/ Department:

The Women's and Children's Health Network (WCHN) was established to promote, maintain and restore the health of women, children and young people in South Australia. The Service plans, develops and coordinates health services as part of an integrated health system.

The Women's and Children's Health Network efficiently conducts and manages, within its identified resources, health services for children, young people and women, including:

- Specialist hospital services.
- Primary health care and population health programs.
- Integrated community care services.
- Services to address the health and wellbeing of particular populations, including Aboriginal Health Programs.
- Education and training programs.
- Research.

Values

SA Health Values

The values of SA Health are used to indicate the type of conduct required by our employees and the conduct that our customers can expect from our health service:

- > We are committed to the values of integrity, respect and accountability.
- > We value care, excellence, innovation, creativity, leadership and equity in health care provision and health outcomes.
- > We demonstrate our values in our interactions with others in SA Health, the community, and those for whom we care.

Domestic and Family Violence

The WCHN recognises violence against women as a human rights issue that must be addressed in the workplace, and is committed to a zero tolerance policy towards violence against women in the workplace. Accordingly employees must appropriately report and respond to any such acts in the workplace, and make available appropriate support to employees who may be experiencing violence in the community.

Code of Ethics

The *Code of Ethics for the South Australian Public Sector* provides an ethical framework for the public sector and applies to all public service employees:

- > Democratic Values - Helping the government, under the law to serve the people of South Australia.
- > Service, Respect and Courtesy - Serving the people of South Australia.
- > Honesty and Integrity- Acting at all times in such a way as to uphold the public trust.
- > Accountability- Holding ourselves accountable for everything we do.
- > Professional Conduct Standards- Exhibiting the highest standards of professional conduct.

The Code recognises that some public sector employees are also bound by codes of conduct relevant to their profession.

Accountability – what does it mean for me?

Within WCHN everyone is accountable for their contribution to the safety and quality of care delivered to consumers.

Consumers

Consumers and their families participate as partners to the extent that they choose. These partnerships can be in their own care, and in organisational design and governance.

Staff including Contractors, Locums, Agency, Students and Volunteers

All staff (as described above) have a role in the delivery of safe, high quality care to consumers, and are expected to perform their roles with diligence; and with a person-centred approach to the best of their ability. It is the responsibility of all staff to raise concerns when it is recognised that something is not right. Safety and quality is the responsibility of all staff, at all levels and across all locations.

Clinicians

All clinicians are accountable for the provision of competent, consistent, timely, safe, reliable, contemporary and person centred care within a defined scope of practice.

Clinicians work in teams with professionals from a variety of disciplines based on mutual respect and clear communication, with an understanding of responsibilities, capabilities, constraints and each other's scope of practice.

All clinicians are responsible for providing care that is person centred, evidence based and which focuses on safety through minimising risk while achieving optimal outcomes for consumers. This is helped by participating in clinical governance, in WCHN health and safety forums, fostering a learning environment and supporting other clinicians to provide high quality services which are safe.

Clinicians are expected to speak up when there are concerns about safety so that these can be rectified and learnt from. Clinicians are accountable for their own individual professional practice, including maintaining currency of credentialing, registration and professional practice.

Managers

Managers are accountable for implementing systems and practices that support high quality clinical practice. Managers oversee, guide and direct staff by providing leadership and advice ensuring appropriate clinical governance, continuous quality improvement, and leading safety programs. Managers develop, implement and monitor performance indicators for the identification, management and reporting of risk. Managers implement the Clinical Governance Framework; Consumer Engagement Framework and the requirements of the National Safety & Quality Standards within their areas of responsibility. Managers are expected to demonstrate diligence and honesty in the management of public resources.

Managers organise, direct and manage the performance of staff to meet operational requirements; implement and promote evidence based standards and policies that are compliant with relevant, professional, industrial and legislative requirements. Managers engage with and listen to staff, and create an environment where staff feel able to speak up in relation to concerns about safety. Managers address concerns raised and provide regular, ongoing feedback in the interests of improving care and safety.

Executive/Divisional Directors

Executive/Divisional Directors are accountable for embedding the Clinical Governance Framework; Consumer Engagement Framework and the requirements of the National Safety & Quality Standards into their areas of responsibility and providing assurance to the Executive and Board that these systems are in place and work effectively, all risks are known and mitigated and that staff understand their safety and quality responsibilities.

It is expected that those holding senior leadership positions will model the highest standards of ethical and professional behaviour.

WCHN Committees

WCHN Committees support Executive Directors to implement and evaluate organisational systems, support divisions to work together to identify and mitigate risk and continuously improve practice. They support the organisation to work as a single entity.

Chief Executive Officer

The Chief Executive has overall accountability for safety, care delivery, system governance and monitoring.

Board

The Board is accountable for governance, monitoring, compliance and ensuring the executive are discharging their responsibilities in managing the organisation.
