Our University Values

Our Core Competencies

Charles Sturt University (CSU) staff are expected to demonstrate the following competencies:

Set Direction and Deliver Results

- Creating and innovating.
- Delivering results and meeting customer expectations.
- Entrepreneurial and commercial thinking.

Collaborate with Impact

- Relating and networking.
- Working with people.
- Persuading and influencing.

Lead Self and Others

- Adhering to principles and values.
- Deciding and initiating action.
- Adapting and responding to change.

Faculty of Science

The Faculty of Science delivers flexible, innovative [teaching programs](#) which provide graduates with the skills and knowledge to build a career, advance their profession and contribute to their community. We currently have more than 9000 students and over 500 staff dedicated to advancing scientific knowledge.

We are a leader in strategic and applied [research](#) in a wide array of sciences. We enhance and extend knowledge, train and educate future researchers and provide scientific solutions to current challenges. We achieve this through ethical practice, professional collaborations, industry involvement and a commitment to continual improvement.

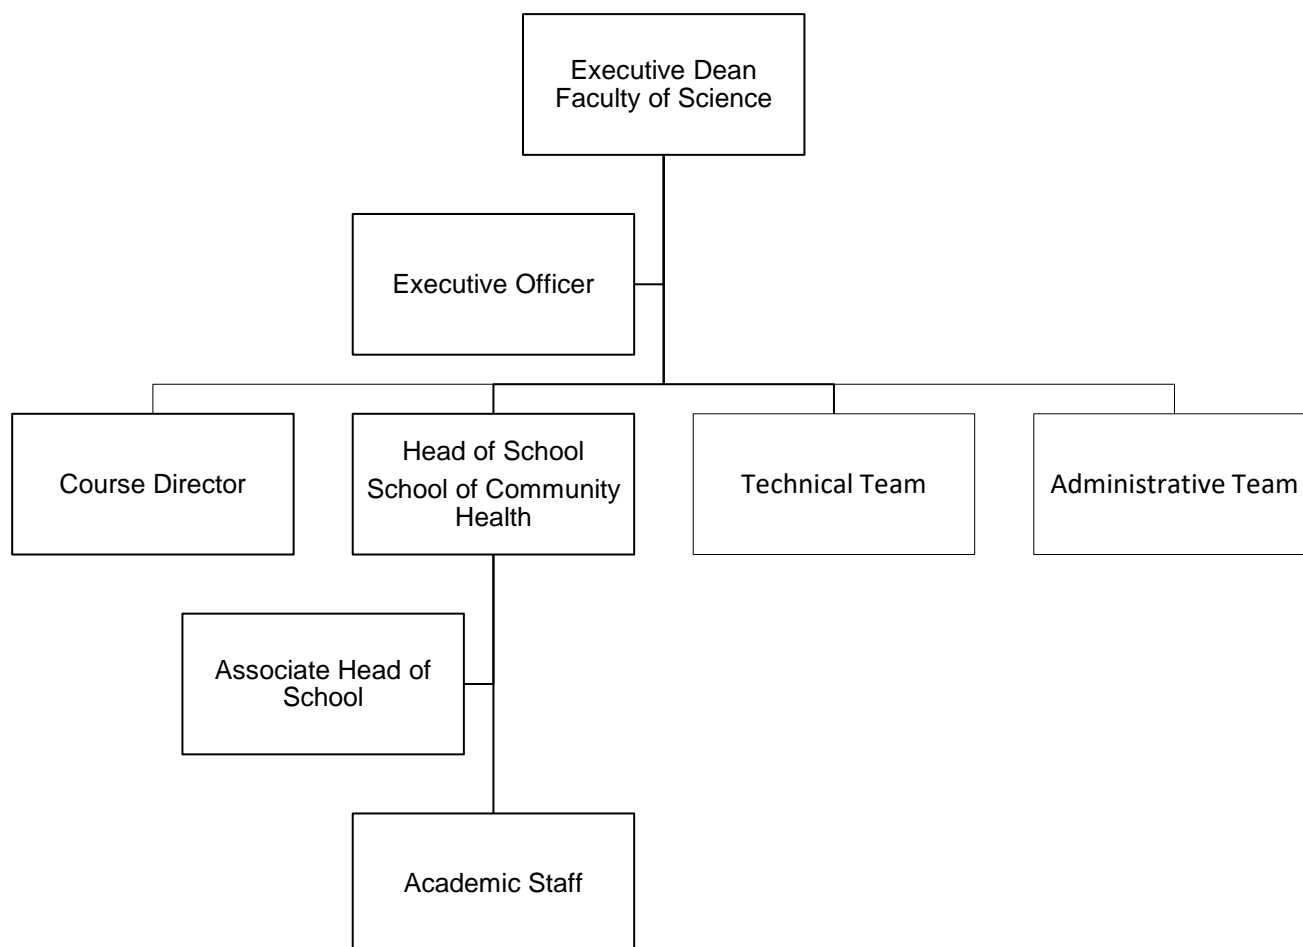

We also provide a range of health and other services to our regional communities through our [enterprise](#) activities.

School of Community Health

The School of Community Health has a diverse range of staff who work together in the pursuit of excellence in teaching, research and community engagement. The School is focused on five professional courses including health and rehabilitation science, occupational therapy, physiotherapy, podiatry and speech pathology.

Staff in the School of Community Health are committed to work with regional and rural communities to train and graduate future health professionals; we use research to find answers to community questions; and we work together to support people to become agents for positive change within their community.

Position Overview

The Lecturer in Physiotherapy will actively engage in teaching, research, curriculum development and student engagement related to the physiotherapy course in the School of Community Health. The lecturer will be expected to use blended models of subject delivery in teaching students, liaise effectively with the stakeholders of the course, participate in the administration and ongoing curriculum development and progress an active research profile aligned to the strategic direction of the School.

The successful candidate must have clinical and/or research experience in a range of physiotherapy areas and be able to teach across areas.

Principal Responsibilities

- Apply CSU learning and teaching methodologies, processes, technologies and tools to deliver high quality student centred learning opportunities in the relevant discipline and as required to meet the teaching needs of the University. Achieve excellence in teaching in a range of delivery modes, which may include face to face and online teaching and assessment.
- Conduct ethical, high quality research and contribute to knowledge through scholarship, publication and presentation.
