| Supervisor Position Number | FSR |
| Position Number | FSR |

Your work area

The Discipline of Architecture in the School of Design offers undergraduate and postgraduate degree courses as well as research-based doctoral degrees. Academics in the Department deliver high quality teaching and conduct high quality research.

Reporting structure

Reports to: Dean/Head of School

Your role

We are looking for individuals who will enthusiastically support the strategic ambitions of the Architecture discipline to drive a future-focused and outward looking agenda, grounded in our unique positioning on the Indian Ocean Rim in the world's most populous region and in an environment of extraordinary biodiversity. As the appointee, you will be under the supervision of the Dean/Head of School, and be expected to contribute to teaching and service within the School, University, and wider community.

Your key responsibilities

Demonstrated ability to teach, and have experience in some or all of:

- Architectural construction, technology and materials; building codes and compliance; architectural documentation
- Thermal analysis, decarbonisation and life cycle assessment
- Architectural design

Demonstrate a significant personal contribution and commitment to high quality teaching and learning, including prior teaching experience

Show evidence of an active role in the maintenance of academic standards and in the development of teaching pedagogy and subject curricula

Show willingness to liaise with members of the community and, where appropriate, professional and relevant industry bodies

Other duties as directed

Your specific work capabilities (selection criteria)

Professional qualification in Architecture (Master of Architecture or equivalent)

Registration or eligible to be registered as an architect in Western Australia with current practice experience (desirable)

Demonstrated interest in design development and construction documentation stages of architecture, with ability to translate into curriculum and teaching initiatives

Demonstrated interest in thermal analysis and whole of life carbon analysis, with ability to translate into curriculum and teaching initiatives

Demonstrated personal commitment to, and achievement in, high quality teaching and communication of that achievement to others

Demonstrated willingness to be involved in academic and professional activities and in school policy development and administrative matters

Willingness to work within the legislative requirements of the University and support the University's commitment to equity

Willingness to generate teaching materials for practice-based units including handouts, checklists, reference guides, and like quality assurance practice-based manuals

Special requirements (selection criteria)

There are no special requirements

Compliance

Ensure you are aware of and comply with legislation and University policy relevant to the duties undertaken, including:

The University's Code of Conduct hr.uwa.edu.au/policies/policies/conduct/code/conduct

Inclusion and Diversity web.uwa.edu.au/inclusion-diversity

Safety, health and wellbeing safety.uwa.edu.au/
