Organisational Context

Organisational Overview:

Established as an attached office to the Department for Health and Wellbeing, Wellbeing SA will lead innovative system change to embed prevention across the life course and disease continuum, to improve physical, mental and social wellbeing and reduce the preventable burden of disease. Using a population health approach, Wellbeing SA will lead community-wide action on the determinants and risk factors of good health and wellbeing and models for care in the community.

Wellbeing SA will:

- Lead provide system leadership in prevention, the collection and use of data and evidence to inform practice and out of hospital strategies and services.
- Commission fund approaches and services for prevention, health promotion and hospital avoidance.
- Partner work collaboratively with community and stakeholders to impact health and wellbeing and coordination of care.
- Deliver support the implementation of evidence-based approaches for health promotion and integrated community-based health care.
- Prioritise focus on priority settings and priority population groups who experience poorer health outcomes and are at higher risk of preventable hospital admissions.

Our Legal Entities:

Wellbeing SA has been proclaimed as an attached office to the Department for Health and Wellbeing, under the *Public Sector Act 2009.* The Chief Executive Wellbeing SA is responsible to the Minister for Health and Wellbeing.

Wellbeing SA works with other legal entities of SA Health including Local Health Networks and SA Ambulance Service Inc.

Wellbeing SA Challenges:

South Australians generally experience good health and wellbeing with one of the safest and most advanced health systems in the world. However, like the rest of Australia and many other countries, South Australia is faced with significant challenges with an increasing and changing burden of disease and increasing health system demand, which has resulted in high utilisation of hospital services and rising health care costs.

Wellbeing SA has been established to deliver a renewed focus and action on prevention in South Australia and a broad understanding of wellbeing. The Wellbeing SA Strategic Plan 2020-2025 outlines the long term vision to create a balanced health and wellbeing system that supports improved physical, mental and social wellbeing for all South Australians. The agency goal for the first five years is to lead the system change required to support health and wellbeing and embed prevention across the life course.

Directorate:

The **Prevention and Population Health** Directorate works to build better health outcomes and avoid or defer the onset of preventable disease and disabilities using population data and best-practice to develop evidence-based prevention and health promotion strategies.
