Overview of program

Research has shown that children and young people in Out of Home Care (OOHC) are one of the most disadvantaged and marginalised cohorts in our society. These children also experience poorer educational outcomes in comparison to the general student population.

In 2013 Anglicare Victoria embarked on a journey to explore ways in which the organisation and the service system as a whole could improve the educational outcomes for children and young people residing in OOHC. The result was the TEACHaR program ('Transforming Educational Achievement for Children at Risk'). TEACHaR is an aspirational and flexible education program which provides targeted educational support to children and young people residing in OOHC, facilitated by registered teachers. The program also works collaboratively with schools, case managers, DHHS and DET, providing consultation, information and professional development, and student advocacy, particularly in the context of student's experiencing school disengagement, underachievement and complex behaviours.
