## **Faculty of Science**

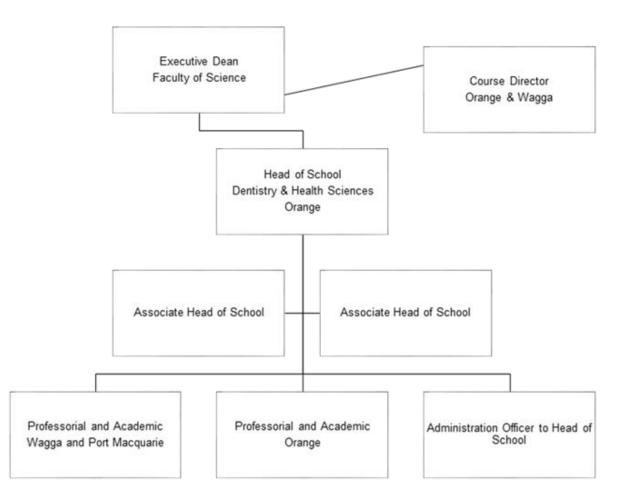

The <u>Faculty of Science</u> has more than 9000 students and over 500 staff dedicated to advancing scientific knowledge. It delivers flexible and innovative teaching programs designed to produce job-ready graduates for a diverse range of professions. As a leader in strategic and applied research the Faculty aims to enhance and extend scientific knowledge, train and educate future researchers as well as provide scientific solutions to current regional, national and global challenges. The staff and students of the Faculty achieve their educational and research goals through ethical practice, professional collaboration, industry involvement and a commitment to continual improvement.

The <u>School of Dentistry and Health Sciences</u> is a multi-campus, academic unit. The School offers a suite of undergraduate and postgraduate courses both onshore and offshore in a range of health disciplines including: Dentistry, Oral Health Therapy, Medical Radiation Science (medical imaging, nuclear medicine, radiation therapy, medical ultrasound and mammography) and Physics. The School is committed to enhancing its reputation as a high performing multidisciplinary school and seeks academics focused on providing quality education and being actively involved in a variety of development of health professional education and health based research programs that complement these courses.

Staff are focused on innovative and high quality education, using vibrant new learning spaces to encourage collaboration and support new methods of teaching and learning.

Through patient care, research and community service, our students and staff will also play a major role in helping to improve the oral and systemic health of people in regional/remote New South Wales, and across the nation and the world.

## Key Working Relationships

Head of School Course Director Faculty and School Staff

#### **Position Overview**

The Senior Lecturer in Diagnostic Radiography will actively engage in teaching, research and curriculum development related to the Medical Radiation Sciences in the School of Dentistry and Health Sciences.

The appointee will have extensive clinical experience within the field of medical imaging and can demonstrate education experience within the clinical and/or academic setting. The appointee will be responsible for teaching a range of subjects which may include general radiography, medical radiation science, professional fundamentals and clinical simulation.

It will be expected that multiple teaching methods (face to face and online delivery) are utilised. The appointee will participate in the administration and ongoing curriculum development and progress an active research profile that aligns with both the University and Schools direction.

### **Principal Responsibilities**

- Make a significant contribution to the development, implementation and promotion of CSU learning and teaching methodologies, processes, technologies and tools to deliver high quality student centred learning opportunities in the discipline of medical imaging and as required to meet the teaching needs of the University. Achieve excellence in teaching in a range of delivery modes, which may include face to face and online teaching and assessment.
- Supervise Research Higher Degree students.
- Build strong professional relationships with students and provide timely and appropriate consultation and feedback.
- Contribute significantly to collaborative processes to design, deliver and continually improve high quality courses and learning experiences for students including the giving and receiving of constructive feedback.
- Actively contribute to high performing multi-disciplinary teams with an outcome focus and the development of a respectful, trusting and collaborative working environment.
- Provide leadership and management, as appropriate, in the convening, coordination and delivery of subjects and/or courses. This may include coordinating and/or leading other staff including sessional academic staff.
- Maintain a sound and current knowledge and understanding of the relevant discipline through industry engagement and/or scholarly activities or similar.
- Conduct ethical, high quality research/creative works to his/her discipline at a national level through scholarship, publication and presentation.

- Develop and execute a research plan which aligns with CSU's Research Plan and objectives including pursuing funding opportunities and maintaining up-to-date research records within CSU's research database.
- Develop, lead and/or evaluate continuing professional education and maintain professional accreditation.
- Actively contribute to the governance, marketing and promotion, and administrative activities to facilitate the work of the Faculty/School.
- Other duties appropriate to the classification as required

# **Physical Capabilities**

- Physically able to sit for extended periods of time to perform reading, writing and computing related activities including keyboard and mouse operations;
- On occasion travel in/drive a university vehicle distances up to 500kms per day within the terms of the University's Driving Hours Guidelines and Policy available at: <u>https://policy.csu.edu.au/view.current.php?id=00176</u> and <u>https://policy.csu.edu.au/view.current.php?id=00184</u>.

# **Selection Criteria**

Applicants are expected to address the selection criteria when applying for this position.

Please outline and demonstrate evidence of qualifications and relevant experience as per the selection criteria. There is no need to attach your qualification documents or reference letters in the application. You will be required to have your qualification documents and identifications inspected upon instructions if you are successful in your application.

## **Essential Criteria**

- A. A doctoral qualification relevant to diagnostic radiography or equivalent accreditation and standing.
- B. Demonstrated evidence of eligibility for **full registration** as a **Diagnostic Radiographer** with Australian Health Practitioner Regulation Agency (AHPRA). Overseas trained practitioners will be required to demonstrate evidence of having consulted with AHPRA regarding their eligibility for registration in Australia.
- C. Demonstrated evidence of a minimum of seven years' clinical experience in general radiography, computed tomography or magnetic resonance imaging, or a combination of the above.
- D. A record of significant academic achievement relevant to diagnostic radiography, medical radiation sciences or health sciences, and at a national level in the scholarship of teaching, and/ or research, or professional activity.
- E. Demonstrated evidence of experience in building effective partnerships, networks or relationships with the profession of medical radiation science, clinical sites and/or other academic institutes.
- F. Demonstrated leadership in an academic or clinical setting.

#### Information for Prospective Staff
