Position Summary

The Melbourne Institute: Applied Economic & Social Research is Australia's leading applied economics and social policy research institute. It has a longstanding history of rigorous study and analysis of economic and social issues affecting broader society. Areas of research include labour markets and employment, social disadvantage, health economics and markets, education and child development, macroeconomics, and public economics. The Institute is known for establishing and curating several panel surveys, including Journeys Home, Medicine in Australia: Balancing Employment and Life (MABEL) and Household, Income and Labour Dynamics in Australia (HILDA), as well as working with administrative data, behavioural data and conducting randomized control trials. The Institute combines the expertise needed to model and frame policy relevant questions with data and analytical analysis. The Institute works on a range of projects that involves collaboration with and policy analysis for government, industry, and the not for profit sector. As a department in the Faculty of Business and Economics, the Melbourne Institute is focused on undertaking academic research and engaging with non-academic stakeholders on a range of projects that help to fulfil its mission of informing Australian Economic and Social Policy.

The Project Fellow is a one-year position created to provide an opportunity for highly-motivated, highly-qualified post-honours and/or masters degree candidates to gain experience and exposure to the undertaking of applied economic projects focused on policy analysis. The Fellow will be supervised by senior research staff and will be involved in the development of projects and the writing of reports and related publications. It is expected that the Fellow will be involved in the day to day and higher level project management that involves interacting with academic and non-academic stakeholders, provide data and analytical support to team members and take on more complex tasks over the course of the fellowship. This is an opportunity for professional learning and growth especially in the management of policy relevant projects and reports. Throughout the fellowship program, the successful candidate will receive extensive training to develop the capabilities for identifying and understanding important issues, managing projects and writing/organizing/editing of reports and related documents for a non-academic audience.

1. Key Responsibilities

The Project Fellow will work on various projects of the Melbourne Institute. Specific duties include:

- ▶ The conduct of research and research support activities either as a member of a team or independently, as directed by senior members of the research area.
- ▶ Provide research support under routine supervision or as a member of a project team.
- ▶ Contribute to data management and documentation.
- ▶ Develop material for contribution to the production of policy reports, memorandum, working papers, publications and research briefs with guidance from senior staff.
- ▶ Attend meetings associated with research projects and the work of the Melbourne Institute

- ▶ Occupational Health and Safety (OH&S) and Environmental Health and Safety (EH&S) responsibilities as outlined in section 5.

2. Selection Criteria

2.1 ESSENTIAL

- ▶ An Honours and/or Masters degree in Economics or a related sub-field. Similar qualifications in another quantitative social science (health services research, psychology) or statistics/data analytics would also be considered.
- ▶ Demonstrated ability to assist with the undertaking of applied research and interacting with funders of the research/projects being undertaken by the Melbourne Institute
- ▶ Strong analytical skills and/or critical thinking skills
- ▶ An ability and willingness to work collaboratively to ensure successful project outcomes.
- ▶ A track record in research and writing, and the potential to develop further research expertise
- ▶ An ability to liaise with external clients in academic, government and non-government sectors
- ▶ Demonstrated ability to work independently and as part of a project team
- ▶ High level verbal and written communication skills with the ability to relate effectively with a range of people across all levels of the organisation
- ▶ High level of proficiency in the use of standard application software such as the Microsoft Office suite

2.2 DESIRABLE

- ▶ Research experience as it relates to understanding how to frame questions and undertake analyses to answer these questions
- ▶ Experience in the collection and analysis of administrative data and survey data
- ▶ Experience with the use of statistical software packages, such as STATA, R and SAS.

3. Equal Opportunity, Diversity and Inclusion

The University is an equal opportunity employer and is committed to providing a workplace free from all forms of unlawful discrimination, harassment, bullying, vilification and victimisation. The University makes decisions on employment, promotion and reward on the basis of merit.

