School of Community Health, Faculty of Science – Organisational Environment

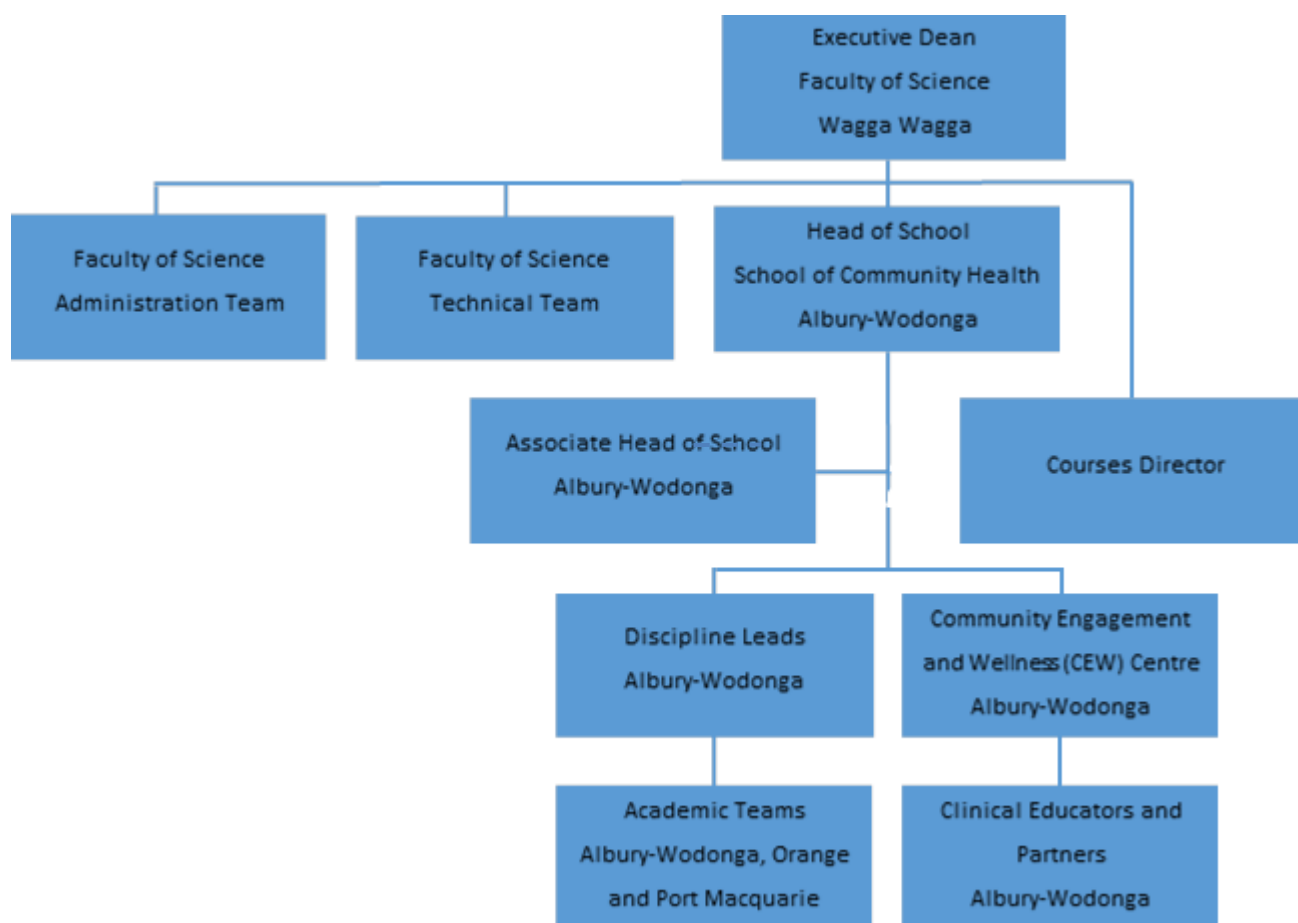

The Faculty of Science has more than 9000 students and over 500 staff dedicated to advancing scientific knowledge. It delivers flexible, innovative teaching programs designed to produce job-ready graduates for the professions. A leader in strategic and applied research in a wide array of sciences it enhances and extends knowledge, trains and educates future researchers and provides scientific solutions to current challenges. The staff and students in the Faculty achieve this through ethical practice, professional collaborations, industry involvement and a commitment to continual improvement.