- Develop and execute a research plan that aligns with CSU's Research Plan and objectives including pursuing funding opportunities and maintaining up-to-date research records within CSU's research database.
- Supervise Research Higher Degree and Honours students.
- Build strong professional relationships with students and provide timely and appropriate consultation and feedback.
- Actively contribute to collaborative processes to design, deliver and continually improve high quality courses and learning experiences for students. This also includes active contribution to the governance, marketing and promotion, and administrative activities to facilitate the work of the Faculty/School.
- Provide leadership and management, as appropriate, in the convening, coordination and delivery of subjects and/or courses. This may include coordinating and/or leading other staff including casual academic staff.
- Proactively develop and foster relationships with a range of stakeholders including community, government departments, and professional bodies that bring direct benefit to the strategic work of the University, in terms of teaching, workplace learning, course profile and/or areas of research strength.

- Maintain a sound and current knowledge and understanding of physiotherapy through industry engagement and/or scholarly activities or similar.
- Contribute to the development and improvement of policy and practice through involvement in professional/industry associations, accreditation authorities, conference organisations, advisory bodies, and national or international delegations, consistent with the University's Outside Professional Activities Policy.
- Other duties appropriate to the classification as required.

Physical Requirements

- Physically able to sit for extended periods of time to perform reading, writing and computing related activities including keyboard and mouse operations;
- On occasion travel in/drive a university vehicle distances up to 500kms per day within the terms of the University's Driving Hours Guidelines and Policy available at: <https://policy.csu.edu.au/view.current.php?id=00176> and <https://policy.csu.edu.au/view.current.php?id=00184>.

Selection Criteria

Applicants are expected to address the selection criteria when applying for this position.

Essential

- A. Doctoral or masters qualification relevant to physiotherapy or equivalent accreditation and standing, AND eligibility for AHPRA registration as a physiotherapist;
- B. Record of research/publication or professional activity relevant to the discipline area, which demonstrates a capacity to make an autonomous contribution;
- C. Sound clinical and/or research experience in a range of physiotherapy areas and ability to teach across areas;
- D. Sound knowledge and understanding of contemporary physiotherapy gained through industry experience and/or scholarly activities or similar, including physiotherapy practice in rural and regional areas;
- E. Demonstrated ability to contribute to course and subject design, and to deliver high quality student centred learning and teaching at an undergraduate level that includes the capacity to incorporate new technologies and new approaches to teaching and learning.
