

SELECTION CRITERIA

Use this form to define the selection criteria for an academic position at the University of Adelaide.

POSITION DETAILS					
School/Branch:	Health and Medical Sciences, Adelaide Centre for Epigenetics and South Australian immunoGENomics Cancer Institute				
Classification	Level D				

ESSENTIAL MINIMUM CRITERIA

- 1. PhD or equivalent.
- 2. Well established national and international collaborations across disciplines.
- 3. Success with competitive peer reviewed funding, and an understanding of the Australian competitive grant process, in particular the NHMRC but also extending to disease-specific funding bodies. Evidence of significant contribution to peer review panels and processes.
- 4. Evidence of having worked in and having made a leadership level contribution towards the development of collegial and high functioning, productive work environments.
 - https://www.adelaide.edu.au/hr/organisational-development/university- values/staff-values-and-behaviour-framework
- 5. Success with sourcing philanthropic funding (from trusts and foundations, or high net worth individuals, or from corporate sponsorship) and the ability to provide compelling lay descriptions (verbally and in writing) of the research and its purpose for a philanthropic audience and wider community.
- 6. Able to support, mentor, lead and inspire colleagues in a way that encourages and enables collaboration across HMR and other disciplines. Evidence of having made a leadership contribution that has encouraged and enabled cross disciplinary collaboration.

In addition to the specific academic Level D duties, as an EMBL Australia Group Leader the appointee will

- Build an inclusive and supportive culture within the laboratory and across the Partner Laboratory Network (PLN).
- Actively contribute to the development of the PLN:
 - o Participating in the EMBL Australia scientific summits, workshops and retreats;
 - Contributing to the development of outreach programs including the EMBL Australia PhD Course and Postgraduate Symposium, prizes and travel grants;
 - o Communicating research outputs to the PLN.

DESIRED CHARACTERISTICS

- An understanding of (human and animal) health and medical research ethics including experience with relevant processes and their application in a modern Australian health and medical research environment.
- 2. Evidence of having made a useful and recognised contribution towards the administrative needs of a former work environment in a university, hospital or medical research institute.
- Evidence of understanding of the issues surrounding research conduct expectations and an ability to mentor others.