The School of Community Health has a diverse range of staff who work together in the pursuit of excellence in teaching, research and community engagement. The School is focused on five professional courses including Health and Rehabilitation Science, Occupational Therapy, Physiotherapy, Podiatry and Speech Pathology. The School of Community Health provides allied health services to the community through on-campus allied health clinics on the Albury and Bathurst campuses.

In teaching we work to enable students to reach their full potential so they enhance the communities in which they work as graduate health professionals. Our research strengths have been developed through cooperative methods that link researchers from a range of backgrounds with communities.

Staff in the School of Community Health are committed to work with regional and rural communities to train and graduate future health professionals; we use research to find answers to community questions; and we work together to support people to become agents for positive change within their community.

Position Overview

The Senior Lecturer in Physiotherapy will actively engage in teaching, research, curriculum development and student engagement related to the physiotherapy course in the School of Community Health. The Senior Lecturer will be expected to use blended models of subject delivery in teaching to students, liaise effectively with the stakeholders of the course, participate in the administration and ongoing curriculum development and progress an active research profile aligned to the strategic direction of the School.

There are two positions available. The successful candidate for one of the position must have clinical and/or research experience in neurological rehabilitation. The successful candidate for the other position must have clinical and/or research experience in cardiorespiratory rehabilitation. In addition, paediatric experience is desirable.

Principal Responsibilities

1. Apply and make a significant contribution to the development, implementation and promotion of CSU learning and teaching methodologies, processes, technologies and tools to deliver high quality student centred learning opportunities in the physiotherapy discipline and as required to meet the education needs of the University. Achieve excellence in teaching in a range of delivery modes, which may include face to face and online teaching and assessment.
2. Conduct ethical, high quality research and contribute to knowledge through scholarship, publication and presentation.
3. Develop and execute a research plan that aligns with CSU's Research Plan and objectives including pursuing funding opportunities and maintaining up-to-date research records within CSU's research database.
4. Supervise Research Higher Degree students.
5. Build strong professional relationships with students and provide timely and appropriate consultation and feedback.
6. Contribute significantly to collaborative processes to design, deliver and continually improve high quality courses and learning experiences for students including the giving and receiving of constructive feedback. This also includes active contribution to the governance, marketing and promotion, and administrative activities to facilitate the work of the Faculty/School.
7. Provide leadership and management, as appropriate, in the convening, coordination and delivery of subjects and/or courses. This may include coordinating and/or leading other staff including casual academic staff.
8. Establish and maintain strategic relationships with a range of stakeholders including community, government departments, and professional bodies that bring direct benefit to the strategic work of the University, in terms of teaching, workplace learning, course profile and/or areas of research strength.
9. Expand current knowledge and understanding of physiotherapy through original contributions to industry engagement and/or scholarly activities or similar.

10. Contribute to the development and improvement of policy and practice through involvement in professional/industry associations, accreditation authorities, conference organisations, advisory bodies, and national or international delegations, consistent with the University's Outside Professional Activities Policy.

Physical Requirements

1. Physically able to sit for extended periods of time to perform reading, writing and computing related activities including keyboard and mouse operations;
2. On occasion travel in/drive a university vehicle distances up to 500kms per day within the terms of the University's Driving Hours Guidelines and Policy available at: <https://policy.csu.edu.au/view.current.php?id=00176> and <https://policy.csu.edu.au/view.current.php?id=00184>.

Selection Criteria

Applicants are expected to address the selection criteria when applying for this position.

Essential for appointment as Senior Lecturer - Level C

1. Doctorial or master degree relevant to physiotherapy or equivalent experience, accreditation and professional standing AND eligibility for AHPRA registration as a physiotherapist;
2. A record of academic achievement of national standing through significant contributions, including academic leadership, to the scholarship of teaching and/or research/creative works or professional activity;
3. Established clinical and/or research experience in either neurological or cardiorespiratory rehabilitation;
4. Comprehensive knowledge of contemporary physiotherapy gained through industry experience and/or scholarly activities or similar, including physiotherapy practice in rural and regional areas;
5. Demonstrated ability to lead others in the delivery of high quality course and subject design, and in the delivery of high quality student centred learning and teaching at an undergraduate level, that includes the capacity to incorporate new technologies and new approaches to teaching and learning;
6. Demonstrated ability to lead and build effective relationships and partnerships in an academic setting.

Desirable

1. Previous academic experience.
2. Paediatric experience