The University is committed to all aspects of equal opportunity, diversity and inclusion in the workplace and to providing all staff, students, contractors, honorary appointees, volunteers and visitors with a safe, respectful and rewarding environment free from all forms of unlawful discrimination, harassment, vilification and victimisation. This commitment is set out in the University's People Strategy 2015-2020 and policies that address diversity and inclusion, equal employment opportunity, discrimination, sexual harassment, bullying and appropriate workplace behaviour. All staff are required to comply with all University policies.

The University values diversity because we recognise that the differences in our people's age, race, ethnicity, culture, gender, nationality, sexual orientation, physical ability and background bring richness to our work environment. Consequently, the People Strategy sets out the strategic aim to drive diversity and inclusion across the University to create an environment where the compounding benefits of a diverse workforce are recognised as vital in our continuous desire to strive for excellence and reach the targets of Growing Esteem.

4. Occupational Health and Safety (OHS)

All staff are required to take reasonable care for their own health and safety and that of other personnel who may be affected by their conduct.

OHS responsibilities applicable to positions are published at:

<http://safety.unimelb.edu.au/people/community/responsibilities-of-personnel>

These include general staff responsibilities and those additional responsibilities that apply for Managers and Supervisors and other Personnel.

5. Other Information

5.1 ORGANISATION UNIT

<http://melbourneinstitute.unimelb.edu.au/>

The Melbourne Institute is a research-only department within the Faculty of Business and Economics at the University of Melbourne. It is Australia's leading and longest standing research institute in the field of economics, undertaking cutting-edge research into key issues relevant to modern economic and social policy.

The Melbourne Institute has a core faculty of some 40 academics, 17 research support staff, a further 16 honorary fellows, 11 professional/administrative support staff, and 8 PhD students. Reflecting the standards of research excellence achieved at the Melbourne Institute, staff are expected to publish in internationally acclaimed peer reviewed journals and to lead the public debate on economic and social policy.

The Melbourne Institute currently has an organisational structure with program areas that capture several areas of economic and social policy. Each senior research staff (academic level D & E) is expected to bring in external funding to support staffing costs and operational needs of the department. Researchers may work on projects in different programs, consistent with their research capabilities and work demands.

The Melbourne Institute also provides postgraduate education at the PhD level.

5.2 BUDGET DIVISION

The Faculty of Business and Economics at the University of Melbourne has been preparing students for exciting and challenging careers in industry since 1924. We have developed an outstanding reputation, locally and internationally, for the quality of our teaching and research. The Faculty has an active board of business leaders, government representatives and community leaders who contribute to the implementation of our vision.

Organisational Structure

The Faculty is home to Melbourne Business School (MBS) and to six teaching and research departments:

- Accounting
- Business Administration
- Economics
- Finance
- Management and Marketing
- Melbourne Institute: Applied Economic & Social Research
- Melbourne School of Professional and Continuing Education

The Faculty has the following student and academic support centres:

- Academic Support Office
- Student Employability and Enrichment
- Research Development Unit
- The Williams Centre for Learning Advancement

The Faculty is supported by the following Professional Services Units:

- Finance
- Human Resources (including OHS)
- Marketing and Communications
- Service Level and Facilities Management
- Quality Office

The Faculty also hosts two University-wide initiatives:

- ▶ The Melbourne School of Professional and Continuing Education (MSPACE) which provides support to all Academic Divisions for their existing professional, continuing and executive education programs, and operates with a specific whole-of-institution mandate to significantly expand the University's professional, continuing and executive education offerings.
- ▶ The Melbourne Entrepreneurial Centre (MEC) which brings together a number of programs to focus a range of activities aimed at developing an entrepreneurial culture at the University of Melbourne.

Our Programs

There are about 9,500 students enrolled in undergraduate and graduate degrees within the Faculty.

The Bachelor of Commerce is one of the most sought-after business courses in Australia. From 1 May 2013 all graduate programs in business and economics are offered through Melbourne Business School. Melbourne Business School offers a full suite of professional masters programs for those with little work experience right through to the MBA suite. It is also the home of leading research masters degrees and the PhD.

