Position Purpose

To plan, coordinate and supervise the activities of assigned teams within council's Projects and Asset Services and Maintenance Operations department, to deliver effective, consistent and cost-efficient services to achieve required outcomes for the Moreton Bay Region.

Key Responsibilities and Outcomes

- Supervise the day to day operations of assigned teams, to ensure all works are carried out safely and efficiently in a customer services orientated manner.
- Develop the skills of assigned teams to ensure all team members undertake and deliver operational maintenance functions effectively.
- Develop scheduled and unscheduled work programs, including the end to end management of all resources to ensure works are completed in a cost effective and timely manner to councils agreed quality standards.
- Review and assess customer requests relating to maintenance functions within the region and manage accordingly.
- Support management in developing the annual budget, annual plant and equipment request submissions, policies, procedures and guidelines.
- Develop and maintain a level of technical expertise sufficient to develop a range of solutions relating to maintenance issues.
- Manage the performance of engaged subcontractors in the delivery of maintenance projects.

Our Values

Our values shape the way we behave, how we interact with each other and our customers. They underpin our decision making and are our guiding principles for how we work every day. As a team member you will take individual accountability for demonstrating the values expectations and behaviours in this role.
