

Senior Engineer - Development Services

Division	Planning	Department	Development Services
Reports To	Coordinator Engineering Assessment	Direct Reports	No

Position Purpose

This position will provide specialist advice and lead the engineering assessment of moderately complex development matters and the impact of development on transport and stormwater infrastructure to meet the needs of the community within the Moreton Bay Regional Council area.

Key Responsibilities and Outcomes

Operational

As a Senior Engineer within the Development Services team you will:

- Provide specialist advice to Council or its delegate on moderately complex development matters relating to transport and stormwater infrastructure as well as flood and storm tide inundation hazard.
- Lead the assessment of moderately complex development applications in line with legislative, policy and business requirements.
- As Council's delegate, decide development applications or prepare recommendation for review and decision by principal officer as required.
- Provide specialist engineering advice and input into the development assessment process and the recovery of the cost of infrastructure, including negotiation of moderately complex infrastructure agreements.
- Undertake site inspections and investigations to support the engineering assessment of development applications including resolution of transport and stormwater issues.
- Provide technical oversight and guidance to Engineers in the review and assessment of development applications to ensure assessment outcomes and deliverables are met.
- Contribute to a positive team environment in order to achieve a high performance, continuous improvement and customer focused culture.
- Build strong relationships across a range of diverse internal and external stakeholders to ensure quality services outcomes are achieved.

Values

At Moreton Bay Regional Council we are on a journey to creating a great culture. Our values shape the way we behave and how we interact with each other to deliver the best service to the community. The safety of you and the community is our number one priority and we are all responsible for creating an inclusive, safe workplace and protecting our environment. As a team member you will take individual accountability for demonstrating the values expectations and behaviours.

Decision Making

Budget - Nil

Delegations - Delegations under the Local Government Act 2009 and as directed and published in Council's Delegation Register.

Knowledge & Experience

- Comprehensive knowledge and experience in the delivery of engineering assessment and compliance services.
- Comprehensive knowledge in the principles and practices relating to the planning, design and construction of transport and stormwater infrastructure.
- Comprehensive knowledge of the State Planning Policy, the SEQ Regional Plan, the Planning scheme, and the Adopted Infrastructure Charge Resolution.
- Demonstrated experience applying relevant planning and development legislation and policy.
- Demonstrated experience providing technical oversight and direction to Engineers.
- Strong communication skills to meet the needs of a range of internal and external stakeholders with the ability to work in a positive team environment communicating and engaging effectively at all levels.
- Strong influencing skills and the ability to negotiate moderately complex infrastructure and other commercial agreements.

Qualifications

- Degree in Civil Engineering or equivalent.
- General Induction licence (White Card).
- Current C class driver's licence.