Our Graduates

Since the Faculty was established it has produced over 53,000 graduates. Many of our alumni now occupy senior positions in business, government and academia, in Australia and around the world.

Further information about the Faculty is available at www.fbe.unimelb.edu.au.

5.3 THE UNIVERSITY OF MELBOURNE

Established in 1853, the University of Melbourne is a leading international university with a tradition of excellence in teaching and research. The main campus in Parkville is recognised as the hub of Australia's premier knowledge precinct comprising eight hospitals, many leading research institutes and a wide-range of knowledge-based industries. With outstanding performance in international rankings, the University is at the forefront of higher education in the Asia-Pacific region and the world.

The University employs people of outstanding calibre and offers a unique environment where staff are valued and rewarded.

Further information about working at The University of Melbourne is available at <http://about.unimelb.edu.au/careers>.

5.4 GROWING ESTEEM, THE MELBOURNE CURRICULUM AND RESEARCH AT MELBOURNE: ENSURING EXCELLENCE AND IMPACT TO 2025

Growing Esteem describes Melbourne's strategy to achieve its aspiration to be a public-spirited and internationally-engaged institution, highly regarded for making distinctive contributions to society in research and research training, learning and teaching, and engagement. <http://about.unimelb.edu.au/strategy-and-leadership>

The University is at the forefront of Australia's changing higher education system and offers a distinctive model of education known collectively as the Melbourne Curriculum. The new educational model, designed for an outstanding experience for all students, is based on six broad undergraduate programs followed by a graduate professional degree, research higher degree or entry directly into employment. The emphasis on academic breadth as well as disciplinary depth in the new degrees ensures that graduates will have the capacity to succeed in a world where knowledge boundaries are shifting and reforming to create new frontiers and challenges. In moving to the new model, the University is also aligning itself with the best of emerging European and Asian practice and well-established North American traditions.

The University's global aspirations seek to make significant contributions to major social, economic and environmental challenges. Accordingly, the University's research strategy *Research at Melbourne: Ensuring Excellence and Impact to 2025* aspires to a significant advancement in the excellence and impact of its research outputs.

<http://research.unimelb.edu.au/our-research/research-at-melbourne>

The strategy recognises that as a public-spirited, research-intensive institution of the future, the University must strive to make a tangible impact in Australia and the world, working across disciplinary and sectoral boundaries and building deeper and more substantive engagement with industry, collaborators and partners. While cultivating the fundamental enabling disciplines through investigator-driven research, the University has

adopted three grand challenges aspiring to solve some of the most difficult problems facing our world in the next century. These Grand Challenges include:

- ▶ Understanding our place and purpose – The place and purpose grand challenge centres on understanding all aspects of our national identity, with a focus on Australia's 'place' in the Asia-Pacific region and the world, and on our 'purpose' or mission to improve all dimensions of the human condition through our research.
- ▶ Fostering health and wellbeing – The health and wellbeing grand challenge focuses on building the scale and breadth of our capabilities in population and global health; on harnessing our contribution to the 'convergence revolution' of biomedical and health research, bringing together the life sciences, engineering and the physical sciences; and on addressing the physical, mental and social aspects of wellbeing by looking beyond the traditional boundaries of biomedicine.
- ▶ Supporting sustainability and resilience – The sustainability and resilience grand challenge addresses the critical issues of climate change, water and food security, sustainable energy and designing resilient cities and regions. In addition to the technical aspects, this grand challenge considers the physical and social functioning of cities, connecting physical phenomena with lessons from our past, and the implications of the technical solutions for economies, living patterns and behaviours.

Essential to tackling these challenges, an outstanding faculty, high performing students, wide collaboration including internationally and deep partnerships with external parties form central components of Research at Melbourne: Ensuring Excellence and Impact to 2025.

5.5 GOVERNANCE

The Vice Chancellor is the Chief Executive Officer of the University and responsible to Council for the good management of the University.

Comprehensive information about the University of Melbourne and its governance structure is available at <http://www.unimelb.edu.au/governance>
